

The Capital Area Metropolitan Planning Organization cordially invites you and your guests to the

NORTHEAST AREA STUDY

FINAL PROJECT SYMPOSIUM: Charting the Way to 2040

SEPTEMBER 24 | 4 PM TO 7 PM

THE CAPITAL AREA MPO, IN COOPERATION WITH YOUR TOWN AND COUNTY, is preparing to hold its second and final NEAS Project Symposium. This Symposium will focus on the findings of our assessment of future travel and development decisions, and allow you and your fellow decision-makers and citizens to help shape and prioritize new directions for roadway, public transit, bicycling and walking in and around your community. The following describes our voyage and the location, conveniently minutes away from US Highway 1 and NC 98 in Wake Forest:

The Millroom at The Factory

1839 South Main Street, Wake Forest

4pm to 7pm | September 24, 2013

4PM - BOARDING AND PREPARING TO SET SAIL: Learn what we know about the future of your place, and talk to us one-on-one to give us your specific feedback and priorities; we're catering for this event, so please enjoy locally sourced foods while on board

5PM - PRESENTATION: CHARTING THE FUTURE STATE OF OUR REGION: Hear from our panel of speakers about the way our place will grow by 2040, and give us your input on the economic, health, and, of course, transportation effects to our communities

5:30PM - TACKLING INTO THE WIND: In small groups, you'll have fun working with us to get your input on projects that would most benefit the future of your community

WE WANT TO SEE YOU THERE - DIRECTIONS AND PARKING ON THE BACK

DIRECTIONS TO AND PARKING AT 1839 SOUTH MAIN STREET, WAKE FOREST

Parking is free at The Factory

Take US Highway 1 or NC 98 to US Highway 1 Alt (South Main Street); turn into The Factory parking lot and park in any area shown on the site diagram below marked with a "P."
Make your way through the building to the only set of stairs or elevator to the second floor and the Millroom (marked with an "X").

PLEASE CALL 919-601-9098 (SCOTT LANE) IF YOU NEED ANY ASSISTANCE WHATSOEVER
