Press Release

Franklin County Health Department Dental Clinic Closing

Louisburg, NC, May 19, 2014: Franklin County Health Department's Dental Clinic will be closing as of June 30, 2014. This regretful decision is the result of a decline in dental clients and budget restraints.

"Franklin County Health Department's Dental Clinic served as a resource to the Franklin County community for over 10 years and we applaud our staff for their hard work and dedication to public health." "Despite this regretful announcement of the closing of the dental clinic, we will continue to see value in our remaining health services, and we expect to continue to offer these services at our highest capacity", said Dr. Chris Szwagiel, Health Director.

Although dental services will end by June 30, 2014, Franklin County Dental Clinic will continue to serve clients until then.

Please visit our website for detailed information about additional services that the health department has to offer: www.franklincohealth.org or call (919) 496-2533.
