VI. ACKNOWLEDGEMENTS

We acknowledge the contributions of many individuals and organizations who contributed to this project, particularly those who enabled us to summarize secondary data.

Data Acquisition

1. Marsha Ford and Rebecca Rembert for assistance with obtaining the Data Use Agreement to allow use of the Carolinas Poison Center call data for Wake County in NC DETECT.
2. Jeff Williams and Brent Myers for assistance with obtaining the Data Use Agreement to allow use of the Wake County EMS response data in NC DETECT and to obtain the EMS Pediatric Trauma Care Toolkit report for Wake County through EMSPIC.
3. The NC DETECT Data Oversight Committee for assistance with obtaining the Data Use Agreement to allow use of the Wake County ED visit data in NC DETECT.

Data Analysis

1. Scott Proescholdbell, of the NC Injury and Violence Prevention Branch of the Division of Public Health, for assistance with running data requests and providing outputs from the NC Violent Death Reporting System and the NC Hospital Discharge Data.
2. Clifton Barnett, of CCHI, for assistance accessing and analyzing the Carolinas Poison Center call data.
3. Dennis Falls, of CCHI, for assistance accessing and analyzing the Wake County EMS response data.
4. Ezekial Budda, Derek Traughber, and Paul Cooper, of the UNC EMS Performance Improvement Center, for providing the Wake County Pediatric Trauma Toolkit report.
5. Eric Rodgman, of the UNC Highway Safety Research Center, for providing tables for reportable crashes in Wake County involving children ages 0-17 years from the NC Department of Transportation crash data files.
6. Katie Harmon, UNC Injury Prevention Research Center and CCHI, for sharing her SAS code and expertise for analyzing ED visits due to injury.
7. Meghan Shanahan, UNC Injury Prevention Research Center, for sharing her research exploring the identification of child maltreatment related ED visits in Wake County.

Wording required by NC DETECT ED visit data DUA

The ED visit data were obtained from NC DETECT under a Data Use Agreement with the North Carolina Division of Public Health. The NC DETECT Data Oversight Committee does not take responsibility for the scientific validity or accuracy of methodology, results, statistical analyses, or conclusions presented.

Wording required by CPC call data DUA

The Carolinas Poison Center call data from NC DETECT were provided under a Data Use Agreement with the Carolinas Poison Center.

Wording required by Wake County EMS response data DUA

The Wake County EMS response data from NC DETECT and the Wake County Pediatric Trauma Toolkit report from EMSPIC were provided under a Data Use Agreement with the Wake County EMS Data System. The Wake County EMS Data System supports, maintains, and monitors EMS service delivery, patient care, and disaster preparedness for the Wake County, NC community at large. This report was not prepared in collaboration with investigators of the Wake County EMS Data System and does not necessarily reflect the opinions or views of the Wake County EMS System or the community partners participating in the Wake County EMS Data System.
