Bra Fitting and Yoga Night

Thank you to the Purdue Cheer and Stunt Club for coming out to our Moving Comfort Bra Special. The girls got fitted by our Bra Specialist who provided the club with some useful knowledge about the various types of bras and the importance of finding the right fit. They were also able to relax and enjoy a yoga session by the talented Sharon Snyder.

Are you in need of a new bra? Most bras have a life span of about 6 months. Fleet Feet offers a variety of bras for all types of activities. **Come in for your free Bra Fitting today!**

If you or anybody you know has a club, team, sorority or any other group interested in doing an in-store event such as this, let us know! Contact Alyssa at alysawfleetfeet@gmail.com.

This Just In!

Mizuno Breath Thermal

We have more Mizuno Breath Thermal Wear for both men and women. **Both top base and outer layers are available as well as new women's tights and men's pants!** Breath Thermal is a new technology by Mizuno where the unique type of thermal fabric captures the heat from the absorption of moisture and returns warmth back to the body. This fabric allows you to wear less clothing but still stay warm.

Also new this season is our selection of knuckle lights. These lights are perfect for running at or near dusk and dark. We have a variety of outer shell colors and each LED light has three light options-bright, dim, and strobe.
