2014 State of the County Health Report Released

LOUISBURG, NC- The Franklin County Health Department has completed and released the 2014 State of the County (SOTCH) report for 2014. The report provides updates on the county's health data and status.

The report provides details on the progress made towards the top health concerns that were identified in the 2011 Community Health Assessment (CHA). The health concerns included in the SOTCH report include access to care, physical activity and nutrition (Chronic Disease and Obesity).

The report is posted at http://files.www.franklincountync.us/services/health/health-alerts/Franklin_County_SOTCH_2014-FINAL_COPY.pdf. You could also view a copy of the SOTCH report at any local Franklin County Library.

For additional information or comments about this report, please call 919-496-2533.
