**RE: *Engineer's Certification Regarding Filled Areas
Proposed Granville County HUB Site
Granville County, North Carolina
ECS, Ltd. Project Number 12496-B***

Dear Ms. Morphis:

During our recent subsurface investigation at the above-referenced site, no fill material was encountered at our boring locations. To the best of our knowledge, there does not appear to be any areas, other than the pond dam embankment and minor fills related to Tom Parham Road, containing fill material on the site. Therefore, an Engineer's Certification Regarding Filled Areas does not apply for this particular site.

Should you have any questions or if we could be of further assistance, please do not hesitate to contact us.

Respectfully,

ENGINEERING CONSULTING SERVICES, LTD.
