December 7, 2011

To the Board of County Commissioners and Citizens of Franklin County:

We are pleased to present the comprehensive annual financial report of Franklin County for the fiscal year ended June 30, 2011. State law requires that local governments publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with general accepted accounting principals (GAAP) and audited in accordance with generally accepted accounting standards by a firm of licensed certified public accountants.

This report consists of management's representation concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of County of Franklin's financial statements in conformity with GAAP. Because of the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements contained herein have been audited by the independent, certified public accounting firm of Winston, Williams, Creech, Evans and Co., a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County of Franklin for the fiscal year ended June 30<sup>th</sup> 2011 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principals used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County of Franklin's financial statements for the fiscal year ended June 30, 2011, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal and state awards. These reports are contained in the compliance section of this report

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

## **Profile of the County**

The General Assembly created Franklin County from a portion of Bute County on January 29, 1779. The County was named in honor of Benjamin Franklin who was in France requesting help for our country during the Revolutionary War.

Franklin County encompasses 494 square miles and has a population of 60,619. There are five municipalities, Town of Bunn, Town of Youngsville, Town of Franklinton, Town of Centerville, and the Town of Louisburg, which serves as the county seat. The county has a commissioner/ manager form of government. In December 2004, the Board of Commissioners expanded to a seven member board. Five members of the Board of Commissioners are elected from districts on a partisan basis and two are elected at Large. They serve staggered four-year terms. Commissioners hold policy-making and legislative authority. They are also responsible for adopting the budget and appointing the County Manager. The manager is responsible for implementing policies, managing daily operations and appointing department heads.

The county provides its citizens with a wide variety of services that includes public safety, human services, cultural and recreational opportunities and others. It is also the Home of Louisburg College, the nation's oldest junior college. The college was founded in 1787 and offers a strong academic program in humanities, sciences, and business.

NC General Statutes require formal budgetary accounting for all funds. Departments of the County are required to submit their request for funding by April 1<sup>st</sup> of each year. These requests are used as a starting point for developing the proposed budget. The County Manager presents the proposed budget to the Board of Commissioners by June 1<sup>st</sup>. The County Board of Commissioners is required to hold public hearings on the proposed budget and must adopt an annual budget by June 30<sup>th</sup> of each year. The adopted budget is prepared by fund and function (e.g., public safety). Department heads can request transfers between line items and are approved by the County Manager. The manager has the authority to approve transfers between the same functions; however, she must inform the Board of Commissioners if she transfers monies outside of function appropriations. Budget to actual comparisons are provided in this report for each individual governmental fund that has an annual budget adopted. A project ordinance is used to establish a budget for a project that extends over more than one fiscal year. Project length budget to actual comparisons for each governmental fund that a project length budget has been adopted is also included in this report.

## **MAJOR INITIATIVES/CHANGES**

Activities undertaken by the County during the year further confirmed the ongoing commitment to improving the infrastructure by continuing some projects and initiating others. The county's increasing population continues to place additional demands on the County to meet citizens' needs for services. The year's activities as highlighted below demonstrate the County's response to these demands and needs.

### **Sewer and Water Line Expansions**

Ray's Creek (2.5 mile outfall extension) is near 90% completion. The project is estimated at \$1.9 million and the county expended \$195,828 during fiscal year 2010-2011. East Youngsville sewer line project is now complete with a total cost of \$444,663. The county has started two new projects during the fiscal year with the beginning of a HWY#1 sewer gravity line and an expansion on Hill Road. \$154,000 was spent this fiscal year on the two projects.

### **School Construction**

In May 2008, the County was successful in passing a GO Bond issue for \$53 million for a new high school to serve the Franklinton/Youngsville area and to provide other various renovations to other existing schools around the county. The County awarded the new high school construction contract in June 2009 for approximately \$26 million. The county issued \$14 million in August 2009 and \$3.6 million in December 2009. The County issued another \$26 million in November 2010 for the remainder of the high school and other projects on the table. The County spent \$22,719,034 on school projects during the fiscal year. The new high school opened its doors to students in August 2011. Anticipated costs of the new high school is \$32.1 million. All projects should be complete in 2012 with an estimated costs of 43.6 million.

## **E911 Infrastructure Improvement Project**

The County borrowed \$2.7 million in December 2008 for this project. The project is being completed to help enhance the county's paging capability to volunteer fire and rescue departments in responding to fire and rescue calls, increase EMS and Sheriff communication and other public safety agencies in the county. After further consultation with the County's engineer, the county decided to enhance coverage further for a total cost of \$10.7 million. The county plans to borrow an additional \$6.6 million in FY 2011-2012 to complete the project. This enhancement should provide pager service coverage 95 percent of the time in each fire district. The county has expended \$5.24 million to date on this project.

## **ECONOMIC CONDITION AND OUTLOOK**

The economic base of the county has traditionally centered on agriculture and textiles, however recently the county has diversified greatly from this base and has attracted many new industries. Currently, 17% of employment in the county is in manufacturing, 44% in service producing industries, 21% in government, 7.2% in construction, and 26% in other non-agricultural employment. Agriculture employs 2%. Tobacco, grain and livestock are major agriculture commodities raised in the county. Currently, 64 percent of the County's work force commutes out of county to work. Franklin County is located only 21 miles northeast of Raleigh, the state capital of North Carolina. Five interstate highways (40, 540, 85, 95 and US 1) are easily reached from the county. Research Triangle Park, the world's largest research complex is only 35 miles southeast of the county seat.

In 2008, The N.C. Department of Commerce dropped Franklin County's Tier ranking from a Tier 3 status to a Tier 2 status. The law calls for the 40 most distressed counties to become Tier 1 counties, the middle 40 counties to be designated as Tier 2 and the 20 most prosperous counties to become Tier 3 counties. Data used to determine rankings include unemployment rates, median household income, population growth and assess property value per capita.

Tier designations determine the available amount of tax credits for job creation and business property investment in a list of eligible industries. They include manufacturing, motorsports, aircraft maintenance and repair, air courier services, warehousing, customer service call centers, research and development, electronic shopping and mail order houses, wholesale trade and information technology. All eligible companies are required to offer employees health insurance and pay at least 50 percent of the premiums, cannot owe back taxes and cannot have received a significant environmental violation notice from the state Department of Environment and Natural Resources. In Tier 2 and Tier 3 counties, companies also must meet a wage test.

### Potential benefits to companies under each tier designation include:

- Tier 1 - \$12,500 tax credit per new job with a requirement to create at least five jobs, and a 7 percent tax credit for eligible business property expenditures.
- Tier 2 - \$5,000 tax credit per new job with a requirement to create at least 10 jobs, and a 5 percent tax credit for eligible business property expenditures of more than \$1 million.
- Tier 3 - \$750 tax credit per new job with a requirement to create at least 15 jobs, and a 3.5 percent tax credit for eligible business property expenditures of more than \$2 million.

The county's largest corporate citizen is Novozymes North America, Incorporated. The company currently has 463 employees. Their current property valuation is \$128.6 million. This provided over \$1.12 million to the county in property tax revenue. They are also the county's largest water customer averaging 650,000 gallons per day at a cost of \$1,820,000 annually. While the county is extremely fortunate to have such an excellent corporate citizen, efforts should continue to broaden the county's tax base. Novozymes represents 3.21 percent of the county's tax base. Over reliance on a few large taxpayers is often viewed as a financial weakness and could hinder efforts to upgrade the county's bond rating.

## **Long-Term Financial Planning**

Franklin County's population has increased by 40% since 1995. It is estimated that Franklin County currently has 60,619 residents. The bulk of the growth had been in the southwestern part of the county near the Franklin Park Industrial Center, which is located adjacent to US Highway 1A north of the Town of Youngsville but has become more widespread

recently. Development and population growth means increased demand for housing, other facilities and additional county provided services.

With the county's population continuing to rise, careful planning must occur to ensure that adequate real estate remains available for potential industrial and commercial prospects, adequate water and sewer facilities are present, as well as looking for additional funding streams to provide dollars needed for additional county services that will be requested with residential growth. In August 2009, The State of North Carolina changed the formula for lottery distribution to help with school operational needs and school construction needs. This change in formula resulted in a decrease for Franklin County of nearly \$600,000. The county had pledged the lottery proceeds to help service the \$53 million school bond issued authorized by the voters. The County does have a process in which to gain additional revenue however. The Board of County Commissioners can ask the voters of the county to approve an additional ½ cent sales tax or a land transfer tax to be imposed to help with revenue needs such as school construction projects however the BOC has not decided to initiate this process at the date of this report.

The county currently purchases an average of 1.6 million gallons per day from the City of Henderson and 85,000 gallons per day from the Town of Louisburg. The county issued 12.4 million in a COP Bond issue in March 1999 to install main water and distribution lines from the Franklin/Vance County line into the heart of Franklin County. The construction phase was completed in June 2000. As of June 30<sup>th</sup>, 2011, the County utilizes about 1.7 million gallons per day of water and averages daily treatment of waste water of about 350,000 gallons per day. The water and sewer budget is roughly \$7 million.

## **SINGLE AUDIT**

As a recipient of federal, state and county assistance, the County also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management and the Finance Department staff of the County. As a part of the County's single audit, described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the County has complied with applicable laws and regulations. The results of the County's single audit for the fiscal year ended June 30, 2011, provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations despite the new implementation of SAS 112.

## **CASH MANAGEMENT AND RISK MANAGEMENT**

**Cash Management** - The County uses a central depository system to pool moneys from all funds to facilitate disbursements and investments. All depositories are collateralized according to North Carolina General Statute 159-31. Investments are made in accordance with North Carolina General Statute 159-30. Cash temporarily idle during the year was invested in interest-bearing accounts, principally with the North Carolina Capital Management Trust, BB&T, and First Citizens Bank. The government fund types recorded investment income of \$853,869 for fiscal year 2009, \$532,000 in 2010, and 194,516 on FYE 2011. At June 30, 2011, the County's deposits had a carrying value of \$27,591,547 and a bank balance of \$28,660,422. All County deposits are maintained with financial institutions, which collateralize deposits in excess of amounts insured by the FDIC by the Pooling Method. At June 30, 2011, \$563,710 of the bank balance was covered by federal depository insurance and \$28,096,712 was covered by collateral held under the Pooling Method.

**Risk Management** – The County participates in two insurance pools developed by the North Carolina Association of County Commissioners. The pool provides coverage for general liability and worker's compensation. The limits of coverage include the following: jail and public safety officers' liability \$2,000,000, vehicle liability \$2,000,000 and property damage \$145.3 million. The county is self insured for health and dental benefits for its employees and the plan is administered by Blue Cross/Blue Shield. The county expends roughly \$6.7 million annually for these three insurance coverages.

Also the county has a Safety Officer. The Safety Officer reviews accidents, makes periodic on-site inspections, makes recommendations to improve safety practices and provide employee safety education. The county has an established safety committee that consists of a representative from each county office building. The safety committee meets monthly to review accidents, perform safety inspections and discuss potential corrections to safety related issues.

## **PENSION AND OTHER POST EMPLOYMENT BENEFITS**

The County of Franklin sponsors a single-employer defined benefit pension plan for its public safety employees (Separation Allowance). Each year, an independent actuary calculates the amount of the annual contribution that the County of Franklin may make to the pension plan to ensure the plan will be able to fully meet its obligations to retired employees on a timely basis. The County also chooses to fund the Law Enforcement Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis. The County currently has 69 active members. No retirees are receiving benefits under this requirement.

The County of Franklin also contributes to the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS provides retirement and disability benefits to plan members and beneficiaries. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. This plan includes 510 participants. The rate of contribution is determined each year by an actuarially determined rate. The County of Franklin has no obligation in connection with employee benefits offered through this plan beyond its annual contribution to the LGERS.

A Supplemental Retirement Income Plan is also provided to all County employees. The County contributes each month an amount equal to 4% of each employee's salary. Sworn law enforcement officers receive 5% of their monthly salary. All amounts are contributed and invested immediately and employees may also make voluntary contributions to the plan. The Department of State Treasurer and Board of Trustees administer the plan.

The County of Franklin also provides post retirement health care benefits for certain retirees. As of the end of FY 2011, there were 44 retired employees receiving a Medicare supplement and 18 retirees who are receiving regular health insurance coverage. At age 65, all retirees must change over to the Medicare supplement. These benefits are financed on a pay as you go basis, and GAAP does not require governments to report a liability in the financial statements in connection with an employer's obligation to provide these benefits. The county currently has 510 eligible plan participants with 62 of these receiving a benefit.

Additional information on the pension and post employment benefits can be found in the notes to the financial statements.

## **AWARDS AND OTHER INFORMATION**

**Independent Audit** – The County is required by state statutes to have an annual independent financial audit. The accounting firm of Winston, Williams, Creech, Evans & Company, LLP. conducted the County's annual audit for the fourth year. In addition to meeting the requirements set forth in state statutes, the audit was also designed to comply with the requirements of the Single Audit Act of 1996 and related OMB circular A-133 and the State Single Audit Implementation Act. The auditor's report on the general-purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the compliance section.

**Management's Discussion and Analysis** - *The* Management's discussion and analysis report contains more detailed information regarding the County of Franklin's financial statements and can be found immediately following the report of the independent auditors.

**Awards** - The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Franklin County North Carolina for its comprehensive annual financial report for the fiscal year ended June 30<sup>th</sup>, 2010. This was the twelfth consecutive year that Franklin County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Preparation of this report would not have been possible without the dedicated efforts of the Finance Department's staff and the cooperation and dedication of other county departments and the auditing staff of Winston, Williams, Creech, Evans & Company. Great gratitude is extended to the Board of County Commissioners for their continued support throughout the past year.

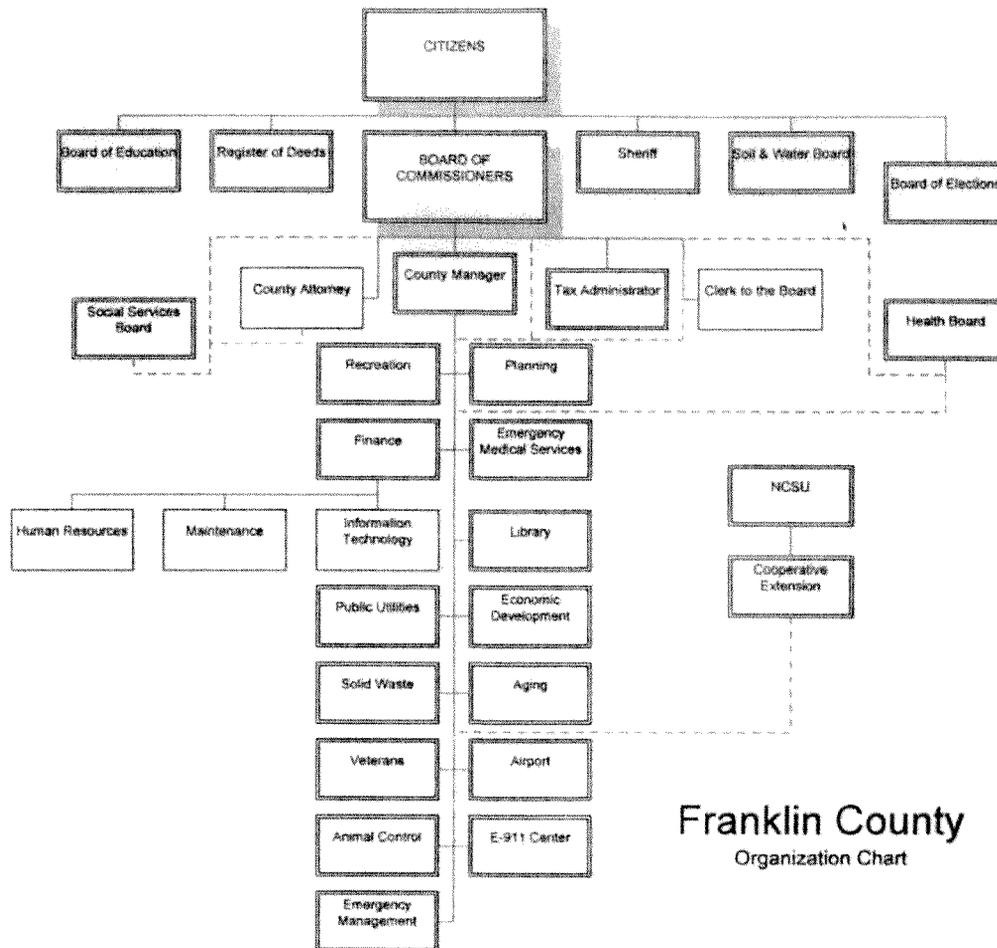

**Use of the Report.** The Government Finance Officers Association reports a growing awareness that the annual financial report should be management's report to its governing body, constituents, oversight bodies, resource providers, investors and creditors. We agree with this direction, and in keeping with our past practice, have made available a copy of this report to each of you, the various county departments, bond rating agencies, the Local Government Commission, and such other financial institutions that have expressed an interest in the County of Franklin's financial affairs.

A copy of this report is also being placed in the Franklin County Public Library and the Franklin County Chamber of Commerce. The report may also be viewed from the County's web site [www.franklincountync.us](http://www.franklincountync.us)

## Independent Auditor's Report

To the Board of County Commissioners  
Franklin County, North Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Franklin County, North Carolina, as of and for the year ended June 30, 2011, which collectively comprise Franklin County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Franklin County's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Franklin County, as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 7, 2011, on our consideration of Franklin County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's Discussion and Analysis, the Law Enforcement Officers' Special Separation Allowance and the Other Postemployment Benefits' Schedules of Funding Progress and Employer Contributions are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements of Franklin County, North Carolina. The introductory information, combining and individual nonmajor fund financial statements, budgetary schedules, other schedules, and the statistical tables, as well as the accompanying schedule of expenditures of federal and State awards as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and the State Single Audit Implementation Act, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements, budgetary schedules, other schedules and the accompanying schedule of expenditures of federal and State awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole. The introductory information and the statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of the County, we offer readers of Franklin County's financial statements this narrative overview and analysis of the financial activities of Franklin County for the fiscal year ended June 30, 2011. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the County's financial statements, which follows this narrative.

### Financial Highlights

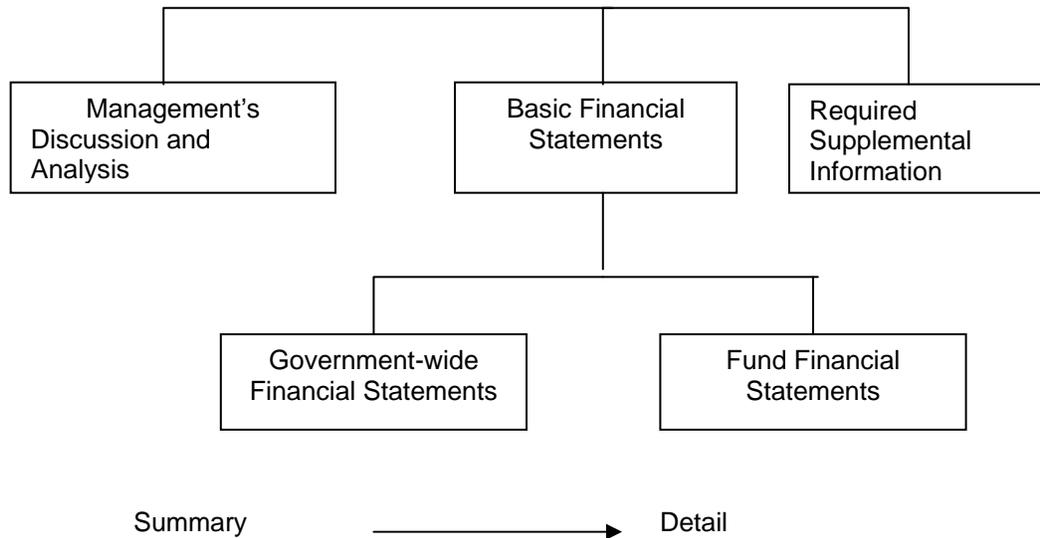

- The County's Liabilities exceeded its net assets by \$19.8 million. In accordance with North Carolina law, liabilities of the County include long-term debt associated with assets belonging to the Franklin County Board of Education. The amount included in liabilities related to school financing is \$87.3 million. These assets are not reflected in the County's financial statements but the full amount of the long-term debt associated with schools is reflected in the County's financial statements. Some similar County financial reports may reflect a net deficit in net assets due to this law.
- As of the close of the current fiscal year, the County's general and major governmental fund reported combined ending fund balances of \$26.73 million, an increase of only \$1.99 million from the previous fiscal year where the combined fund balances totaled \$24.74 million. The major increase was in the County's Major School Construction fund where revenues exceeded expenses by \$2.0 million. Approximately 13.4 percent of this total amount or \$3.57 million is restricted or nonspendable.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$12.75 million or 18.99 percent of total general fund expenditures for the fiscal year. Assigned fund balance for the General Fund was \$4.9 million. Of this amount \$2.72 million has been designated for subsequent year expenditures.
- The County's total debt increased by \$17.85 million during the current fiscal year. The County issued 24.0 million for school construction related projects. All debt payments were paid timely.
- The County's current bond rating with Moody's Investor Services is an (Aa2), Standard & Poor's rating for the County is AA-, and Fitch has rated the County as AA.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to The County's basic financial statements. The County's basic financial statements consist of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. The basic financial statements present two different views of the County through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report also contains other supplemental information that should enhance the reader's understanding of the financial condition of the County.

## Required Components of Annual Financial Report

Figure 1

### Basic Financial Statements

The first two statements in the basic financial statements are the Government-wide Financial Statements. They provide both short and long-term information about the County's financial status.

The next statements are Fund Financial Statements. These statements focus on the activities of the individual parts of the County's government. These statements provide more detail than the government-wide statements. There are four parts to the Fund Financial Statements: 1) the governmental funds statements; 2) the budgetary comparison statements; 3) the proprietary fund statements; and 4) the agency fund statements.

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in those statements. After the notes, supplemental information is provided to show details about the County's non-major governmental funds and internal service funds, all of which are added together in one column on the basic financial statements. Budgetary information required by the General Statutes also can be found in this part of the statements.

Following the notes is the required supplemental information. This section contains funding information about the County's pension plans.

### Government-wide Financial Statements

The government-wide financial statements are designed to provide the reader with a broad overview of the County's finances, similar in format to a financial statement of a private-sector business. The government-wide statements provide short and long-term information about the County's financial status as a whole.

The two government-wide statements report the County's net assets and how they have changed. Net assets are the difference between the County's total assets and total liabilities. Measuring net assets is one way to gauge the County's financial condition.

The government-wide statements are divided into three categories: 1) governmental activities; 2) business-type activities; and 3) component units. The governmental activities include most of the County's basic services such as general administration, taxation and records, community planning, community maintenance, human services, education, and public safety. Property and other taxes and state and federal grant funds finance most of these activities. The business-type activities are those that the County charges customers to provide the service. Franklin County's only business-type activity reported during fiscal year 2011 is for water and sewer service. In past fiscal years, the County recognized solid waste service as a business type activity. However in fiscal year 2003, the county began reporting this service under governmental activities. The final category is component units. Although legally separate from the County, the Franklin County Industrial Facility and Pollution Control Financing Authority is the County's only reportable component unit. The County exercises control over its Board by appointing all five of its members. The Authority had no financial transactions or account balances; therefore, it is not presented in the government-wide combined financial statements.

The government-wide financial statements are on Exhibits 1 and 2 of this report.

### Fund Financial Statements

The fund financial statements provide a more detailed look at the County's most significant activities. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like all other governmental entities in North Carolina, uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the General Statutes or the County's budget ordinance. All of the funds of the County can be divided into two categories: governmental funds and proprietary funds.

**Governmental Funds** – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. Most of the County's basic services are accounted for in governmental funds. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called modified accrual accounting which provides a current financial resources focus. In modified accrual accounting, revenues are recognized when they become available and expenditures are reported when the obligations were incurred. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps him or her determine if there are more or less financial resources available to finance the County's programs. The relationship between government activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is described in a reconciliation that is a part of the fund financial statements.

The County adopts an annual budget for its General Fund, as required by the General Statutes. The budget is a legally adopted document that incorporates input from the citizens of the County, the management of the County, and the decisions of the Board of Commissioners about which services to provide and how to pay for them. It also authorizes the County to obtain funds from identified sources to finance these current period activities. The budgetary statement provided for the General Fund demonstrates how well the County complied with the budget ordinance and whether or not the County succeeded in providing the services as planned when the budget was adopted. The budgetary comparison statement uses the budgetary basis of accounting and is presented using the same format, language, and classifications as the Statement of Revenues, Expenditures and Changes in Fund Balance. The statement shows four columns: 1) the original budget as adopted by the board; 2) the final budget as amended by the board; 3) the actual resources, charges to appropriations, and ending balances in the General Fund; and 4) the difference or variance between the final budget and the actual resources and charges.

**Proprietary Funds** – The County utilizes one proprietary fund. The County uses an Enterprise Fund to report the same functions presented as business-type activities in the government-wide financial statements. The County uses an enterprise fund to account for its water and sewer activity. This fund is the same as the function shown in the business-type activities in the Statement of Net Assets and the Statement of Activities. Internal Service Funds are an accounting device used to accumulate and allocate costs internally among the functions of the County. The County currently has one internal service fund called the Insurance Fund. Actual payments for health insurance, property and liability insurance, unemployment charges, and workers compensation payments are recorded.

**Agency Funds** – These funds are used to account for assets the County holds on behalf of others. These funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs. The County has five agency funds.

**Notes to the Financial Statements** – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 39-66 of this report.

**Required Supplemental Information** – In addition to the basic financial statements and accompanying notes, this report includes certain required supplementary information concerning the County's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found beginning on page 68 of this report.

#### Government-wide Financial Analysis

The County's government-wide financial statements presented in fiscal year ending 2003 marked the beginning of a new era in financial reporting for the County and many other units of government across the United States. Prior to this year, the County maintained their governmental and proprietary fund groups as two separate and very distinct types of accounting without any type of consolidated statement that accurately reflected the operations and net assets of the government as a whole. There was a total column that appeared on the financial statements, but it was a memorandum total only. No attempt was made to adjust the statements in such a way that the total column would represent the overall financial condition of the County. These statements were basically the equivalent of the fund financial statements that appear in this report with fiduciary funds and two account groups, the long-term debt and the general fixed assets, included.

The changes in the financial statement-reporting model were mandated by the Government Accounting Standards Board (GASB). GASB Statement 34 dictated the changes you see in the County's financial reports as well as those of many other units of government when comparing to the County's financial reports prior to FYE 2003. The County was required to implement these changes in FYE 2003. The current year reflects the GASB 34 change as well and all future years will.

Figure 2 (below) represents comparative data for the County's total assets, total liabilities, and net assets for FYE 2010 and FYE 2011.

As noted earlier, net assets may serve over time as one useful indicator of a government's financial condition. The liabilities of the County exceeded its assets in the governmental funds by \$34,865,325. The Business-type Fund the assets exceeded its liabilities by \$14,984,133 at June 30, 2011. Net assets are reported in three categories: Invested in capital assets, net of related debt was \$37,119,464; restricted was \$6,029,114 and unrestricted net assets \$(63,029,770).

The invested in capital assets, net of related debt category is defined as the County's investment in County owned capital assets (e.g. land, buildings, automotive equipment, office and other equipment, and sewer lines), less any related debt still outstanding that was issued to acquire those items. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of the outstanding related debt, the resources needed to repay that debt must be provided by other sources, since the capital assets cannot be used to liquidate these liabilities.

Another category of net assets is restricted net assets. This represents resources that are subject to external restrictions on how they may be used. The final category of net assets is unrestricted net assets. This balance may be used to meet the government's ongoing obligations to citizens and creditors.

In the current fiscal year, the county had a negative number of (\$63,029,770) in unrestricted net assets. Many counties in the State of North Carolina have a deficit in unrestricted net assets. This is due primarily to the portion of the County's outstanding debt incurred for the Franklin County Board of Education (the "school system"). Under North Carolina law, the County is responsible for providing capital funding for the school system. The County has chosen to meet its legal obligation to provide the school system capital funding by using a mixture of County funds and general obligation debt. The assets funded by the County; however, are owned and utilized by the school system. Since the County, as the issuing government, acquires no capital assets, the County has incurred a liability without a corresponding increase in assets. At the end of the fiscal year, approximately \$87.3 million of the outstanding debt on the County's financial statements was related to assets included in the school system's financial statements. However, since the majority of this school system related debt is general obligation debt, it is collateralized by the full faith, credit, and taxing power of the County. Accordingly, the County is authorized and required by State law to levy ad valorem taxes, without limit as to rate or amount, as may be necessary to pay the debt service on its general obligation bonds. Principal and interest requirements will be provided by an appropriation in the year in which they become due.

In the current year, total net assets decreased by \$17.7 million as the County issued \$24,000,000 in school construction debt. Some of the impact of the inclusion of the school system debt without the corresponding assets was offset by the following positive operational initiatives and results:

- Great tax collection rate of 97.08 percent during a tough economy.
- Continued low cost of debt due to the County's bond rating - \$24 million at 2.5% NIC
- Conservative revenue projections - \$1,493,231 over budget
- Lottery proceeds reserved for school debt - \$1,490,000.
- Revenue for housing federal inmates - \$1,249,000.
- Controlled departmental spending and conservative budgeting - \$1,451,783.

**Governmental activities:** Governmental activities decreased the County's net assets by \$18,470,440 due to the County issuing additional debt in the amount of \$24.0 million in school construction related debt. Other key elements are as follows:

- Ad valorem Tax collections increased by \$169,203.
- Sales Tax revenues remained stable.
- County received a \$900,000 contribution from Mr. Owen to build a recreational park.
- County spent \$2,000,000 additional in Public Safety, \$1,000,000 additional in Human Services, \$8,380,000 additional in School Construction, and \$400,000 less in general government.

**Business-type activities:** The net assets in Business-type activities increased by \$741,856. Water and Sewer collections increased by \$307,306 in FY 2010-2011, mainly due to a 10% rate increase. Expenditures were down by \$70,000. The economy and housing slump continues to have a major impact on customer growth. The County continues to promote water conservation and users have complied fairly well. The county's customer base increased from 2,889 to 2,912.

### **Financial Analysis of the County's Funds**

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds:** The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of usable resources. Such information is useful in assessing the County's financing requirements. Specifically, unassigned fund balance can be a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the County. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$12,757,375 while total fund balance reached \$21,492,922. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 18.99 percent of total General Fund expenditures, while total fund balance represents 32 percent.

Also in FY 2010-2011, the county's school construction capital project fund is being again identified as a major governmental fund. This fund accounts for school construction activities such as bond proceeds and capital construction expenses. At June 30, 2011, the school construction had a fund balance of \$5,239,366.

At June 30, 2011, the governmental funds of the County reported a combined fund balance of \$29,912,423, a 3.9 percent decrease from last year. The primary reason for this decrease is continued construction in the Capital Projects Funds. The county's overall fund balance remains strong.

### **General Fund Budgetary Highlights**

During fiscal year 2011, the County maintained a strong fund balance position and finished the year in sound financial condition. The County revised its' budget on several occasions. Generally, budget amendments fall into one of three categories: 1) amendments made to adjust the estimates that are used to prepare the original budget ordinance once exact information is available; 2) amendments made to recognize new funding amounts from external sources, such as Federal and State grants; and 3) increases in appropriations that become necessary to maintain services. Total amendments to the General Fund increased revenues by \$1,030,000 and expenditures by \$2,150,000. The County refunded \$900,000 to companies and individuals paying an adequate facility fee. The NC Supreme Court declared this fee illegal for counties to collect, therefore the county refunded the dollars collected over a 5 year period.

The actual operating revenues for the General Fund were higher than the budgeted amount by \$811,224. Sales Tax revenues were under budget by \$656,292; however ad valorem taxes exceeded the anticipated budget by \$956,748. The County's expenditures were \$3,017,783 less than budgeted. Human Services departments under spent their budgets by \$764,253, General Govt. activities were under budget by 575,940 and Public Safety departments were under budget by \$802,588.

**Proprietary Funds:** The County's proprietary funds provide the same type of information found in the government-wide statements but in more detail. Unrestricted net assets of the Water and Sewer Fund at the end of the fiscal year amounted to \$3,731,203, a decrease of \$339,701. This decrease was mainly due to spending some of the installment proceeds for water and sewer improvements and expansions. Total revenues increased by \$218,873 while expenditures decreased by \$70,000.

Capital Asset and Debt Administration

**Capital assets:** The County's investment in capital assets for its governmental and business-type activities as of June 30, 2011, totaled \$58,837,648 (net of accumulated depreciation). These assets include buildings, automotive equipment, office and other equipment, and water and sewer lines.

Major capital asset transactions during the year included:

- \$364,709 in water and sewer expansions
- \$85,289 Airport Improvements
- \$2,040,498 in E911 Public Safety Improvements
- Pilot Recreational Park - \$883,281
- Purchase 21 vehicles totaling \$527,905

In fiscal year 2010-11, the County's total debt increased by \$17,852,635 mainly due to the county issuing \$24 million in G. O. Bonds. The County met all of its obligations in a timely fashion. In May 2008, the County voters approved a \$53,000,000 school bond. The County issued \$14,000,000 of these bonds in August 2009, \$3.6 million in December 2009, and \$24,000,000 in November 2010. All projects are anticipated to be complete by January 2012 with no additional debt transaction required.

The County's most recent bond ratings are shown below:

Moody's Investor Services	Aa2
Standard & Poor's	AA-
FITCH Rating Agency	AA

This stability of the county's bond rating is a clear indication of the sound financial condition of The County. The County was upgraded by Standard and Poor's in August 2009. This achievement helps keep interest costs low on the County's outstanding debt.

The State of North Carolina limits the amount of debt that a unit of government can issue to 8 percent of the total assessed value of taxable property located within that government's boundaries. The legal debt margin for the County is \$218,483,597. The County has \$11,400,000 bonds authorized but un-issued at October 2011.

Additional information regarding the County's long-term debt can be found in Note III.7.

**Economic Factors and Next Year's Budgets and Rates**

- The unemployment rate for Franklin County was 10.1 percent at June 30, 2011 which is higher when compared to last year's rate at 9.9 percent.
- Inflationary trends in the region compare very favorably to national indicators.
- State Sales Tax revenues are decreasing statewide. The County's local point of sale remains stable. The County's tax base continues to grow even during these bad times. The county under goes the Revaluation Process in FYE 2013.

All of these factors were considered in preparing the County of Franklin's budget for FYE 2012.

### Budget Highlights for the Fiscal Year Ending June 30, 2012

- **Governmental Activities:** The County has approved a \$66.6 million General Fund budget for FYE 2012 compared to a \$68.6 million general fund budget for fiscal year 2010-2011. This represents a \$2 million or 5 percent decrease over the previous fiscal year. The property tax rate remained the same at .8725 cents per \$100 dollars of property valuation. Currently, Franklin County has the second highest property tax rate in the state, but the county will complete revaluation in FYE 2013 and the tax rate should decrease.
- The county reduced 19 new positions at a cost of \$1.2 million. Public Safety expenditures were decreased by \$1.8 million or 10% with a reduction of force, furlough, and vehicles reduced. Education current expense support remained stable. Human Services expenditures were reduced by \$1.075 million or about 8%.
- **Business – type Activities:** The County increased its water and sewer rates by 10%. With a low fund balance level in the water/sewer enterprise fund, the County's General Fund is transferring \$235,283 to balance the fund same as in the previous year. The county started in the water and sewer business in October 1996.

**For the Year Ended June 30, 2011**

Amounts reported for governmental activities in the statement of activities are different because:

Net changes in fund balances - total governmental funds	\$ (1,214,151)
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period	2,392,327
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds	(121,637)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(18,725,752)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(1,441,251)
Inventory not expensed on statement of activities	(3,259)
Internal service funds are used by management to charge the costs of health insurance to individual funds. The net revenue of certain activities of internal service funds is reported with governmental activities	<u>643,283</u>

FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

**I. Summary of Significant Accounting Policies**

The accounting policies of Franklin County conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant accounting policies:

**A. Reporting Entity**

The County, which is governed by a seven-member board of commissioners, is one of the 100 counties established in North Carolina under North Carolina General Statute 153A-10. As required by generally accepted accounting principles, these financial statements present the County.

Franklin County Industrial Facility and Pollution Control Financing Authority exists to issue and service revenue bond debt of private businesses for economic development purposes. The Authority is governed by a seven-member board of commissioners, all of who are appointed by the county commissioners. The County can remove any commissioner of the Authority with or without cause. The Authority has no financial transactions or account balances; therefore, it is not presented in the combined financial statements. The Authority does not issue separate financial statements.

**B. Basis of Presentation, Basis of Accounting**

**Basis of Presentation, Measurement Focus – Basis of Accounting**

*Government-wide Statements:* The statement of net assets and the statement of activities display information about the primary government (the County). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activity of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

*Fund Financial Statements:* The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category – *governmental, proprietary, and fiduciary* – are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds. Franklin County has one enterprise fund and one internal service fund, both of which are major funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies result from non-exchange transactions. Other non-operating items such as investment earnings are ancillary activities.

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

The County reports the following major governmental funds:

*General Fund* – This is the County’s primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Capital Reserve Fund is a legally budgeted fund under North Carolina General Statutes; however, for statement presentation in accordance with GASB Statement No. 54 it is consolidated in the General Fund.

*School Construction Fund* – This fund is used to account for school construction projects financed by the County.

The County reports the following major enterprise fund:

*Water and Sewer Fund* – This fund is used to account for water and sewer operations within the County.

The County reports the following major internal service fund:

*Insurance Fund* – This fund is used to account for the accumulation and allocation of costs associated with the County’s self-insured group health insured program.

The County reports the following fund types:

*Agency Funds* – Agency funds are custodial in nature and do not involve the measurement of operating results. Agency funds are used to account for assets the County holds on behalf of others. The County maintains the following agency funds: the Social Services Fund, which accounts for moneys deposited with the Department of Social Services for the benefit of certain individuals; the Fines and Forfeitures Fund, which accounts for moneys deposited with the County and then remitted to the Franklin County Board of Education; the City Ad Valorem and Motor Vehicle Tax Fund which accounts for registered motor vehicle property taxes and other property taxes that are billed and collected by the County for various municipalities within the County; the three percent interest on the first month of delinquent motor vehicle taxes that the County is required to remit to the North Carolina Department of Motor Vehicles; and the Jail Fund, which accounts for the revenues and expenditures of activity funds belonging to inmates during their period of incarceration.

*Nonmajor Funds.* The County maintains ten legally budgeted funds. The Fire District Fund, Emergency Telephone System Fund, DEA Fund, Golden Leaf Foundation Fund, Community Development Fund and COPS Fund are reported as nonmajor special revenue funds. The Airport Projects Fund, County Building Project Fund, and the Revaluation Project Fund are reported as capital projects funds. The Capital Reserve Fund is consolidated in the General Fund in accordance with GASB statement No. 54.

**Measurement Focus, Basis of Accounting**

In accordance with North Carolina General Statutes, all funds of the County are maintained during the year using the modified accrual basis of accounting.

*Government-wide, Proprietary, and Fiduciary Fund Financial Statements.* The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus, except for the agency funds, which have no measurement focus. The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County enterprise funds are charges to customers for sales and services. The County also recognizes as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the water and sewer system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

*Governmental Fund Financial Statements* – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

The County considers all revenues available if they are collected within 90 days after year-end, except for property taxes. Ad valorem property taxes are not accrued as revenue because the amount is not susceptible to accrual. At June 30, taxes receivable are materially past due and are not considered to be an available resource to finance the operations of the current year. Also, as of January 1, 1993, State law altered the procedures for the assessment and collection of property taxes on registered motor vehicles in North Carolina. Effective with this change in the law, Franklin County is responsible for billing and collecting the property taxes on all registered motor vehicles on behalf of all municipalities and special tax districts in the County. For registered motor vehicles, property taxes are due the first day of the fourth month after the vehicles are registered. The billed taxes are applicable to the fiscal year in which they become due. Therefore, taxes for vehicles registered from March 2010 through February 2011 apply to the fiscal year ended June 30, 2011. Uncollected taxes that were billed during this period are shown as a receivable on these financial statements.

Sales taxes and certain intergovernmental revenues, such as the utilities franchise tax, collected and held by the State at year-end on behalf of the County are recognized as revenue. Intergovernmental revenues and sales and services are not susceptible to accrual because generally they are not measurable until received in cash. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been satisfied.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

All governmental and business-type activities and enterprise funds of the County follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

**C. Budgetary Data**

The County's budgets are adopted as required by the North Carolina General Statutes. An annual budget is adopted for the General Fund, five of the special revenue funds (Capital Reserve Fund, Fire District Fund, DEA Fund, COPS Fund, and the Emergency Telephone System Fund), the Insurance Fund (an internal service fund), and the Water and Sewer Fund. All annual appropriations lapse at the fiscal year-end. Project ordinances are adopted for the capital projects funds, two of the special revenue funds, (the Community Development Fund and the Golden Leaf Foundation Fund), and the Water and Sewer Capital Project.

All budgets are prepared using the modified accrual basis of accounting. Expenditures may not legally exceed appropriations at the functional level for the general fund, at the departmental level for the special revenue and enterprise funds, and at the object level for the capital projects funds. The balances in the Capital Reserve Fund will be appropriated when transferred to a capital projects fund in accordance with the project ordinance adopted for the reserve fund. The County Manager is authorized to transfer unlimited funds between departments of the same fund.

**D. Assets, Liabilities, and Fund Equity**

**1. Deposits and Investments**

All deposits of the County are made in board-designated official depositories and are secured as required by G.S. 159-31. The County may designate, as an official depository, any bank or savings association whose principal office is located in North Carolina. Also, the County may establish time deposit accounts such as NOW and SuperNOW accounts, money market accounts, and certificates of deposit.

State law [G.S. 159-30(c)] authorizes the County to invest in obligations of the United States or obligations fully guaranteed both as to principal and interest by the United States; obligations of the State of North Carolina; bonds and notes of any North Carolina local government or public authority; obligations of certain non-guaranteed federal agencies; certain high quality issues of commercial paper and bankers' acceptances and the North Carolina Capital Management Trust (NCCMT).

The County's investments are carried at fair value as determined by quoted market prices. The securities of the NCCMT Cash Portfolio, a SEC-registered (2a-7) money market mutual fund, are valued at fair value, which is the NCCMT's share price. The NCCMT Term Portfolio's securities are valued at fair value.

**2. Cash and Cash Equivalents**

The County pools moneys from several funds, except for two of the Agency Funds, to facilitate disbursement and investment and to maximize investment income. Therefore, all cash and investments are essentially demand deposits and are considered cash and cash equivalents.

**3. Restricted Assets**

The unexpended bond proceeds in the School Construction Fund and the County Building Project Fund are classified as restricted assets because their use is completely restricted to the purpose for which the bonds were originally issued. For purposes of the cash flow statement, restricted assets are excluded from cash and cash

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

equivalents. Money restricted for the Register of Deeds and Capital Reserve in the General Fund are also presented as restricted assets.

**4. Ad Valorem Taxes Receivable**

In accordance with State law [G.S. 105-347 and G.S. 159-13(a)], the County levies ad valorem taxes on property other than motor vehicles on July 1, the beginning of the fiscal year. The taxes are due on September 1 (lien date); however, penalties and interest do not accrue until the following January 6. These taxes are based on the assessed values as of January 1, 2010. As allowed by state law, the county has established a schedule of discounts that apply to taxes that are paid prior to the due date. In the County's general fund, ad valorem tax revenues are reported net of such discounts.

**5. Allowances for Doubtful Accounts**

All receivables that historically experience uncollectible accounts are shown net of an allowance for doubtful accounts. This amount is estimated by analyzing the percentage of receivables that were written off in prior years.

**6. Inventories**

The inventory of the County is valued at cost (first-in, first-out), which approximates market. The County's General Fund inventory consists of aviation fuel that is recorded as expenditures when purchased.

**7. Capital Assets**

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated capital assets are recorded at their estimated fair value at the date of donation. Minimum capitalization costs are as follows: \$50,000 for buildings and building improvements; and \$5,000 for equipment, vehicles, and furniture. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

The County holds title to certain Franklin County Board of Education properties that have not been included in capital assets. The properties have been deeded to the County to permit installment purchase financing of acquisition and construction costs and to permit the County to receive refunds of sales tax paid for construction costs. Agreements between the County and the Board of Education give the Board of Education full use of the facilities, full responsibility for maintenance of the facilities, and provide that the County will convey title to the property back to the Board of Education, once all restrictions of the financing agreements and all sales tax reimbursement requirements have been met. The properties are reflected as capital assets in the financial statements of the Franklin County Board of Education.

Capital assets of the County are depreciated on a straight-line basis over the following estimated useful lives:

	<u>Years</u>
Buildings	15-30
Furniture and equipment	5-40
Vehicles	5
Computer equipment & software	3-5
Water lines	15-40

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

**8. Long-term Obligations**

In the government-wide financial statements and in the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

In the fund financial statements for governmental fund types, the face amount of debt issued is reported as an other financing source.

**9. Compensated Absences**

The vacation policies of the County provide for the accumulation for up to thirty days earned vacation leave with such leave being fully vested when earned. For the County's government-wide and proprietary funds, an expense and a liability for compensated absences and the salary-related payments are recorded as the leave is earned.

The sick leave policies of the County provide for an unlimited accumulation of earned sick leave. Sick leave does not vest, but any unused sick leave accumulated at the time of retirement may be used in the determination of length of service for retirement benefit purposes. Since none of the entities have any obligation for accumulated sick leave until it is actually taken, no accruals for sick leave have been made.

**10. Net Assets/Fund Balances**

**Net Assets**

Net assets in government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net assets represent constraints on resources that are either a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or b) imposed by law through State statute.

**Fund Balances**

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how fund balance can be spent.

The governmental fund types classify fund balances as follows:

**Nonspendable Fund Balance**-This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Inventories-portion of fund balance that is not an available resource because it represents the year-end balance of ending inventories, which are not spendable resources.

**Restricted Fund Balance**-This classification includes revenue sources that are restricted to specific purposes externally imposed by creditors or imposed by law.

Restricted for Stabilization by State Statute-portion of fund balance that is restricted by State Statute [G.S. 159-8(a)].

Restricted for Register of Deeds-portion of fund balance that is restricted by revenue source to pay for the computer equipment and imaging technology for the Register of Deeds office.

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

Restricted for Fire Protection-portion of fund balance that is restricted by revenue source for fire protection expenditures.

Restricted for School Capital Reserve-portion of fund balance that can only be used for School Capital per G.S. 159-18-22.

Restricted for Public Safety-portion of fund balance that can only be used for the purposes of the Emergency Telephone System Fund and DEA Fund.

Restricted for Economic Development-portion of fund balance that can only be used for the purposes of Community Development and Airport Projects.

Committed Fund Balance-Portion of fund balance that can only be used for specific purpose imposed by majority vote of the County's governing body (highest level of decision-making authority). Any changes or removal of specific purposes requires majority action by the governing body.

Committed for Debt Service-portion of fund balance that can only be used for Debt Service.

Committed for Revaluation-portion of fund balance that can only be used for Tax Revaluation.

Assigned Fund Balance-portion of fund balance that the County's governing board has budgeted.

Assigned for Subsequent year's expenditures-portion of fund balance that is appropriated in the next year's budget that is not already classified in restricted or committed. The governing body approves the appropriation; however the budget ordinance authorizes the manager to modify the appropriations by resource or appropriation within funds up to \$100,000.

Assigned for Public Safety-portion of fund balance that has been assigned by the board for public safety.

Assigned for Cultural and Recreational-portion of fund balance that has been assigned by the board for cultural and recreational.

Assigned for General Government-portion of fund balance that has been assigned by the board for general government.

Assigned for Economic Development-portion of fund balance that has been assigned by the board for economic development.

Assigned School Capital Outlay-portion of fund balance that has been budgeted by the board for future school capital construction.

Unassigned Fund Balance-Portion of fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

The County has a revenue spending policy that provides guidance for programs with multiple revenue sources. The Finance Officer will use resources in the following hierarchy: bond proceeds, federal funds, State funds, local non-city funds, and county funds. For purposes of fund balance classification expenditures are to be spent from restricted fund balance first, followed in-order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it's in the best interest of the County.

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

---

The County has a stated minimum fund balance policy for the General Fund which instructs management to conduct the business of the County in such a manor that available fund balance is at least equal to or greater than 15% of budgeted expenditures. Any portion of the General Fund balance in excess of 15% of budgeted expenditures may be appropriated for one-time expenditures and may not be used for any purpose that would obligate the County in a future budget.

**E. Reconciliation of Government-Wide and Fund Financial Statements**

1. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets

The governmental fund balance sheet includes reconciliation between fund balance-total governmental funds and net assets – governmental activities as reported in the government-wide statement of net assets. The net adjustment of \$ (64,777,748) consists of several elements as follows:

Description	Amount
Capital assets used in governmental activities are not financial resources and are therefore not reported in the funds (total capital assets on government-wide statement in governmental activities column)	\$ 50,609,410
Less Accumulated Depreciation	<u>(18,652,376)</u>
Net capital assets	<u>31,957,034</u>
 Deferred charges related to bonds issued-included on government-wide statement of net assets but are not current financial resources	 79,273
 Accrued interest receivable less the amount claimed as unearned revenue in the government-wide statements as these funds are not available and therefore deferred in the fund statements	 513,239
 Internal service fund is used by management to charge insurance costs to individual funds; the assets and liabilities of the internal service fund is included in governmental activities in the statement of net assets	 953,754
 Internal payable representing charges in excess of cost to business-type activities – current year	 (20,839)
 Liabilities for revenue deferred but earned and therefore recorded in the fund statements but not the government-wide	 2,446,488
 Liabilities for premiums related to bonds issued-included on government-wide state of net assets but not the fund statements	 (782,291)

2. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities

The government fund statement of revenues, expenditures, and changes in fund balances includes reconciliation between net changes in fund balances-total governmental funds and changes in net assets of governmental activities as reported in the government-wide statement of activities. There are several elements of that total adjustment of \$ (17,256,289) as follows:

<u>Description</u>	<u>Amount</u>
Capital outlay expenditures recorded in the fund statements but capitalized as assets in the statement of activities	\$ 3,916,766
Depreciation expense, the allocation of those assets over their useful lives, that is recorded on the statement of activities but not in the fund statements	(1,524,439)
New debt issued during the year is recorded as a source of funds on the fund statements; it has no effect on the statement of activities – it affects only the government-wide statement of net assets	(24,000,000)
Principal payments on debt owed are recorded as a use of funds on the fund statements but again affect only the statement of net assets in the government-wide statements	5,995,767
Expenses reported on fund statements that are capitalized on government-wide statements-bond issuance costs	81,359
Revenues reported on fund statements that are capitalized on government-wide statements-bond premium	(802,878)
Inventory not expensed on the statement of activities	(3,259)

**II. Detail Notes on All Funds**

**A. Assets**

**1. Deposits**

All of the County's deposits are either insured or collateralized by using one of two methods. Under the Dedicated Method, all deposits exceeding the federal depository insurance coverage level are collateralized with securities held by the County's agents in these unit's names. Under the Pooling Method, which is a collateral pool, all uninsured deposits are collateralized with securities held by the State Treasurer's agent in the name of the State Treasurer. Since the State Treasurer is acting in a fiduciary capacity for the County, these deposits are considered

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

to be held by their agents in the entities' name. The amount of the pledged collateral is based on an approved averaging method for non-interest bearing deposits and the actual current balance for interest-bearing deposits. Depositories using the Pooling Method report to the State Treasurer the adequacy of their pooled collateral covering uninsured deposits. The State Treasurer does not confirm this information with the County or with the escrow agent. Because of the inability to measure the exact amount of collateral pledged for the County under the Pooling Method, the potential exists for under-collateralization, and this risk may increase in periods of high cash flows. However, the State Treasurer of North Carolina enforces strict standards of financial stability for each depository that collateralizes public deposits under the Pooling Method. The County has no formal policy regarding custodial credit risk for deposits.

The State Treasurer enforces standards of minimum capitalization for all pooling method financial institutions. The County relies on the State Treasurer to monitor those financial institutions. The County complies with the provisions of G. S. 159-31 when designating official depositories and verifying that deposits are properly secured.

At June 30, 2011, the County's deposits had a carrying amount of \$27,591,547 and a bank balance of \$28,660,422. Of the bank balance, \$563,710 was covered by federal depository insurance and \$28,096,712 in interest bearing deposits was covered by collateral held under the Pooling Method.

At June 30, 2011, Franklin County had \$3,310 cash on hand.

**2. Investments**

As June 30, 2011, the County's investment balances were as follows:

	<u>Fair Value</u>	<u>6-12 months</u>
NC Capital Management Trust:	\$ 8,941,076	\$ 8,941,076

*Credit Risk* – The County limits investments to the provisions of G.S. 159-30 and restricts the purchase of securities to the highest possible ratings whenever particular types of securities are rated. The County's investment in the NC Capital Management Trust Cash Portfolio carried a credit rating of AAAM by Standard & Poor's as of June 30, 2011. The County's policy on investments is that only investments allowed by North Carolina General Statutes are allowed.

**3. Property Tax – Use-Value Assessment on Certain Lands**

In accordance with the general statutes, agriculture, horticulture, and forestland may be taxed by the County at the present-use value as opposed to market value. When the property loses its eligibility for use-value taxation, the property tax is recomputed at market value for the current year and the three preceding fiscal years, along with the accrued interest from the original due date. This tax is immediately due and payable. The following are property taxes that could become due if present use-value eligibility is lost. These amounts have not been recorded in the financial statements.

**2. Pension Plan and Other Postemployment Obligations**

**a. Local Governmental Employee's Retirement System**

*Plan Description* – Franklin County contributes to the statewide Local Governmental Employees' Retirement System (LGERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of North Carolina. LGERS provides retirement and disability benefits to plan members and beneficiaries. Article 3 of G.S. Chapter 128 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Local Governmental Employees' Retirement System is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State's CAFR includes financial statements and required supplementary information for LGERS. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

*Funding Policy* – Plan members are required to contribute six percent of their annual covered salary. The County is required to contribute at an actuarially determined rate. For the County, the current rate for employees not engaged in law enforcement and for law enforcement officers is 4.93% and 4.86% respectively, of annual covered payroll. The contribution requirements of members and of Franklin County are established and may be amended by the North Carolina General Assembly. The County's contributions to LGERS for the years ended June 30, 2011, 2010, and 2009 were \$1,142,049, \$829,584, and \$852,286, respectively. The contributions made by the County and the plan members equaled the required contributions for each year.

**b. Law Enforcement Officers' Special Separation Allowance**

**1. Plan Description**

Franklin County administers a public employee retirement system (the *Separation Allowance*), a single-employer defined benefit pension plan that provides retirement benefits to the County's qualified sworn law enforcement officers. The Separation Allowance is equal to .85 percent of the annual equivalent of the base rate of compensation most recently applicable to the officer for each year of creditable service. The retirement benefits are not subject to any increases in salary or retirement allowances that may be authorized by the General Assembly. Article 12D of G.S. Chapter 143 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. A separate audited pension plan report is not available.

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

All full-time County law enforcement officers are covered by the Separation Allowance. At December 31, 2010, the Separation Allowance's membership consisted of:

Retirees receiving benefits	-
Terminated plan members entitled to but not yet receiving benefits	-
Active plan members	<u>70</u>
Total	<u>70</u>

**2. Summary of Significant Accounting Policies**

*Basis of Accounting* – The County has chosen to fund the Separation Allowance on a pay as you go basis. Pension expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting.

*Method Used to Value Investments* – No funds are set aside to pay benefits and administrative costs. These expenditures are paid as they come due.

**3. Contributions**

The County is required by Article 12D of G.S. Chapter 143 to provide these retirement benefits and has chosen to fund the benefit payments on a pay as you go basis through appropriations made in the General Fund operating budget. The County's obligation to contribute to this plan is established and may be amended by the North Carolina General Assembly. There were no contributions by employees.

The annual required contribution for the current year was determined as part of the December 31, 2010 actuarial valuation using the projected unit credit actuarial cost method. The actuarial assumption included (a) 5.00% investment rate of return (net of administrative expenses) and (b) projected salary increases of 4.5% – 12.3% per year. Both (a) and (b) included an inflation component of 3.75%. The assumptions did not include postretirement benefit increases. The actuarial value of assets was determined using the market value of investments. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 2010 was 21 years.

**Annual Pension Cost and Net Pension Obligation.** The County's annual pension cost and net pension obligation to the Separation Allowance for the current year is as follows:

Annual required contribution		\$ 73,658
Interest on net pension obligation		16,840

**4. Funded Status and Funding Progress**

As of December 31, 2010, the most recent actuarial valuation date, the plan was 0 percent funded. The actuarial liability for benefits was \$409,263, and the actuarial value of assets was 0, resulting in an unfunded actuarial accrued liability (UALL) of \$520,500. The covered payroll (annual payroll of active employees covered by the plan) was \$2,665,138 and the ratio of the UALL to the covered payroll was 19.53%.

The schedule of funding progress, presented as required supplementary information following the notes, presents multiyear trend information about whether the actuarial value of plan assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

**c. Supplemental Retirement Income Plan for Law Enforcement Officers**

*Plan Description* – The County contributes to the Supplemental Retirement Income Plan (Plan), a defined contributions pension plan administered by the Department of State Treasurer and a Board of Trustees. The Plan provides retirement benefits to law enforcement officers employed by the County. Article 5 of G.S. Chapter 135 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Supplemental Retirement Income Plan for Law Enforcement Officers is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State’s CAFR includes the pension trust fund financial statements for the Internal Revenue Code Section 401(k) plan that includes the Supplemental Retirement Income Plan for Law Enforcement Officers. That report may be obtained by writing to the Office of State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

*Funding Policy* – Article 12E of G.S. Chapter 143 requires the County to contribute each month an amount equal to five percent of each officer’s salary, and all amounts contributed are vested immediately. Also, the law enforcement officers may make voluntary contributions to the plan. Contributions for the year ended June 30, 2011 were \$149,243, which consisted of \$122,038 from the County and \$27,204 from the law enforcement officers.

**d. Registers of Deeds’ Supplemental Pension Fund**

*Plan Description.* Franklin County also contributes to the Registers of Deeds’ Supplemental Pension Fund (Fund), a noncontributory, defined contribution plan administered by the North Carolina Department of State Treasurer. The Fund provides supplemental pension benefits to any eligible county register of deeds that is retired under the Local Government Employees’ Retirement System (LGERS) or an equivalent locally sponsored plan. Article 3 of G.S. Chapter 161 assigns the authority to establish and amend benefit provisions to the North Carolina General Assembly. The Registers of Deeds’ Supplemental Pension Fund is included in the Comprehensive Annual Financial Report (CAFR) for the State of North Carolina. The State’s CAFR includes financial statements and required supplementary information for the Registers of Deeds’ Supplemental Pension Fund. That report may be obtained by writing to the Office of the State Controller, 1410 Mail Service Center, Raleigh, North Carolina 27699-1410, or by calling (919) 981-5454.

*Funding Policy* – On a monthly basis, the County remits to the Department of State Treasurer an amount equal to one and one-half percent (1.5%) of the monthly receipts collected pursuant to Article 3 of G.S. 161. Immediately following January 1 of each year, the Department of State Treasurer divides ninety-three percent (93%) of the amount in the Fund at the end of the preceding calendar year into equal shares to be disbursed as monthly benefits. The remaining seven percent (7%) of the Fund’s assets may be used by the State Treasurer in administering the Fund. For the fiscal year ended June 30, 2011, the County’s required and actual contributions were \$3,740.

**e. Other Postemployment Benefits**

*Plan Description:* According to a County resolution, the County administers a single-employee defined benefit Healthcare Benefit Plan (the HCB Plan). This plan provides postemployment healthcare benefits to retirees of the County, provided they participate in the North Carolina Local Government Employees Retirement System (System) and have at least ten years of creditable service with the County. Prior to July 1, 2006, employees qualified for similar level benefits after five years creditable service with the County. The County pays the full cost of coverage for these benefits through private insurers. Also, the County's retirees can purchase coverage for their dependents at the County's group rates. The Board of Commissioners may amend the benefit provisions. A separate report was not issued for the plan.

Membership of the HCB Plan consisted of the following at December 31, 2010, the date of the latest actuarial valuation:

	<u>General Employees</u>	<u>Law Enforcement Employees</u>
Retirees and dependents receiving benefits	62	-
Terminated plan members entitled to but not yet receiving benefits	-	-

*Funding Policy:* The County pays the full cost of coverage for the healthcare benefits paid to qualified retirees under a County resolution that can be amended by the Board. The County's members pay for dependent coverage. The County has chosen to fund the healthcare benefit on a pay as you go basis.

The current ARC rate is 8.25% of annual covered payroll. For the current year, the County contributed \$197,647 or 1.13% of covered payroll. The County is self-insured for healthcare coverage. The County's required contributions, under a Board resolution, for employees not engaged in law enforcement and for law enforcement officers represented 7.11% and 1.14% of covered payroll, respectively. There were no contributions made by employees, except for dependent coverage in the amount of \$45,736. The County's obligation to contribute to HCB Plan as established may be amended by the Board of Commissioners.

*Summary of Significant Accounting Policies:* Postemployment expenditures are made from the General Fund, which is maintained on the modified accrual basis of accounting. No funds are set aside to pay benefits and administrative costs. These expenditures are paid as they come due.

*Annual OPEB Cost and Net OPEB Obligation:* The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB for the healthcare benefits:

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

Annual required contribution	\$ 1,488,120
Interest on net OPEB obligation	108,088
Adjustment to annual required contribution	<u>103,258</u>
Annual OPEB cost (expense)	1,492,950
Contributions made	<u>197,647</u>
Increase in net OPEB obligation	1,295,303
Net OPEB obligation, beginning of year	<u>2,702,212</u>
Net OPEB obligation, end of year	<u>\$ 3,997,515</u>

The Count's annual OPEB cost, the percentage of annual OPEB cost contributed to the HCB Plan, and the net OPEB obligation for 2011 were as follows:

<u>For the Year Ended June 30,</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Contribution</u>
2009	\$ 1,633,188	10.73%	\$ 1,457,936
2010	1,434,333	13.25%	2,702,212
2011	\$ 1,492,950	13.24%	\$ 3,997,515

*Funded Status and Funding Progress.* As of December 31, 2010, the most recent actuarial valuation date, the plan was not funded. The actuarial accrued liability for benefits and, thus, the unfunded actuarial accrued liability (UAAL) was \$18,433,153. The covered payroll (annual payroll of active employees covered by the plan) was \$17,432,740 and the ratio of the UAAL to the covered payroll was 105.7 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continued revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

*Actuarial Methods and Assumptions* Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value assets, consistent with long-term perspective of the calculations.

In the December 31, 2010 actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.00 percent investment rate of return (net of administrative expenses), which is a blended rate of the expected long-term investment returns on plan assets and on the employer's own investments calculated based on the funded level of the plan at the valuation date. The rate included a 3.00 percent inflation assumption. The medical cost trend rate varied between 10.50 and 5.00 percent. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five year period. The UAAL is being amortized as a level percentage of projected unit credit on a level percent of pay, open basis. The remaining amortization period at December 31, 2010 was thirty years.

**f. Other Employment Benefits**

The County has elected to provide death benefits to employees through the Death Benefit Plan for members of the Local Government Employees' Retirement System (Death Benefit Plan), a multiple-employer, State-administered, cost-sharing plan funded on a one-year term cost basis. The beneficiaries of those employees who die in active service after one year of contributing membership in the System, or who die within 180 days after retirement or termination of service and have at least one year of contributing membership service in the System at the time of death are eligible for death benefits. Lump sum death benefit payments to beneficiaries are equal to the employee's 12 highest month's salary in a row during the 24 months prior to the employee's death, but the benefit will be a minimum of \$25,000 and will not exceed \$50,000. All death benefit payments are made from the Death Benefit Plan. The County has no liability beyond the payment of monthly contributions.

For the fiscal year ended June 30, 2011, the County made contributions to the State for death benefits of \$21,728. The County's required contributions for employees not engaged in law enforcement and for law enforcement officers represented 0.12% and 0.14% of covered payroll, respectively.

**3. Deferred/Unearned Revenues**

The balance in deferred revenue on the fund statements and unearned revenues on the government-wide statements at year-end is composed of the following elements:

	<u>Deferred Revenue</u>	<u>Unearned Revenue</u>
Prepaid taxes not yet earned		
General Fund	\$ 294,925	\$ 294,925
Taxes receivable, net		
General Fund	2,299,142	-
Special Revenue Fund	147,346	-
Home Owners Fund	<u>322,095</u>	<u>322,095</u>
Total	<u>\$ 3,063,508</u>	<u>\$ 617,020</u>

**4. Risk Management**

The County is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County participates in one self-funded risk-financing pools administered by the North Carolina Association of County Commissioners. Through these pools, the County obtains property coverage equal to replacement cost values of owned property subject to a limit of \$125.5 million for any one occurrence, general, auto, professional, and employment practices liability coverage of \$2 million per occurrence, auto physical damage coverage for owned autos at actual cash value, crime coverage of \$250,000 per occurrence. The pools are audited annually by certified public accountants, and the audited financial statements are available to the County upon request. Two of the pools are reinsured through a multi-state public entity captive for single occurrence losses in excess of \$500,000 up to a \$2 million limit for liability coverage, \$600,000 of aggregate annual losses in excess of \$50,000 per occurrence for property, auto physical damage, and crime coverage. For health and dental insurance, the County is reinsured through the Pool for individual losses in excess of \$60,000 and aggregate annual losses in excess of 120% of expected claims. The pool is reinsured through commercial carrier for individual losses in excess of \$1,000,000.

In 1998, the County's group medical coverage went from fully insured to self-insured which is administered by an outside provider. The County also provides self-insured dental to its employees and

dependents. There is no limit for in-network services and a \$1,000,000 lifetime limit for out-of-network services for each covered employee/dependent's medical costs. The cost of providing medical coverage to participating employees and dependents is charged to benefiting funds as premiums. These premiums are an estimate of expected average claims per individual.

The County has not obtained flood insurance this year due to the fact that the County does not have any capital assets in a flood plain.

In accordance with G.S. 159-29, the County's employees that have access to \$100 or more at any given time of the County's funds are performance bonded through a commercial surety bond. The Finance Officer and tax collector are each individually bonded for \$250,000 each. The remaining employees that have access to funds are bonded under a blanket bond for \$250,000.

The County carries commercial coverage for all other risks of loss. There have been no significant reductions in insurance coverage from the previous year and settled claims have not exceeded coverage in any of the past three fiscal years.

**5. Commitments**

At June 30, 2011, the County was obligated under an operating lease for office space as follows:

**III. Fund Balance**

Franklin County has a revenue spending policy that provides policy for programs with multiple revenue sources. The Finance Officer swill use resources in the following hierarchy: bond proceeds, federal funds, State funds,

**FRANKLIN COUNTY, NORTH CAROLINA  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FISCAL YEAR ENDED JUNE 30, 2011**

local non-County funds, County funds. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The Finance Officer has the authority to deviate from this policy if it is in the best interest of the County.

The following schedule provides management and citizens with information on the portion of the General Fund fund balance that is available for appropriation:

Total fund balance-General Fund	\$ 21,492,922

**IV. Joint Ventures**

The Area Mental Health District was established to provide mental health services for five counties: Franklin, Warren, Granville, Vance, and Nash. Each county has one board member on the Area Mental Health Board, but none individually has authority to designate management. The County contributed \$134,500 to the Area Mental Health during the fiscal year ended June 30, 2011. The participating governments do not have any equity interest in the joint venture, so no equity interest has been reflected in the financial statements at June 30, 2011. The County has an ongoing financial responsibility to the District because of statutory requirements to provide funding. Complete financial statements for the Area Mental Health can be obtained from their administrative offices at 107 Industrial Drive, Louisburg, N.C. 27549.

The Kerr Area Rural Transportation Authority (K.A.R.T.S.) is an association of five County governments, including Franklin County. K.A.R.T.S. is a joint venture of the participating counties for the purpose of providing a safe, adequate and convenient transportation system for the jurisdictional area creating the authority and its immediate environs. The counties served by K.A.R.T.S. in addition to Franklin County are Granville, Vance, Warren and Person. Federal, State and local grants and users' fees provide general support of K.A.R.T.S. Each county appoints two members of the Authority management body and this governing body determines the budget and financing requirements of the Authority. The County has an ongoing financial responsibility for the joint venture because K.A.R.T.S. continued existence depends on the participant governments' continued findings. The County contributed \$34,859 to K.A.R.T.S. during the fiscal year ended June 30, 2011. The participating governments do not have any equity interest in the joint venture, so no equity interest has been reflected in the financial statements at June 30, 2011. Complete financial statements for K.A.R.T.S. can be obtained from their administrative offices at 943 W. Andrews Avenue, Henderson, N.C. 27536.

The County, in conjunction with the State of North Carolina, Vance County, Granville County, Warren County, Vance County Board of Education, and Warren County Board of Education, participates in a joint venture to operate the Vance Granville Community College. The State, Vance County, Granville County, Vance County Board of Education, and Granville County Board of Education appoint the twelve voting members of the board of

trustees. Franklin County appoints a nonvoting member of the board of trustees. The president of the community college's student government serves as an ex officio nonvoting member of the community college's board of trustees. The community college is included as a component unit of the State. The County has the basic responsibility for providing funding for the facilities of the community college and also provides some financial support for the community college's operations. The County has an ongoing financial responsibility for the community college because of the statutory responsibilities to provide funding for the community college's facilities. The County contributed \$300,000 and \$15,500 to the community college for operating and capital purposes, respectively, during the fiscal year ended June 30, 2011. The participating governments do not have any equity interest in the joint venture; therefore, no equity interest has been reflected in the County's financial statements at June 30, 2011. Complete financial statements for the community college may be obtained from the community college's administrative offices at P.O. Box 917, Henderson, N.C. 27536.

**V. Jointly Governed Organization**

The Kerr-Tar Council of Government is a voluntary association of five county governments, including Franklin County, established to coordinate federal and State projects of a planning nature in the five-county area in Central North Carolina. Each county appoints one member to the Council's governing body and this governing body selects the management and determines the budget and financing requirements of the Council. The County contributed \$20,698 to the Council during the fiscal year ended June 30, 2011.

**VI. Supplemental and Additional Supplemental One-Half of One Percent Local Government Sales and Use Taxes**

State law (Chapter 105, Articles 40 and 42, of the North Carolina General Statutes) requires the County to use a portion of the proceeds of its supplemental and additional supplemental sales taxes, or local option sales taxes, for public school capital outlays or to retire public school indebtedness. During the fiscal year ended June 30, 2011, the County reported these local option sales taxes within its Capital Reserve Fund. The County expended the restricted portion of these taxes for public school capital outlays and retirement of public school debt.

**VI. Benefit Payments Issued by the State**

The amounts listed below were paid directly to individual recipients by the State from federal and State moneys. County personnel are involved with certain functions, primarily eligibility determinations that cause benefit payments to be issued by the State. These amounts disclose this additional aid to County recipients that do not appear in the basic financial statements because they are not revenues and expenditures of the County.

**VII. Summary Disclosure of Significant Commitments and Contingencies**

**Federal and State Assisted Programs**

The County has received proceeds from several federal and State grants. Periodic audits of these grants are required and certain costs may be questioned as not being appropriate expenditures under the grant agreements. Such audits could result in the refund of grant moneys to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the refund of grant moneys.

**VIII. Significant Effects of Subsequent Events**

The County is anticipating borrowing \$6.7 million for an E911 enhancement upgrade pending LGC approval in December 2011.

## ENTERPRISE FUND

---

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the government's council is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; where the government's council has decided that the periodic determination of net income is appropriate for accountability purposes.

---

- **Water and Sewer Fund:** This fund is used to account for the operations of the County's water and sewer activities.
- **Water and Sewer Project Fund:** This fund accounts for construction of water and sewer capital assets within the County.

## Report On Internal Control over Financial Reporting and On Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

To The Board of County Commissioners  
Franklin County, North Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Franklin County, North Carolina as of and for the year ended June 30, 2011, which collectively comprises Franklin County's basic financial statements, and have issued our report thereon dated December 7, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

### Internal Control over Financial Reporting

Management of Franklin County is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered Franklin County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Franklin County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Franklin County's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Franklin County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Governmental Auditing Standards*.

We noted certain matters that we reported to the management of Franklin County in a separate letter dated December 7, 2011.

This report is intended solely for the information and use of the audit committee, management, others within the entity, members of the Board of County Commissioners, and federal and State awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## Report On Compliance with Requirements Applicable To Each Major Federal Program and Internal Control over Compliance In Accordance With OMB Circular A-133 and the State Single Audit Implementation Act

To the Board of County Commissioners  
Franklin County, North Carolina

### Compliance

We have audited the Franklin County, North Carolina, compliance with the types of compliance requirements described in the OMB *Circular A-133 Compliance Supplement* and the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of Franklin County's major federal programs for the year ended June 30, 2011. Franklin County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Franklin County's management. Our responsibility is to express an opinion on Franklin County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and the State Single Audit Implementation Act. Those standards, OMB Circular A-133, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Franklin County's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Franklin County's compliance with those requirements.

In our opinion, Franklin County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

## **Internal Control over Compliance**

Management of Franklin County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Franklin County's internal control over compliance with requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

We noted certain matters that we reported to management of Franklin County in a separate letter dated December 7, 2011.

This report is intended solely for the information and use of the audit committee, management, others within the entity, members of the Board of County Commissioners, and federal and State awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## Report On Compliance with Requirements Applicable To Each Major State Program and Internal Control over Compliance In Accordance With Applicable Sections of OMB Circular A-133 and the State Single Audit Implementation Act

To the Board of County Commissioners  
Franklin County, North Carolina

### Compliance

We have audited the Franklin County, North Carolina, compliance with the types of compliance requirements described in the *Audit Manual for Governmental Auditors in North Carolina*, issued by the Local Government Commission, that could have a direct and material effect on each of its major State programs for the year ended June 30, 2011. Franklin County's major State programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major State programs is the responsibility of Franklin County's management. Our responsibility is to express an opinion on Franklin County's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and applicable sections of OMB Circular A-133, as described in the *Audit Manual for Governmental Auditors in North Carolina*, and the State Single Audit Implementation Act. Those standards, applicable sections of OMB Circular A-133, and the State Single Audit Implementation Act require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major State program occurred. An audit includes examining, on a test basis, evidence about Franklin County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Franklin County's compliance with those requirements.

In our opinion, Franklin County complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major State programs for the year ended June 30, 2011.

## **Internal Control over Compliance**

Management of Franklin County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to State programs. In planning and performing our audit, we considered Franklin County's internal control over compliance with the requirements that could have a direct and material effect on a major State program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance with applicable sections of OMB Circular A-133 and the State Single Audit Implementation Act, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a State program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a State program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the audit committee, management, others within the entity, members of the Board of County Commissioners, and federal and State awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**Notes to the Schedule of Expenditures of Federal and State Financial Awards:**

1. Basis of Presentation

The accompanying schedule of expenditures of federal and State awards includes the federal and State grant activity of Franklin County and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and the State Single Audit Implementation Act. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. Benefit payments are paid directly to recipients and are not included in the county's basic financial statements. However, due to the county's involvement in determining eligibility, they are considered federal awards to the county and are included on this schedule.

2. Loans Outstanding

Franklin County had the following loan balances outstanding at June 30, 2011. These loan balances are also included in the federal and state expenditures presented in the schedule.

	CFDA #	Federal Amount Outstanding	State Amount Outstanding
Capitalization Grants for Clean Water State Revolving Funds	66.458	\$ 750,000	\$ 1,050,000

3. The following are clustered by the NC Departments of Health and Human Services and are treated separately for State audit requirements: Subsidized Child Care and Foster Care and Adoption.
