- (1) the setback for an above ground swimming pool from any lot line equals the required setback for accessory structures in the district in which it is located plus one foot for each foot over five of pool height,

When a swimming pool is filled with the Town's water, regardless of the source, the owner of the property on which the pool is located shall pay to the Town the water cost based on existing residential customer water rates for the capacity of the pool. The capacity of the pool shall be verified by the Superintendent of Water/Sewer Operations. (See Customer Service Guidelines)

\*If the pool is not tied to the sewer system, the Superintendent of Water/Sewer Operations may adjust the sewer bill to reflect the cost of water only.
