#### **Collaborative and Strategic Support**

Medical Expert Consulting Services (MECS) delivers superior, strategic and timely expert medical consulting to defense attorneys, insurance companies and self-insured entities.

MECS provides:

- Reliable case review, research and analysis
- Medical record interpretation and translation
- Chronologies prepared from medical records
- Detection of medical record tampering or inconsistencies
- Written reports/standard of care analysis
- Evaluation of opposing opinions
- Identification of important case themes
- Deposition and trial testimony
- Assistance in preparation of demonstrative evidence

#### **Expert Resource**

Our expert medical consultants provide a specialized knowledge of medicine, nursing and dynamics of healthcare delivery systems. This enables MECS to bring specialized education and clinical expertise to the complex medical issues of healthcare litigation.

MECS consultants are carefully selected and familiar with reporting requirements and timelines critical to the litigation process. Additionally, MECS consultants deliver an unmatched level of professionalism and confidence within their areas of expertise.

#### **Exceeding Client Expectations**

MECS is HIPAA compliant and works with each client to address specific needs including cost-effective pricing and required date of completion. Consultants are available across the United States to accommodate the varying needs of our clients.
