

# PRESS RELEASE

## Notification of Discharge of Untreated Wastewater

General Statute 143-215.1C requires that the owner or operator of any wastewater collection or treatment works to issue a press release when an untreated wastewater discharge of 1,000 gallons or more reaches surface waters.

In accordance with that regulation, the following news release has been prepared and issued to media in the affected county: Franklin

Franklin County Public Utilities experienced a discharge of untreated wastewater from the Youngsville Regional pump station in Youngsville. The spill was a result of rain generated by Hurricane Michael. The spill occurred at 4:15 PM on October 11, 2018 and discharged until 8:30 PM. The discharge of wastewater was estimated to be 7,650 gallons and it entered into an unnamed tributary of Richland Creek which is a tributary of the Neuse River Basin. Franklin County Public Utilities staff was dispatched to the site and started clean up after the overflow stopped.

Franklin County Public Utilities experienced a discharge of untreated wastewater from the Franklinton Regional pump station in Franklinton. The spill was a result of rain generated by Hurricane Michael. The spill occurred at 4:15 PM on October 11, 2018 and discharged until 7:30 PM. The discharge of wastewater was estimated to be 9,750 gallons and it remained on the pump station site. Franklin County Public Utilities staff was dispatched to the site and started clean up after the overflow stopped.

The division of Water Quality was notified of these events on October 12, 2018 and is reviewing the matter. For additional information concerning this event, please contact Chris Doherty, Franklin County Public Utilities Director at (919) 556-6711.
