About the Graham County Community Foundation

Founded in 1999, the Graham County Community Foundation is an affiliate of the North Carolina Community Foundation. It is led by a local volunteer advisory board that helps build community assets by creating permanent endowments, making grants, and leveraging leadership and partnerships – all for the benefit of Graham County.

One of the key roles of affiliate foundation advisory boards is that of a grantmaker. Each year, XXXCF holds a competitive grants program using dollars from a community grantmaking fund and other board-advised funds. Learn more at nccommunityfoundation.org/Graham.

About the North Carolina Community Foundation

The North Carolina Community Foundation brings together generous people and connects them to causes and organizations they care about, with a focus on inspiring lasting and meaningful philanthropy in the state's rural communities.

With \$400 million in assets, NCCF sustains over 1,200 endowments and partners with donors and a network of affiliates in 60 counties to strengthen our state. By stewarding and growing donors' gifts, NCCF makes a powerful impact through a robust grants and scholarships program, awarding over \$270 million since 1988.

For more information, visit nccommunityfoundation.org.

About the 2024 Community Needs Assessment

The North Carolina Community Foundation works with the 53 affiliate foundations within our network to implement a strong grants program that serves each community.

NCCF strives to develop boards that are representative of the local communities they serve. A diversity of perspectives enhances the ability to assess community needs and distribute grants.

This Community Needs Assessment is intended to supplement board members' first-hand knowledge of their community with county-specific data. **NCCF does not conduct the research for the Community Needs Assessment.** Rather, we rely upon the expertise of other organizations who have gathered data that are relevant to carrying out an effective community grant program.

Where Does the Information Come From?

The assessment is a compilation of recent, reliable county-level data provided by respected nonpartisan sources and trusted community partners. The data are focused on education, economic well-being, health, and child and youth development, and are not inclusive of all subject areas or all community needs.

However, review of the data by our boards can reveal strengths, priority issues and challenges facing the county's residents. Our boards can also turn to other local data sources in determining community needs.

Below is information about the organizations and data sources included in the Community Needs Assessment:

- The **North Carolina Association of County Commissioners** highlights key statistics, including demographics, health and well-being, education and broadband access. More at ncacc.org.
- The **Carolina Across 100 from the Carolina Population Center at UNC-Chapel Hill** highlights areas of opportunity and resiliency. More at carolinaacross100.unc.edu.
- **myFutureNC**, a cross-sector nonprofit focused on educational attainment, shows North Carolina's progress toward the state's 2030 goal for postsecondary educational attainment as well as 18 educational performance indicators. More at myfuturenc.org.
- **NC Child** county data cards provide local snapshots of child well-being by county and compare county data to children in the state as a whole. More at ncchild.org.
- The **North Carolina Housing Coalition** snapshots provide an overview of housing needs for each of North Carolina's 100 counties. More at nchousing.org.

Note: Information shared from this assessment should be sourced to the organization that provided the data, not NCCF.
