

#### CAPITAL AREA MPO

Locally Administered Projects Program (LAPP) Project Management Training

March 13, 2025

9:00 AM - 3:00 PM

Link to Slide Deck: <a href="https://www.campo-nc.us/funding/locally-administered-projects-program/training">https://www.campo-nc.us/funding/locally-administered-projects-program/training</a>

#### Today's Agenda

- Introductions
- Locally Administered Projects Program Overview
  - Program Overview
  - TIP/STIP
- Project Development Process
  - FHWA Considerations
  - Pre-Design
  - Design
  - Right of Way
  - Construction
- LAPP Project Delivery Requirements
- Wrap Up

# Locally Administered Projects Program Overview

#### LAPP - Introduction

- Responsibility of the MPO
- In March 2010, the TAC directed staff to create the Locally Administered Projects Program.
  - Avoid future Federal rescissions to the maximum extent possible
  - Holistic approach to identify & prioritize highly effective projects
  - Efficient use of available funds
  - Annual modal investment mix
  - Project tracking system
  - Training program

#### LAPP - Eligibility

#### Locally- Administered

- By applying, the local government or NCDOT Division is committing to sponsor the project.
- The sponsor will be responsible for all federal and state reporting requirements.
- There will also be reporting on a regular basis required by CAMPO.
- An inter-local agreement will be required between NCDOT and the project sponsor.
- Local sponsors will be required to front all project costs, invoice NCDOT, and get reimbursed for the agreed upon federal percentage.

#### Shovel Ready

- Timely execution of agreement to proceed.
- Requested phase <u>authorized</u> within funding year.

# TIP/STIP Considerations & Funding/Schedule Changes

#### **TIP Process**

- Amendments require Executive Board (TAC) action (2-3 Months)
  - Add or delete a project
  - Change in design or scope, such as termini, number of lanes, etc.
  - Add or substantially modify a phase of work
  - Change in cost
  - Change in schedule
- Modifications that require administrative approval (No TAC action)
  - Minor change in funding amount
  - Use different source of funds
  - Small changes in project scope

#### STIP changes\*

- Revisions require Board of Tr. (BOT) action + additional 2-3 Months
  - Change Fiscal Year in which \$\$ to be authorized
  - Add (or modify) a phase of work
- Cases NOT requiring BOT action
  - Minor change in funding amount
  - Use different source of funds
  - \*If LAPP funds involved, MPO must review and concur

### **Transportation Conformity**

#### What is Transportation Conformity?

• It's how we ensure that Federal funding and approval goes to transportation activities that are consistent with air quality (AQ) goals

# CAMPO Conformity Impacted Counties

- Franklin
- Granville
- Johnston
- Wake

#### What if conformity determination cannot be made?

- The use of Federal aid funds is stopped
  - Impacts design work, right-of-way acquisition, construction, permitting and approval of environmental documents

#### What are conformity triggers?

- Change of project scope
  - Change in number of lanes
  - Auxiliary lanes
  - Managed lanes (HOV/HOT)
  - Change in project length
  - Addition/deletion of an interchange
  - Replacing an intersection with an interchange

#### What initiates the need for a conformity determination?

- Adoption or amendment of a MTP
- Adoption or amendment of a local TIP or STIP (project scope, horizon year or termini change during project development NEPA)

#### **Transportation Conformity Implications**

#### **Conformity Implications**

- Projects in non-attainment or maintenance areas
- Amendments
- Non-regionally significant, but not exempt projects require a conformity determination, but not a conformity analysis (short form) (unless the project is exempt)

#### **NO Conformity Implications**

- Projects NOT in non-attainment or maintenance areas
- Administrative Modifications
- Exempt projects

### Planning and Transportation Conformity Amendment Timelines

- Planning (no conformity)
  - 3 to 6 months to add a project to MTP/TIP/STIP
  - This is the current process we use for projects in CAMPO
- Planning (with transportation conformity)
  - 4 to 6 months conformity without a regional emissions analysis
  - 9 to 12 months conformity with a regional emissions analysis

## CMAQ

#### Congestion Mitigation & Air Quality Program (CMAQ)

- Federal program that provides funding for projects or programs in air quality concern areas to help achieve & maintain air quality standards
- Jointly administered by FHWA & FTA, in conjunction with EPA
- Funding available for areas that are (or were) non-attainment or maintenance
- Eligible projects / programs include those with air quality benefit that are likely to contribute to the attainment of the standards

#### Eligible CMAQ Projects

- Congestion Reduction & Traffic Flow Improvements
- Transit & Public Transportation Improvements
- Bicycle & Pedestrian Facilities/Programs
- Transportation Control Measures (TCMs)
- Travel Demand Management
- Public Education & Outreach
- Idle Reduction
- Alternative Fuels & Vehicles
- Carpooling & Vanpooling
- Diesel Engine Retrofits & Other Advanced Truck Technologies
- Value/Congestion Pricing

#### CMAQ

#### Project Submittal Process

- Initial Discussion with Applicants to Pre-screen Projects
- CMAQ Application
- Submitter review
- MPO/RPO Endorsement and Approval

#### **CMAQ**

#### Interagency Review

- FHWA, NC Division of AQ (NCDAQ), Environmental Protection Agency (EPA) and Federal Transit Administration (FTA) review applications for eligibility and provide review comments to NCDOT
- Projects are not approved until comments/questions are addressed

#### FHWA CMAQ Project Authorization

- CMAQ Application with Emissions Benefits
- Metropolitan Transportation Plan (MTP)/Transportation Improvement Program (TIP)/State TIP
- Right of Way Authorization
- Environmental Document
- Federal Share
- Project Completion Date

#### National Environmental Policy Act (NEPA)

#### **NEPA**

Environmental Document

- NEPA of 1969 (signed January 1, 1970)
- Established Nat'l environmental policy & goals
- Required agency disclosure of impacts of proposed actions and possible mitigation
- Created basis for environmental impact statements (EIS) for major Federal actions
- Created Council on Environmental Quality (CEQ)-monitors Federal actions, provides overall guidance, tracks trends and resources.

#### When Does NEPA Apply?

- For FHWA, basically when a project is proposed for Federal-aid Highway Funding
- Action-highway or transit project proposed for FHWA funding, but...
- ...actions must also include activities such as multiple use permits or changes in access control that may or may not involve commitment of funds

#### What must be considered?

- Natural and "built" environments
- Agencies must take a "hard look" at consequences of actions and keep public informed
- NEPA goal: Promote efforts which will prevent or eliminate damage to the environment

#### What are Classes of Actions?

- Categorical Exclusion (CE)-actions which do not individually or cumulatively have a significant effect on the human environment
- Environmental Assessment (EA)-significance of environmental impact is not clearly established; to determine the appropriate environmental document required
- Environmental Impact Statement (EIS)-detailed written statement on major Federal actions significantly affecting the human environment

# What will be needed to receive the Federal Funds?

- Completed/approved environmental document (PCE/CE/EA/EIS)
- Has to meet a transportation need
- Has to have logical termini
- Has to have independent utility, makes sense as a standalone project
- Appropriate closure and detour routes

#### Additional NEPA Resources

- Federal Aid Essentials for Local Public Agencies
- http://www.fhwa.dot.gov/federal-aidessentials/
- NCDOT Local Projects Administration
  - https://connect.ncdot.gov/municipalities/funding/Pages/default.aspx
- Local Programs Management (LPM) Handbook Updates
  - https://connect.ncdot.gov/municipalities/Funding/Pages/LPM%20Handbook .aspx

# Funding, Monitoring, & Reporting

#### FHWA's Role

- Provide Federal funding for your project
- Ensure Federal dollars are spent appropriately
- Ensure there is no fraud, waste, and/or abuse
- Ensure the recipients have a good project
- Ensure that recipients have every opportunity to keep every dollar of their Federal funds

#### NCDOT's Role

- Although NCDOT usually has no funds in LPA projects, they have full oversight and responsibility of all LPA projects established by:
  - 23 CFR 635.105(a) & (b):
    - (a) NCDOT has responsibility for the construction of all Federal-aid projects and is not relieved of such responsibility by authorizing performance of the work by a local public agency or other Federal agency. NCDOT shall be responsible for insuring that such projects receive adequate supervision and inspection to ensure that projects are completed in conformance with approved plans and specifications.
    - (b) Although NCDOT may employ a consultant to provide construction engineering services, such as inspection or survey work on a project, the NCDOT shall provide a full-time employed State engineer to be in responsible charge of the project.
  - Stewardship and Oversight Agreement
- In the unlikely event that funds have to be re-paid or deemed non-participating, they are taken from NCDOT and then the municipality will be responsible for repaying NCDOT (or it will be taken from your Powell Bill).

#### Common Terms

- Contract Authority, U.S. Congress
  - "You (NCDOT) might be able to obligate X dollars . . ."
- Obligation Ceiling (or Obligation Limitation)
  - ". . . but, based on overall budget conditions, you can only obligate Y dollars"
- Funds programmed (not yet guaranteed)
  - NCBOT adopts a new "Funding Program" (7-year STIP) every two years
- Funds obligated (safe from rescission axe)
  - Upon NCDOT request, FHWA agrees to reimburse for a specific project
- Rescission ("Houston, we have a problem")
  - Congress decreases the State's Contract Authority

#### 2 CFR 200 "The Supercircular"

- Period of Performance:
  - Imposes a period when project costs can be incurred
    - Start Date (Project Authorization Date) through the End Date (predetermined by NCDOT using a formula based on projects of similar scope accounting for delays)
    - Costs can <u>only</u> be incurred within start and end date
    - After project end date no additional costs can be incurred
    - Requires that projects be closed out 15 months after the "End Date" established and documented on the FHWA Authorization
- Extension/modification of End Date is authorized by the awarding agency only when there is a project delay beyond the control of the recipient
  - Ex: utility delays, railroad delays, lawsuits, etc.

#### Project/Funds Authorization

- FHWA commitment that Federal funds are available for the project
  - Preliminary Engineering (PE)
  - Right of Way acquisition (ROW)
  - Construction (CON)
- Authorization is required <u>prior to</u> incurring <u>any</u> expenses
- Work done before the date of FHWA Authorization is NOT eligible for reimbursement

#### CEI Contracts/Advice

(We cannot tell you who to hire, but we can offer some things to consider)

- If you are hiring a CEI Firm to handle your project, hiring one that has NCDOT contract administration experience is important
  - You may want to consider putting something in your contract to reflect that
  - Does the specific Project Manager/Inspector that will be working on your job have NCDOT experience?
- Your Municipal officials signed a Municipal Agreement that states:
  - All projects are required to use:
    - NCDOT's Standard Specifications, NCDOT's Construction Manual, NCDOT's Minimum Sampling Guide, and all State and Federal regulations

#### Inactive Projects

- A project will become inactive if it has not had an expenditure charged to it in FHWA's project tracking system for one year
- Once a project hits the 1-year report, FHWA's Finance Section is REQUIRED to deobligate the unexpended funding amount
- The Municipal Agreement states that a project must be invoiced at least once every 6 months to keep the project active and eligible for Federal funding.
- The Municipal Agreement also states:
  - FINAL INVOICE
    - All invoices associated with the Project must be submitted within six (6) months of the completion and acceptance of the Project to be eligible for reimbursement by the Department. Any invoices submitted after this time will not be eligible for reimbursement.

#### Preliminary Project Reviews

- LPA Program Manager will be conducting three types of reviews:
  - Compliance Assessment Review (CAP) Directed and selected by our Headquarters Office
  - Pre-Construction Conference Review When you receive your Concurrence In Award letter from NCDOT, it will have on it that an invitation to the Pre-Construction Conference should be sent to your NCDOT contact, NCDOT M&T Contact, as well as FHWA Local Program Manager(s)
  - Records Reviews Will consist of a review of all project records and documentation for a project that is 50%-75% complete
    - We will provide a copy of the checklist that will be used!

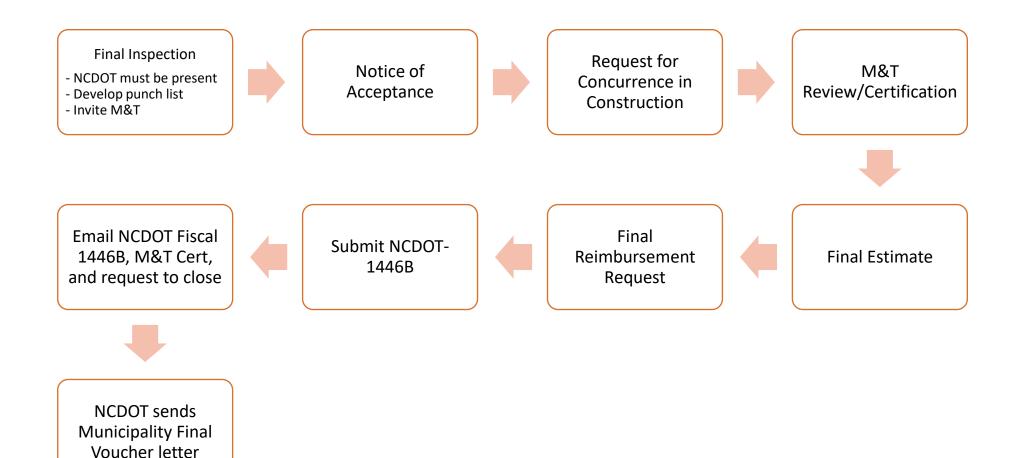

#### Buy America

- All steel and iron products permanently incorporated into a Federal-aid project MUST be domestically produced
- Build America, Buy America extends coverage to construction materials
- Applies to both highway and non-highway projects
- Regulations & Guidance on Buy America:
  - Buy America for LPA <a href="https://highways.dot.gov/fed-aid-essentials/videos/project-construction-and-contract-administration/contract-1">https://highways.dot.gov/fed-aid-essentials/videos/project-construction-and-contract-administration/contract-1</a>
  - 23 CFR 635.410 <a href="https://www.govinfo.gov/content/pkg/CFR-2013-title23-vol1/xml/CFR-2013-title23-vol1-sec635-410.xml">https://www.govinfo.gov/content/pkg/CFR-2013-title23-vol1/xml/CFR-2013-title23-vol1/xml/CFR-2013-title23-vol1-sec635-410.xml</a>
  - Page 86 of CACC <a href="https://www.fhwa.dot.gov/programadmin/contracts/cacc.pdf">https://www.fhwa.dot.gov/programadmin/contracts/cacc.pdf</a>
  - Build America, Buy America https://www.fhwa.dot.gov/construction/contracts/buyam qa baba pre10232023.cfm

     https://www.fhwa.dot.gov/construction/contracts/buyam qa baba post10232023.cfm

#### Project Closeout

#### Project Closeout

- 2 CFR 200 (aka: Supercircular) Requires that projects be closed out 15 months after the "End Date" established and documented on the FHWA Authorization.
- If timeframes are not met, the Supercircular states that ALL project funds shall be taken back.
- Keep all project records for three years after the Final Voucher Date as they can be audited by FHWA until that time.
- Closeout guide and checklist: https://connect.ncdot.gov/municipalities/Funding/Pages/LPM%20Handbook.aspx

#### Examples of Items That Are Not Eligible

The rule of thumb is it has to be "transportation related" itemsyou should be able to walk on it, ride on it, or drive on it.

(Just because it's in the Master Plan, doesn't mean it's eligible for Federal Funding)

#### Don't Be Afraid To Ask For Help!

- Please contact your NCDOT partner if
  - You have questions
  - Run into a problem
  - Don't know how to handle something
- NCDOT is here to help you and to keep you out of trouble
- If anything needs to be elevated, NCDOT will contact FHWA

## Local Project Delivery and Implementation

Marta Matthews and Raymond Hayes

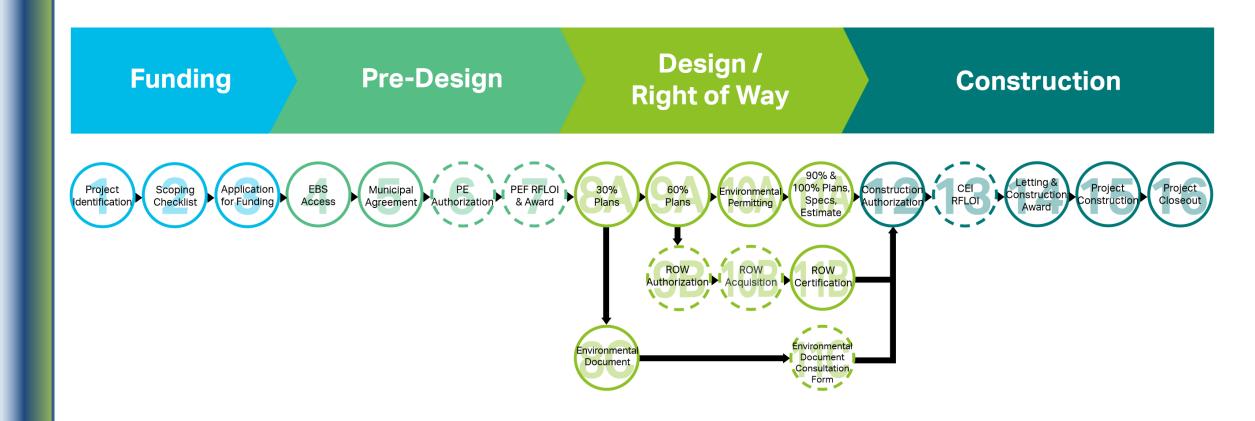

March 21, 2024

Connecting people, products and places safely and efficiently with customer focus, accountability and environmental sensitivity to enhance the economy and vitality of North Carolina

#### https://connect.ncdot.gov/municipalities/Funding/Pages/default.aspx

- The Department has a website for internal and external customers to utilize for information.
- For Local Projects, click on the "Local Governments" tab, then the "Local Projects" tab.
- The website provides resources and links to other funding areas, project guidance, templates and forms.

#### WHAT IS NCDOT'S ROLE?

NCDOT's role is to advise, approve and oversee the proper expenditure of funds by an LGA on an eligible project or program. NCDOT is committed to establishing appropriate oversight in order to ensure the best use of public funds and compliance with all applicable state and federal regulations.

# LOCAL PROJECT DELIVERY

#### Basic Requirements for Federal-aid Projects

- Federal-aid funding is cost-reimbursement
- Funding Authorization (from FHWA) is required prior to each phase of work
- Local Government Agency (LGA) has the responsibility to deliver the project
- NCDOT has the responsibility to provide oversight to LGAs and ensure appropriate use of funds

#### Design Coordination and Schedules

#### Typical Project Delivery Steps

#### Agreement

- -Preliminary Engineering Authorization------
  - Procuring Professional Services

Environmental Document (required)

Plans (required)

- ---Right of Way Authorization-----
  - Right of Way Acquisition
    - Utility Relocation

Right of Way Certification (required)
Utility / RR Certification (required)
Contract Proposal and Estimate (PS&E) (required)

-----Construction Authorization-----

- Advertise and Let Construction Contract
  - Construction & Administration
    - **Final Inspection (required)** 
      - Final Reimbursement

#### **Funding Authorization**

For every phase that is eligible for reimbursement, the LGA must request funding authorization through the Local Project System (EBS).

- PE: Preliminary Engineering pays for professional engineering services, and other preconstruction activities
- ROW: Right of Way and Utility Relocation pays for costs of acquiring ROW, relocating utilities, appraisals and other ROW associated costs
- CON: Construction pays for the construction contract, construction engineering and inspection (CEI), and contract administration.

SUBMIT CHANGE REQUEST FOR FUNDING AUTHORIZATION

#### **Funding Authorization**

- Refer to the chart to show when funding authorization may be requested for each phase.
- Note deliverables that are needed <u>prior</u> to requesting funding authorization.
- Funding authorization starts the clock with FHWA.

### NCDOT will use your funding

- Even if the LGA is not receiving funding for a certain phase of work, the funding is still available for NCDOT to authorize and utilize for the review of plans, appraisals, certification package, proposal, etc.
- The LGA is responsible for the non-federal match on any DOT charges.
- The LGA is responsible for any costs that exceed the available funding.

#### Enterprise Business Systems (EBS)

#### LPMO Security Form

- Must have a user id and password to access the EBS portal and Local Projects.
- Form is on the Connect website.
- If you already have access to EBS portal, then indicate that in Section 2 of the form.

#### Local Programs Management System Access Authorization Form

The new Local Programs Management System requires a User ID and Password for access in the system. Complete Sections 1 -3 for a User ID and password, if you are going to perform work within the System (i.e. submit a PID application, submit a Reimbursement claim, request changes to an agreement, or view documentation). Scan, attach and email the form to the LPMO Security Coordinator at <a href="LPMO@ncdot.gov">LPMO@ncdot.gov</a>.

## Municipal Agreement

#### Agreement

- Cannot be initiated until funding is programmed in the STIP in correct year.
- Executed between NCDOT and the Local Governmental Agency.
- Includes provisions that LGA must comply with in order to receive reimbursement.
- Includes funding, time frames, scope of work, and responsibilities.

Funding Authorizations cannot occur until a fully executed agreement is in place.

#### **Application Process**

- When project has been programmed in the STIP by CAMPO and approved by the BOT, you can request an agreement.
- Submit an APPLICATION in the Local Project System (EBS Portal).

**NEW AGREEMENT APPLICATION IN EBS** 

## **Actions for Application**

Your Application will be Returned, Rejected or Approved:

Returned: If the application needs to be corrected, or needs

additional information

Rejected: If the Project is not programmed in the STIP, you

can't start agreement process.

Approved: An Agreement is started by the LPMO

## Agreement Preparation and Execution

- LPMO will create the agreement and send via DocuSign
- LGA will review and has three options for execution:
  - 1. Use the received DocuSign envelope to sign the Agreement
  - 2. Use the LGA's own DocuSign account to obtain LGA signatures only
  - 3. Print out agreement, sign in ink and mail one original to LPMO.
- NCDOT will DocuSign the agreement and send an electronic copy to the LGA and upload to EBS Portal.
- If ink signature, NCDOT will keep the LGA's original signature page in our files.

## Typical Project Delivery Steps

-----Preliminary Engineering Authorization-----

Procuring Professional Services

Environmental Document (required)

Plans (required)

-----Right of Way Authorization-----

- Right of Way Acquisition
  - Utility Relocation

Right of Way Certification (required)

Utility / RR Certification (required)

Contract Proposal and Estimate (PS&E) (required)

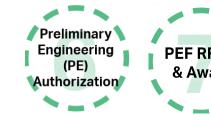

-----Construction Authorization-----

- Advertise and Let Construction Contract
  - Construction & Administration

Final Inspection (required)

Final Reimbursement

#### PE Authorization & RFLOI

## **Funding Authorization**

- Allows the LGA to proceed with the authorized phase of work
- No costs may be reimbursed if they occur prior to authorization
  - PE Funding Authorization allows the LGA to advertise/solicit for Professional engineering services.
  - o ROW Funding will allow the LGA to initiate property acquisition or utility relocation.
  - Construction Funding will allow the LGA to bid out the construction project.

**SUBMIT CHANGE REQUEST IN EBS** 

## PE Funding Authorization

- Change Request will be approved and a letter will be attached that lays out next steps.
- PE Authorization allows the LGA to move forward with solicitation of engineering firms

#### **NOTE**

- Some solicitation may occur in advance of authorization
- If PE is not an eligible phase, then no authorization will occur

## Typical Project Delivery Steps

✓ Agreement

✓-----Preliminary Engineering Authorization------

Procuring Professional Services

Environmental Document (required)
Plans (required)

-----Right of Way Authorization-----

- Right of Way Acquisition
  - Utility Relocation

Right of Way Certification (required)
Utility / RR Certification (required)

100% Plans, Contract Proposal and Estimate (PS&E) (required)

-----Construction Authorization-----

- Advertise and Let Construction Contract
  - Construction & Administration

**Final Inspection (required)** 

Final Reimbursement

### **Professional Services**

- All professional services procurement must be in accordance with 23 CFR 172.
- LGA must have their own written procedures, approved by NCDOT, or they can comply with NCDOT's *Policies and Procedures for Procurement and Administration of Major Professional or Specialized Services Contracts*
- Resources
  - Read 23 CFR 172
  - Review Professional Services section of Agreement and Handbook
  - Refer to NCDOT's Policies and Procedures
  - Utilize DOT's template for a Request for Letters of Interest (RFLOI)

## Request for Letters of Interest (RFLOI)

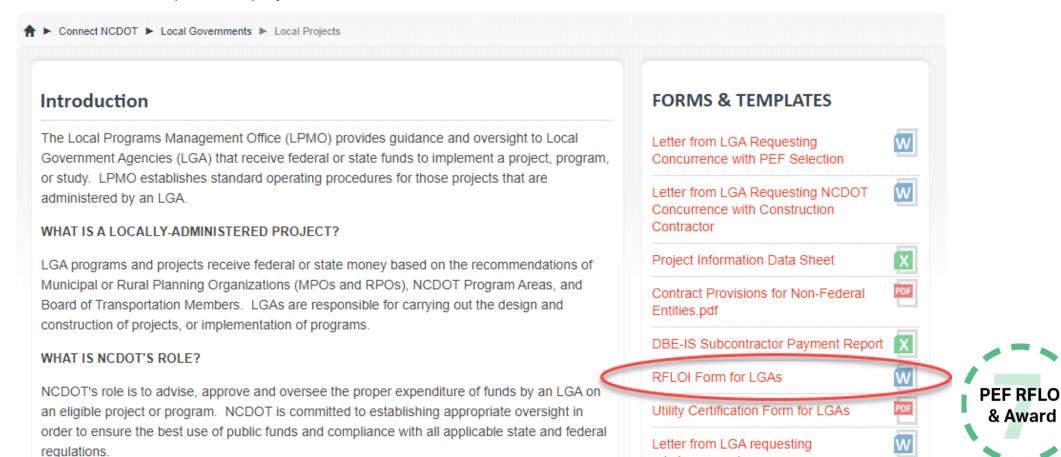

- LGAs must complete an RFLOI for engineering services; either for design or for construction engineering and inspection (CEI).
- Use the template on the NCDOT Connect site
- Submit draft RFLOI through EBS Portal.
  - PS: PE RFLOI
  - PS: ROW RFLOI
  - PS: CON RFLOI

SUBMIT DOCUMENTS IN EBS

#### **Local Projects Administration**

Guidance to help municipalities implement and deliver locallyadministered transportation projects.

& Award

#### **Updates to the 2009 Handbook**

- \* Instructions
- \* Webinar
- \* Updates (in red)
  - Introduction (Including Contacts)
  - State Transportation Improvement Program
  - Funding, Eligible Costs, and Match Requirements
  - Schedule
  - Project Agreement
    - Project Information Data Sheet (see Forms & Templates)
  - Funding Authorization Overview
  - Preliminary Engineering Authorization
  - Professional Services
    - Project Specific Solicitation vs On-Call Contract (Sverview)
    - GUIDELINES for COMPLETING RFLOI.pdf
    - Template Request for Letters of Interest (see Forms & Templates)
    - Letter from LGA Requesting Review of Proposal (see Forms & Templates)

## RFLOI - Important Notes

- PE RFLOI can be drafted and sent to LPMO for review prior to authorization.
  - Submit under "PS: PE RFLOI"
  - In some instances, approval to advertise <u>prior to</u> funding authorization may be allowed.
- CEI RFLOI can be drafted, sent to LPMO for review and advertised prior to authorization.
  - Submit under "PS: CEI RFLOI"
- DO NOT sign a consultant contract prior to funding authorization.

### Solicitation & Selection of PEF

- Advertise, announce, or otherwise publicly notify all requirements for services.
- Select most qualified firm to undertake the work. Ensure all consultants are pre-qualified by NCDOT in the work codes advertised.
- LGA will submit a letter requesting review of the PEF selection with documentation of a scoring process.
  - "PS: PE PEF Selection Process"
  - "PS: CEI PEF Selection Process"

### Selection of PEF

- LGA will submit these documents in the EBS Portal.
- Select either:
  - "PE PEF Selection Process"
  - "CEI PEF Selection Process"

to submit your following documents:

- Letter on your letterhead to name the selected firm and why you selected this firm.
- Rating sheets
- Proposal from selected firm
- RS-2 forms

## Approval of PEF

- You will receive back a concurrence letter for your selection.
- LGA will schedule a scoping meeting, if needed.

## Negotiate a Contract

Request Cost Proposal from PEF

When the consultant develops their costs proposal, they should use the applicable spreadsheets found under Forms at this website:

https://connect.ncdot.gov/business/consultants/Pages/default.aspx

Planning & Design

**NCDOT Scope and Manday Estimate Form** 

**Construction Engineering & Inspection** 

CEI Technicians' Scope and Estimate Form

## Review of Cost Proposal

- Upload completed Cost Proposal Spreadsheet in the EBS Portal.
  - PS: PEF TASKS AND MANDAYS WITH RATES
  - PS: CEI COST SPREADSHEET
- Division will review the scope of work, tasks, and man-hours to ensure effort is consistent with the work needed.
- External Audit will review employee salary rates, overhead rates to ensure all documentation is consistent with the firm's approved audit.
- If revisions are needed, negotiate or modify as allowed and finalize the cost estimate.
- Submit for final review and approval letter.

### Review of Consultant Contract

- Once cost estimate is finalized, submit a draft copy of the PEF contract.
  - PS: PEF CONTRACT DESIGN OR ROW
  - PS: PEF CONTRACT CEI
- Refer to *Contract Provisions for Non-Federal Entities* on the Connect website to include in your contract.
- Payment terms for Design/Planning are generally Lump sum and CEI are Cost Plus.

### **Consultant Contract**

 The Department will review contract to ensure appropriate payment terms and costs are the same as approved in the Audit Report.

• The LGA will receive an approval letter then submit the executed Consultant Contract in EBS for the Project file before requesting any reimbursement.

## Resubmitting Returned Workflows

If an activity/transaction is returned, you will receive an e-mail with an attached letter explaining the changes needed, along with directions for resubmitting:

From your Home Screen, click on View Agreement/Submit Document

- 1. Search for your Project by TIP or Agreement No.
- 2. Select from ID #
- 3. Scroll down to TRANSACTION HISTORY
- 4. Either sort by Created Date into most recent, or search for workflow activity under Transaction ID
- 5. Open up activity
- 6. Attach any changes or modification/additional documentation
- 7. Click SUBMIT at the top

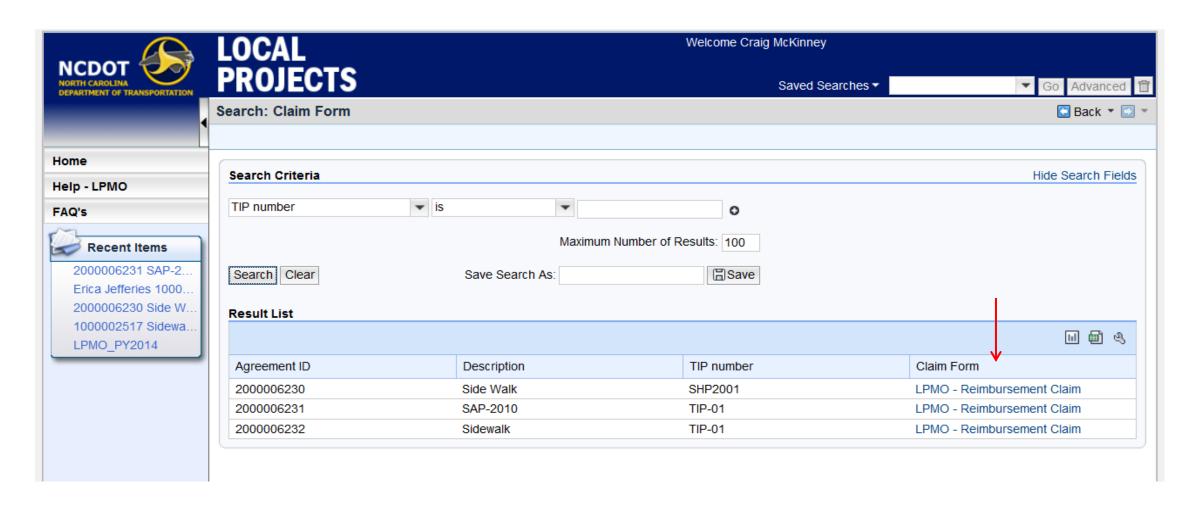

### Reimbursement Procedures

### Reimbursement

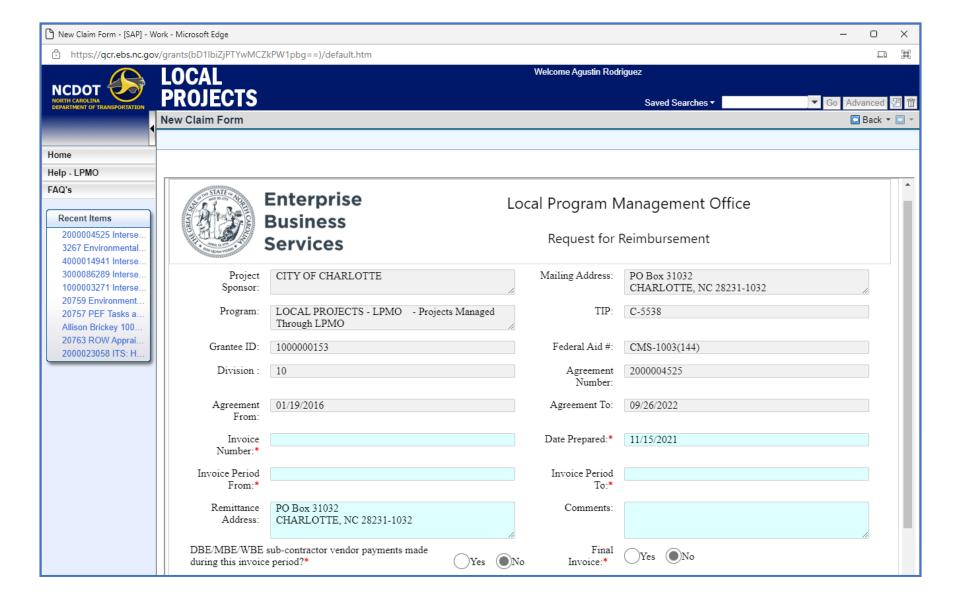

- All reimbursement requests will be submitted through the EBS Portal
- Submit new Reimbursement Claim
- Only one claim can be submitted at a time
- A reimbursement claim must go through final approval before submitting a second claim.

**NEW REIMBURSEMEN CLAIM IN EBS** 

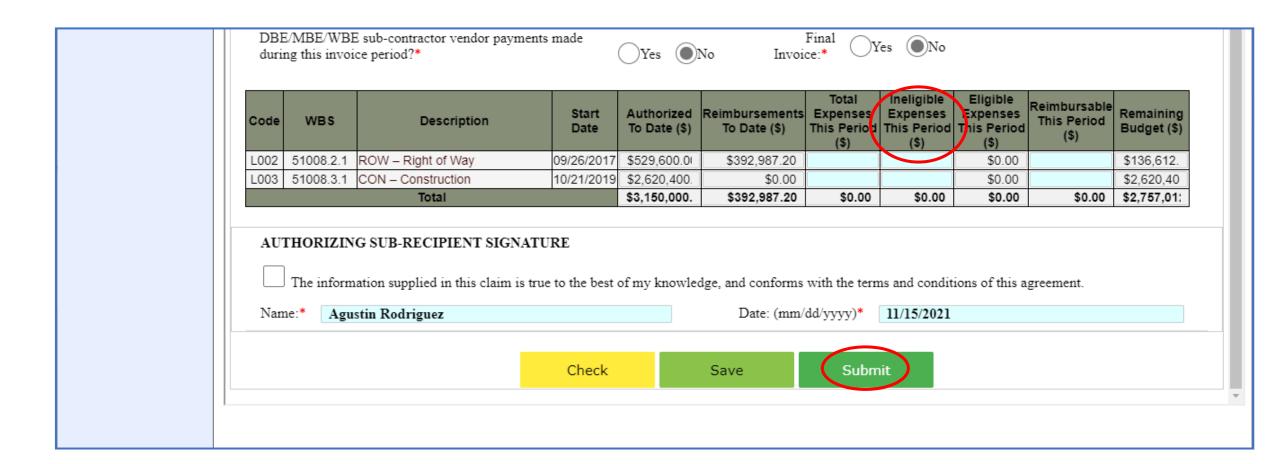

### New Reimbursement Claim

## Submit Reimbursement Request

## Submit Reimbursement Request

## PE Reimbursement Package

### What is needed when I submit my PE claim in EBS?

- Cover Letter (on LGA letterhead) that shows
  - Project TIP # and WBS Elements
  - Invoice #
  - Total costs paid, with cost share calculation (per agreement)
  - List of invoices and firms paid with amounts
  - Materials test results
- Actual invoices from consultants, pay applications from contractors, etc., referencing the work done for the project
- Subcontractor Payment Report (DBE-IS)
- Evidence of Payment
  - Copy of cancelled check, or
  - Copy of bank statement showing where checks have cleared, or
  - A certified EFT / ACH statement

## PE Reimbursement Package

#### **CLAIM FORM IN EBS**

- Make sure remittance address on Claim Form matches address on Cover Letter
- Invoice # on Claim Form must either be unique and also appear on Cover Letter; or,
- Invoice # on Claim Form must be date of Cover Letter in YYYYMMDD format
  - Example: 20230321
  - Example: 20230321C599901 (no hyphens, slashes, or other special characters)
- Calculate the reimbursement amount based on the approved reimbursement rate in your agreement.

### NCDOT Review & Administrative Fees

- Varies by Division, but several units of DOT may charge time to the project if they review items.
- These charges accumulate at 100% against the federal money, which is set up at 80%, therefore NCDOT must bill the other 20% from the LGA.
- In addition to direct staff time, NCDOT also applies indirect charges to all open projects per an agreement with FHWA.
- These charges are eligible for federal funds for 80% of their costs, but the Department will still bill the LGA for 20%.

### NCDOT Review & Administrative Fees

- If all the federal funds have been used on reimbursement to the LGA or Departmental charges, and there are still costs remaining, then the LGA will be billed 100% of those remaining costs.
- Language has been added to the Agreement to account for NCDOT charges up front.
- This should be calculated into any initial budgets developed for the project.

## **Questions or Comments?**

### PUBLIC TRANSPORTATION STIP PROCESS

LATOYA CALDWELL
PROGRAM CONSULTANT
INTEGRATED MOBILITY DIVISION

Connecting people, products and places safely and efficiently with customer focus, accountability and environmental sensitivity to enhance the economy and vitality of North Carolina

#### STEP 1:

# SUBMIT YOUR REQUEST VIA SMARTSHEETS ONCE YOU HAVE YOUR STIP#

https://app.smartsheet.com/b/form/614c4fcc9 5fc4e739efbf264d2fb87df

ONCE YOUR REQUEST IS SUBMITTED, IMD REPRESENTATIVE, LATOYA CALDWELL WILL SUBMIT TO THE STIP UNIT FOR NC BOARD OF TRANSPORTATION AGENDA.

## STIP Smartsheets

Requirements ○1st of the month is the cut off date for project to be submitted for the following month handout.

#### STEP 2:

#### **FTA ENDORSEMENT LETTER**

You are now at Step 2; this means your project was approved and now a Federal Transit Administration(FTA)letter is composed.

The items that are included in this letter are listed in the legend for the tables section of this slides.

Once the letter is approved by the administration, IMD representative will receive a copy and will notify the project request submitter.

The approved letter authorizes IMD representative, LaToya Caldwell to move to Step 3: Flex Funding Request Process.

#### LEGEND FOR THE TABLES:

- STIP#: identifying unique number for the project in the STIP
- FUND: Type of federal, state, and local fund source used to pay for the project. The federal types include 5307 (FUZ), 5316 (JARC), FNF (5317 New Freedom), Congestion Mitigation and Air Quality (CMAQ), FNU (5311), FEDP (5310 Elderly and Persons with Disabilities, and 5339 (FBUS).
- MATCH: Indicates the funding breakdown between federal (US), state (S), and local (L) funds
- FY 20-FY 29: This table shows the amount of funding to be programmed for each fiscal year. All funding amounts shown are in thousands (000's).

#### ncdot.gov

#### PUBLIC TRANSPORTATION STIP PROCESS

### **STEP 3:**

#### **Flex Funding Letter**

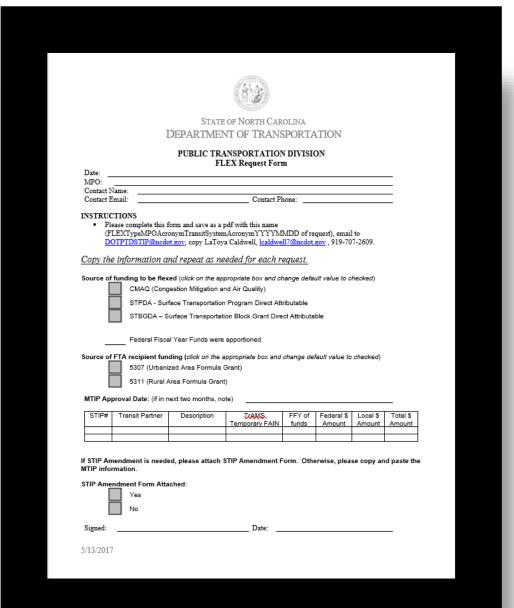

You are now at Step 3; at this step IMD representative, LaToya Caldwell will submit a flex funding letter to request the source funds to be transferred from FHWA to the source Federal Transit Administration recipient funding.

This step doesn't go in transition until it is requested by the submitter.

Once the flex funding letter is submitted to Financial Management Division, the FHWA – 1575 C form is created and submitted to Raleigh FHWA Division office.

Raleigh FHWA Division office submits the 1575C form to Washington for approval.

Note: The Financial Management Division will email the approved signed 1575C to the IMD Representative.

### **ADDITIONAL INFORMATION**

If you do not have an existing STIP, you must request a STIP# from IMD Representative, LaToya Caldwell.

The STIP# will begin with one of the following legend codes:

#### **Legend Code**

- Prioritization
  - TP 000L
- Locally Selected (Locals)
  - o TL 000L
- Operations & Maintenance (a lot of the Counties)
  - o TM 5311, 5310, operating State Grant
- Capital and Routine Maintenance
  - o TG
- Planning & NPO
  - o TU

## Plan Review

## Engineering

Major Projects: Central Preconstruction, Raleigh

Roadway Design Unit - Tatia White, PE

(Either Roadway Design or the Division will engage other Technical Units as needed)

Minor Projects: Division Office

Raymond Hayes, PE, <a href="mailto:ext-rjhayes@ncdot.gov">ext-rjhayes@ncdot.gov</a>

### Project Design

- What's "minor"? Simple design, no complicating issues.
- What's major? Closed Drainage systems, culverts, other structures – things a design unit in Raleigh must review.
- All projects to use the NCDOT 2024 Standard Specifications and Standard Drawings.
- Project Plan Consistency Title Sheet of project plans to have WBS Element numbers and STIP number. All other plan sheets to have STIP number.

30% Plan

### **Project Review Time**

Is it a complete set of plans and specifications?

### **MINOR**

- Email or Paper Submittal
- Short Review Time usually within 2 to 3 weeks
- But.....there are dozens of projects (not just LAPP projects), and typically 1 to 2 weeks reviewer!

### **MAJOR**

- Electronic plans, pdf's and Microstation files sent to Roadway Design
- 3 to 4 weeks due to multiple reviewing units and internal coordination
- Check with the Division Office or Roadway Design on the submission of electronic and hard copy plans. Email is the easiest way to transmit electronic plans.
- September is the big "due" month, so everything takes longer due to shear volume.

# **Major Projects**

- Scoping Meeting <u>Recommended</u> with NCDOT, Municipality & Consultant prior to execution of Consultant Contract
- Corridor Modeling/OpenRoads Designer (ORD)
- 25%, 75% (R/W), 90% & 100% Plan Reviews
- U & R type designated STIP projects to be submitted to NCDOT Plan Checking at 100% final review
- Final Contract Documents to be reviewed by NCDOT Proposals & Contracts office.
- Project Plan Submittals Roadway; Geotechnical; Structures Retaining Walls, Bridges, Culverts;
   Pavement Design; Hydraulics; Utilities; TMP's; Signing & Delineation; Signals; with Design, Safety,
   Maintenance and Future Expandability in mind.
- Municipal Project Design & Review Criteria

# Ben Upshaw, PE/ Raymond Hayes, P.E.

 Planning Document (PCE, CE, EA, etc.) progresses concurrently with design plans. Some projects go through the Merger Process.

# What is the main goal of the Locally Administered Projects Program (LAPP)?

- a) To prioritize projects with the highest costs
- b) To ensure projects are administered at the state level
- c) To efficiently use available funds and prioritize effective projects
- d) To reduce the need for environmental assessments

# Who is responsible for **ensuring compliance with federal and state regulations** in locally administered projects?

- a) The project contractor
- b) The local government agency (LGA)
- c) The Federal Highway Administration (FHWA) only
- d) NCDOT
- e) CAMPO

# What must a local government do before receiving reimbursement for project costs?

- a) Submit invoices to NCDOT
- b) Wait for project completion
- c) Apply for state approval only
- d) Pay contractors in advance without documentation

# (True/False)

Local sponsors must front all project costs before receiving federal reimbursement.

Any project involving federal aid must follow the **National Environmental Policy Act (NEPA)** regulations.

# **Short Answer**

What is the "Buy America" requirement, and what materials does it apply to?

# **Environmental Document**

Environmental Document

Agreement between FHWA and

Current 2024 CE format supersedes the previous January 2019 agreement.

https://connect.ncdot.gov/resources/Environmental/EPU/NEPA/Documents/NCDOT-FHWA\_2024\_CE\_Agreement.pdf

- ➤ Continues NCDOT responsibility for verifying project is a CE.
- NCDOT will continue to sign CE's for Type I and Type II projects.
- > FHWA and NCDOT signature still required for Type III CE Projects.
- Changes to threshold criteria questions when FHWA signature is required for Type I and Type II projects (Tables F1 and F2).
- Changes to questions for Type II and III projects.
- Changes to identified "actions" allowed for each type of CE document.
- There are some "revised" and "new" Type I Actions (see Appendix A).

# Agreement between FHWA and NCDOT

Environmental

Document

Consultations required to establish if the CE remains valid for the requested action.

A Consultation is required when NCDOT plans to proceed with the authorization of an additional phase, such as right of way or construction and the CE or Consultation document is more than one year old.

# **OR**

When the CE or Consultation is less than one year old and substantial change has occurred which include the following:

- Changes to the threshold criteria in Section V being exceeded.
- Expansion/additions to the project limits and/or footprint.
- Changes to the number of travel lanes.
- Changes in access control,

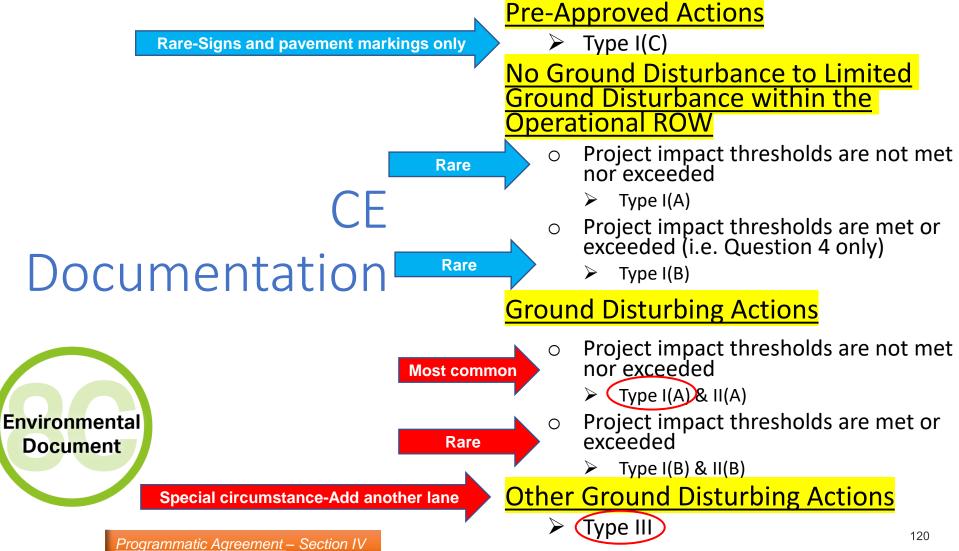

# Agreement between FHWA and

**Document** 

- ➤ NCDOT has to maintain a project file for CE documents and CE Consultations it makes on behalf of FHWA (SharePoint). See list of documents and deliverables in the new guidance.
- LAP projects are unique as deliverables are prepared/owned for the municipality and the environmental document is signed by NCDOT. The administrative record is very important on LAP projects. Per NCDOT: If it is not in SharePoint it never occurred.
- ➤ All projects and documents must adhere to NCDOT Quality Assurance and Quality Control.

Actions are now documented in 1 of 4 types with specific descriptions:

F2. Ground Disturbing Actions – Type I (Appendix A) & Type II (Appendix B)				
Appen (NCD) questi • If a	sed improvement(s) that fit Type I Actions (NCDOT-FHWA CE Programmatic Agreemed A) including 2, 3, 6, 7, 9, 12, 18, 21, 22, 23, 24, 25, 26, 27, 28, &/or 30; &/or Type DT-FHWA CE Programmatic Agreement, Appendix B) answer the project impact thresons (below) and questions 8–31.  In any question 1-7 is checked "Yes" then NCDOT certification for FHWA approval is required question 1-30 is checked "Yes" then additional information will be required for thos Section G.	II Action hold		
	ECT IMPACT THRESHOLDS A signature required if any of the questions 1-7 are marked "Yes.")	Yes	No	
1	Does the project require formal consultation with U.S. Fish and Wildlife Servi (USFWS) or National Marine Fisheries Service (NMFS) in which a "likely to adversely affect determination" has been made? (Source: xxx [report, 2024])			
2	Does the project result in effects subject to the conditions of the Baid and Golden Eagle Protection Act (BGEPA)? (Source: xxx [report, 2024])			
3	Does the project generate substantial controversy or public opposition, regarding human and/or natural environment concerns, following appropriate public involvement? (Source: xxx [report, 2024])			
4	Does the project cause disproportionately high and adverse effects relative to low-income and/or minority populations? (Source: xxx [report, 2024])			
5	Does the project involve a residential or commercial displacement, or a substantial amount of right of way acquisition? (Source: xxx [report, 2024])			
6	Does the project require an Individual Section 4(f) approval? (Source: xxx [report, 2024])			
7	Does the project result in adverse effects that cannot be resolved with a Memorandum of Agreement (MOA) under Section 106 of the National Historic Preservation Act (NHPA) or result in an adverse effect on a National Historic Landmark (NHL)? (Source: xxx [report, 2024])			
Other Considerations				
8	Is an Endangered Species Act (ESA) determination unresolved or resolved utilizing a Section 7 programmatic agreement? Include in Section G any utilization of a Section 7 Programmatic Agreement. (Source: xxx [report, 2024])			
9	Is the project located in anadromous fish spawning waters? (Source: xxx [renort, 2024])			
10	Does the project impact waters classified as Outstanding Resource Water (ORW), High Quality Water (HQW), Water Supply Watershed Critical Areas, 303(d) listed impaired water bodies, buffer rules, or Submerged Aquatic Vegetation (SAV)? (Source: xxx [report, 2024])			
11	Does the project impact waters of the United States in any of the designated mountain trout streams? (Source: xxx [report, 2024])			
12	Does the project require a U.S. Army Corps of Engineers (USACE) Individual Section 404 Permit? (Source: xxx [report, 2024])			
13	Will the project require an easement from a Federal Energy Regulatory Commission (FERC) licensed facility? (Source: xxx [report, 2024])			

2019 Table F2

Proposed improvement(s) that fit Type I Actions (NCDOT-FHWA CE Programmatic Agreement, Appendix A) including 2, 3, 6, 7, 9, 12, 18, 21, 22 (ground disturbing), 23, 24, 25, 26, 27, 28, &/or 30; &/or Type II Actions (NCDOT-FHWA CE Programmatic Agreement, Appendix B) answer the project impact threshold questions (below) and questions 8 – 31.

impact tirestion questions (below) and questions 6 – 51.				
<ul> <li>If any question 1-7 is checked "Yes" then NCDOT certification for FHWA approval is required.</li> <li>If any question 8-31 is checked "Yes" then additional information will be required for those questions in Section G.</li> </ul>				
	DJECT IMPACT THRESHOLDS WA signature required if any of the questions 1-7 are marked "Yes".)	Yes	No	
1	Does the project require formal consultation with U.S. Fish and Wildlife Service (USFWS) or National Marine Fisheries Service (NMFS)?			
2	Does the project result in impacts subject to the conditions of the Bald and Golden Eagle Protection Act (BGEPA)?			
3	Does the project generate substantial controversy or public opposition, for any reason, following appropriate public involvement?			
4	Does the project cause disproportionately high and adverse impacts relative to low-income and/or minority populations?			
5	Does the project involve a residential or commercial displacement, or a substantial amount of right of way acquisition?			
6	Does the project require an Individual Section 4(f) approval?			
7	Does the project include adverse effects that cannot be resolved with a Memorandum of Agreement (MOA) under Section 106 of the National Historic Preservation Act (NHPA) or have an adverse effect on a National Historic Landmark (NHL)?			
If any question 8-31 is checked "Yes" then additional information will be required for those questions in Section G.				
Othe	er Considerations	Yes	No	
8	Is an Endangered Species Act (ESA) determination unresolved or is the project covered by a Programmatic Agreement under Section 7?			
9	Is the project located in anadromous fish spawning waters?			
10	Does the project impact waters classified as Outstanding Resource Water (ORW), High Quality Water (HQW), Water Supply Watershed Critical Areas, 303(d) listed impaired water bodies, buffer rules, or Submerged Aquatic Vegetation (SAV)?			
11	Does the project impact waters of the United States in any of the designated mountain trout streams?			
12	Does the project require a U.S. Army Corps of Engineers (USACE) Individual Section 404 Permit?			
13	Will the project require an easement from a Federal Energy Regulatory Commission (FERC) licensed facility?			

### Other Considerations for Type I and II Ground Disturbing Actions (continued) Yes No Does the project include a Section 106 of the National Historic Preservation Act (NHPA) effects findings other than a No Effect, including archaeological remains? No matter the effect finding, list any commitments (conditions) in Appendix I made in association with the effect finding detailed in Appendix G. (Source: xxx [report, 2024]) Does the project involve GeoEnvironmental Sites of Concerns such as gas stations, dry cleaners, landfills, etc.? (Source: xxx [report, 2024]) Does the project require work encroaching and adversely affecting a regulatory floodway or work affecting the base floodplain (100-year flood) elevations of a water course or lake, pursuant to Executive Order 11988 and 23 CFR 650 subpart A? (Source: xxx [report, 2024]) Is the project in a Coastal Area Management Act (CAMA) county and substantially affects the coastal zone and/or any Area of Environmental Concern (AEC)? (Source: xxx [report, 2024]) Does the project require a U.S. Coast Guard (USCG) permit? (Source: xxx [report, 18 Does the project involve Coastal Barrier Resources Act (CBRA) resources? 19 Does the project involve construction activities in, across, or adjacent to a 20 designated Wild and Scenic River? (Source: xxx [report, 2024]) Does the project impact federal lands (e.g., U.S. Forest Service (USFS), USFWS, etc.) or Tribal Lands? (Source: xxx [report, 2024]) Does the project involve any changes in access control to the interstate 22 (modification or construction of an interchange)? (Source: xxx [report, 2024]) Does the project have a permanent adverse effect on local traffic patterns or community cohesiveness? (Source: xxx [report, 2024]) Will maintenance of traffic or detours cause substantial disruption? (Source: xxx Is the project inconsistent with the NCDOT's federally approved 4-year STIP or NCDOT's BMIP, and where applicable, the Metropolitan Planning Organization's (MPO) Transportation Improvement Program (TIP)? (Source: xxx [report, 2024]) Does the project require the acquisition of lands under the protection of the Land and Water Conservation Fund, the Federal Aid in Fish Restoration Act, the Federal Aid in Wildlife Restoration Act, Tennessee Valley Authority (TVA), Tribal Lands, Dedicated Nature Preserves, or other unique areas or special lands that were acquired in fee or easement with public-use money and have deed restrictions or covenants on the property? (Source: xxx [report, 2024]) Does the project involve Federal Emergency Management Agency (FEMA) buyout properties under the Hazard Mitigation Grant Program (HMGP)? (Source: xxx [report, Does the project "use" Section 4(f) property, and/or result in a de minimis determination? (Source: xxx [report, 2024]) Is the project considered a Type I under the NCDOT Noise Policy? (Source: xxx Does the project impact VAD-enrolled property, or prime or important farmland soil, as defined by the Farmland Protection Policy Act (FPPA)? (Source: xxx [report, 2024])

### 2019 Table F2

Does the project include a Section 106 of the National Historic Preservation Act (NHPA) effects determination other than a No Effect, including archaeological	
remains?	
Does the project involve GeoEnvironmental Sites of Concerns such as gas stations, dry cleaners, landfills, etc.?	
Does the project require work encroaching and adversely affecting a regulatory floodway or work affecting the base floodplain (100-year flood) elevations of a water course or lake, pursuant to Executive Order 11988 and 23 CFR 650 subpart A?	
17 Is the project in a Coastal Area Management Act (CAMA) county and substantially affects the coastal zone and/or any Area of Environmental Concern (AEC)?	
18 Does the project require a U.S. Coast Guard (USCG) permit?	
Does the project involve construction activities in, across, or adjacent to a designated Wild and Scenic River present within the project area?	
20 Does the project involve Coastal Barrier Resources Act (CBRA) resources?	
Does the project impact federal lands (e.g. U.S. Forest Service (USFS), USFWS, etc.) or Tribal Lands?	
Does the project involve any changes in access control or the modification or construction of an interchange on an interstate?	
Does the project have a permanent adverse effect on local traffic patterns or community cohesiveness?	
24 Will maintenance of traffic cause substantial disruption?	
25 Is the project inconsistent with the STIP, and where applicable, the Metropolitan Planning Organization's (MPO's) Transportation Improvement Program (TIP)?	
Does the project require the acquisition of lands under the protection of Section 6(f) of the Land and Water Conservation Act, the Federal Aid in Fish Restoration Act, the Federal Aid in Wildlife Restoration Act, Tennessee Valley Authority (TVA), Tribal Lands, or other unique areas or special lands that were acquired in fee or easement with public-use money and have deed restrictions or covenants on the property?	
27 Does the project involve Federal Emergency Management Agency (FEMA) buyout properties under the Hazard Mitigation Grant Program (HMGP)?	
28 Does the project include a <i>de minimis</i> or programmatic Section 4(f)?	
29 Is the project considered a Type I under the NCDOT Noise Policy?	
30 Is there prime or important farmland soil impacted by this project as defined by the Farmland Protection Policy Act (FPPA)?	
Are there other issues that arose during the project development process that affected the project decision?	

F3. 1	Type III Actions					
Proposed improvement(s) that fit Type III Actions (NCDOT-FHWA CE Programmatic Agreement, Append C) answer questions below.						
• 1	ICDOT will certify the Categorical Exclusion for FHWA approval. f any questions are marked "Yes" then additional information will be required for those Section G.	questio	n in			
		Yes	No			
1	Does the project involve potential effects to Threatened or Endangered species listed by the US Fish and Wildlife Service (USFWS) or National Marine Fisheries Service (NMFS)? (Source: xxx [report, 2024])					
2	Does the project result in impacts subject to the conditions of the Bald and Golden Eagle Protection Act (BGEPA)? (Source: xxx [report, 2024])					
3	Does the project generate substantial controversy or public opposition regarding human or natural environment impacts, on environmental grounds, following appropriate public involvement? (Source: xxx [report, 2024])					
4	Does the project cause disproportionately high and adverse impacts relative to low-income and/or minority populations? (Source: xxx [report, 2024])					
5	Does the project involve substantial residential or commercial displacements, or substantial right of way acquisition? (Source: xxx [report, 2024])					
6	Does the project "use" Section 4(f) property, and/or result in a de minimis determination? (Source: xxx [report, 2024])					
7	Does the proposed project require a Land Use Scenario Assessment (LUSA) based on the NCDOT community studies screening tool? (Source: xxx [report, 2024])					
8	Does the project impact anadromous fish spawning waters? (Source: xxx [report, 2024])					
9	Does the project impact waters classified as Outstanding Resource Waters (ORW), High Quality Waters (HQW), Water Supply Watershed Critical Areas, 303(d)-listed impaired water bodies, buffer rules, or submerged aquatic vegetation (SAV)? (Source: xxx [report, 2024])					
10	Does the project impact waters of the United States in any of the designated mountain trout streams? (Source: xxx [report, 2024])					
11	Does the project require a US Army Corps of Engineers (USACE) Individual Section 404 Permit? (Source: xxx [report, 2024])					
12	Will the project require an easement from a Federal Energy Regulatory Commission (FERC) licensed facility? (Source: xxx [report, 2024])					
13	Does the project include Section 106 of the National Historic Preservation Act (NHPA) effects determination other than a No Effect, including archaeological remains? No matter the effects determination detailed in Appendix G, list commitments (conditions) for the determination in Appendix I. (Source: xxx [report, 2024])					
14	Does the project involve GeoEnvironmental Sites of Concerns such as gas stations, dry cleaners, landfills, etc.? (Source: xxx [report, 2024])					
15	Does the project require work encroaching and adversely effecting a regulatory floodway or work affecting the base floodplain (100-year flood) elevations of a water course or lake, pursuant to Executive Order 11988 and 23 CFR 650 subpart A? (Source: xxx [report, 2024])

 If ANY grey boxes are checked in Section F (pages 2 and 3), NCDOT certifies the Type I or Type II Categorical Exclusion for FHWA approval.

If classified as Type III Categorical Exclusion.

Date < Name of Qualified Approver, Title>

North Carolina Department of Transportation

FHWA Approved: For Projects Certified by NCDOT (above), FHWA signature required.

te for Yolonda K. Jordan, Division Administrator Federal Highway Administration Municipal project manager or designated municipal employee signature required for Type IA, Type IB, Type IIA, Type IIB and Type III CE documents

> FHWA signature required for all Type IB, Type IIB and Type III CEs

Only NCDOT signature required for Type IA and Type IIA CEs (not FHWA)

NCDOT <u>and</u> FHWA signatures required for Type IB, Type IIB, and Type III CEs

# Consult with FHWA on unusual circumstances to determine appropriate NEPA Class of Action

- Meet applicable documentation requirements (See Division 5-General Content and Format Requirements for CE documents)
- Ensure only qualified NCDOT staff and Municipal Staff to sign CE approvals and certifications (cannot delegate responsibility to third parties)
- Construction/roadway plans (and sometimes erosion control plans) are required for Division staff to review CE and supporting documents (DIST, Shotform CIA, NRTR, etc.)
- Absence of certain documents may not allow for review of the CE or CE Consultation

# CE Guidance

### Division 5 - General Content and Format Requirements for Environmental Documentation

To establish consistency in the administrative record for Categorical Exclusion (CE) and Minimum Criteria Determination Checklist (MCDC) environmental documentation, the following minimum information shall be completed and uploaded according to the following content and format requirements:

- CE/MCDC The appropriate document shall be complete with summary narratives for all applicable sections and
  appropriate signatures. The CE document should include direct references (letter/memo title and date) to
  appropriate supporting documentation as noted below. The CE/MCDC and supporting documentation should be
  saved as separating files on Sharepoint unless otherwise indicated below.
- Project Commitment / Green Sheet Project Commitments shall document items to be evaluated further
  through the project development and design process, and/or specific requirements associated with project
  construction. Project development commitments should remain part of the Green Sheet with information on
  resolution/completion noted in italics. A Green Sheet is required even if there are no project commitments for
  the project. The Green Sheet may be combined with the CE/MCDC document.
- Environmental Features Map with Study Area boundary Can be combined with the CE/MCDC document.
   Separate Environmental Features and Study Area Maps are acceptable; a Vicinity Map is also beneficial. An electronic version of the study area in either GIS format (SHP or GDB) or MicroStation (DGN) should be upload to Sharepoint when possible.
- Natural Resource Technical Report/Memo or similar environmental report A summary of jurisdictional resources and T&E biological conclusions should be included in the CE/MCDC narrative with direct reference (title/date) to the supporting NRTR/NRTM. Upload the NRTR/NRTM as a separate document on Sharepoint.
- Cultural Resource documents A summary of cultural resource effects should be included in the CE/MCDC
  narrative with direct reference (title/date) to supporting archaeology and historic architecture documentation.
   Supporting documentation should be uploaded separately on Sharepoint.
- Community Studies documentation As a minimum, a Direct and Indirect Screening Tool should be completed
  and uploaded to document human environment and community studies evaluations and considerations. The
  screening tool should include short responses to each question to document the evaluation/consideration given
  relative to the scope of the project. A Community Impact Assessment (CIA) can be uploaded in lieu of the Direct
  and Indirect Screening Tool.
- · Preliminary/conceptual plans.

Other documentation may be required for the project based on the specific project scope, surrounding context, environmental features, and potential resource/community impacts. Supporting documentation for the following should be uploaded to Sharepoint if applicable to the project or generated as part of the environmental documentation effort:

- Start of Study input from regulatory agencies, emergency services, etc.
- Public Involvement documentation
- · Section 4(f) documentation of affected properties and de minimis determinations
- Section 6(f) documentation of property acquired through LWCF
- Section 106 documentation and coordination
- Geoenvironmental assessment of known hazardous waste sites/properties
- Section 7 Consultation
- Hydraulic Analysis and FEMA compliance
- Other CAMA, Coast Guard, FERC, etc.

### 3.1 Quality Control (QC) Reviews

Quality Control reviews occur prior to submitting a deliverable to NCDOT. QC reviews consist of checking project deliverables to ensure that all applicable State and Federal regulations, standards, practices, and policies are met and all calculations, designs, reports, etc. are complete, accurate and reasonable.

### Responsible Entity for Performing Quality Control

The designer, PEF, PSF, or internal unit performing the work is responsible for performing Quality Control reviews on their project deliverables <u>before</u> they are submitted to NCDOT. When the deliverable is submitted, NCDOT presumes that all quality expectations, as documented in this manual, are followed. **NCDOT will no longer be performing QC functions and may send the product back at the submitter's expense if quality expectations are not met.**

2024 NCDOT-FHWA CE Template for Type I-C Projects

2024 NCDOT-FHWA CE Template for Type I & II Limited-Disturbance Projects

2024 NCDOT-FHWA CE Template for Type I & II Ground-Disturbing Projects

2024 NCDOT-FHWA CE Template for Type III Projects

# Direct and Indirect Screening Tool:

- Draft prepared by PEF.
- Submit draft in Microsoft Word with mapping/figures as PDF documents through EBS or direct email to Division 5 staff.
- Division 5 staff submits review to PICSViz via ETRACS.
- PICSViz provides response to Division 5 staff which is then sent back to PEF.
- A second review follows before acceptance of DIST document by PICSViz staff.

### Direct and Indirect Screening Tool

Project U-4726HO

SW-44 Carpenter-Fletcher Road Bike/Pedestrian Improvements

Document Type: 

NEPA □ SEPA

Prepared by: Suzanne Herron, P.E., CPESC and Emily Barzinpour, Dramby Environmental Consulting, Inc.

The project includes the construction of sidewalks and striped bicycle lanes along both sides of Carpenter Fletcher Road from East Woodcroft Parkway to South Alston Avenue in the City of Durham, North Carolina, along with the replacement of 3 culverts (35.915349, -78.892552; 35.915374, -78.893257; 35.915565, -78.898876). The existing Carpenter Fletcher Road is a twolane, undivided road with 12-ft lanes within a 75-ft right-of-way, and the existing speed limit is 35 mph. There are currently no bicycle lanes along the project corridor, and sidewalks only extend along portions of the corridor on either side. The improvements are generally intended to include 10-ft travel lanes with 5-ft bicycle lanes separated by a 2-ft separation buffer, 2-ft curb and gutter, and 5-ft sidewalks on both sides of Carpenter Fletcher Road. Within the project Limits-of-Disturbance (LOD), there will be crosswalks and pedestrian signals implemented at Carpenter Fletcher Road and East Woodcroft Parkway, as well as Carpenter Fletcher Road and Apex Highway. There will be ramps implemented at the intersection of Carpenter Fletcher and South Alston. The existing railroad crossing will be updated with the installation of new signals and crossarms. At this time, the Rail Division has not yet reviewed the proposed plan. This project will be funded with Locally Administered Project Program (LAPP) Funds, in coordination with the North Carolina Department of Transportation (NCDOT).

During construction at the existing railroad track, Carpenter Fletcher Road may be closed between Apex Highway and South Alston Avenue. A detour will traverse Apex Highway to NC-54 to South Alston Avenue. During culvert construction, Carpenter Fletcher Road may be closed between Barbee Road and Apex Highway. A detour will traverse Barbee Road to NC-54 to Apex Highway.

In the project area, there are single-family residential neighborhoods and development occurring at the intersections of Apex Highway and Carpenter Fletcher Road, and well as along Alston Avenue. A fire station is located on Carpenter Fletcher Road east of North Bend Drive. Access for emergency services will need to be coordinated between the contractor and the fire station to ensure their vehicles can function throughout the construction phase of this project with no obstructions.

Census data indicates a notable presence of populations meeting the criteria for Environmental Justice within the Demographic Study Area (DSA), but no minority or low-income communities were observed within the Direct Community Impact Area (DCIA) during the field visit.

# **Green Sheet Commitments**

- An appropriate Green Sheet is required for each project.
- The Green Sheet identifies <u>project-specific</u> commitments and can include tasks associated with: 1) planning; 2) design; 3) construction; and 4) post-construction.
- The NCDOT should not be identified as a responsible party for any of the commitments.
- Updates to commitments are in italics in CE Consultations (Right of Way or construction). Commitments to be deleted (due to change in policy, etc.) are struck through.

H. Project Commitments (as of December 2023)

TIP No. HL-0029

Construct third southbound lane on NC 55 from SR 1115 (Avent Ferry Road) to South
Main Street.

Wake County

Federal Aid Project No. 0055071

WBS No. 49614.1.1, 49614.2.2, 49614.3.1

There are no project commitments associated with the proposed project

### H. Project Commitments:

### NCDOT PROJECT COMMITMENTS

STIP Project No. **BL-0036**The Town of Cary proposes to extend Crabtree Creek Greenway from Fred G. Bond Metro Park (Bond Park) to High House Road.
Wake County
Federal Aid Project No. 49876.1.1
WBS Element 0503036

### FEMA Floodplains and Floodways (Town of Cary)

This project involves construction activities on or adjacent to FEMA-regulated stream(s). Therefore, the Town of Cary shall submit sealed as-built construction plans to the NCDOT Hydraulics Unit upon completion of project construction, certifying that the drainage structure(s) and roadway embankment that are located within the 100-year floodplain were built as shown in the construction plans, both horizontally and vertically.

### Floodplain Mapping Coordination (Town of Cary, NCDOT Hydraulic Design Unit

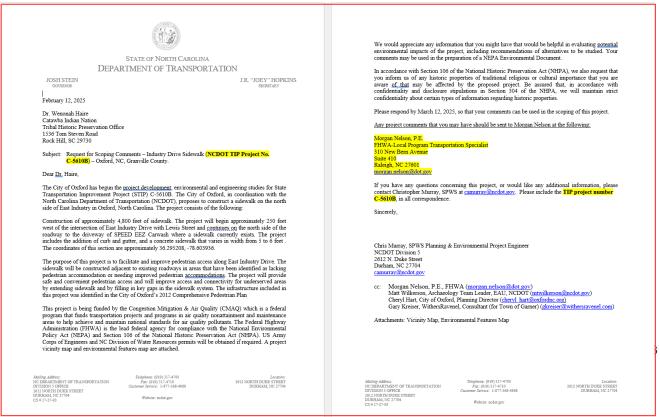

The Town of Cary and/or NCDOT Hydraulic Design Unit will coordinate with the NC Floodplain Mapping Program (FMP), to determine status of project with regard to applicability of NCDOT'S Memorandum of Agreement, or approval of a Conditional Letter of Map Revision (CLOMR) and subsequent final Letter of Map Revision (LOMR).

# **Catawba Indian Nation**

- Draft prepared by PEF following most recent template.
- Submit draft in Microsoft Word with mapping/figures as PDF documents through EBS or direct email to Division 5 staff.
- Division 5 staff submits CIN letter via US Mail.
- An email response is received by Division 5 and/or FHWA staff in about 30 days which
  is then forwarded to PEF and municipality.

- Projects with Federally Protected Aquatic Species issues require significant coordination with Division 5 staff, municipality, and competent environmental PEF with approved staff to perform aquatic surveys.
- NCDOT and/or PEF contact USFWS for guidance on the need for aquatic species surveys and Biological Conclusions.
- Municipality generally must choose between two options after consulting with the USFWS:
  - 1) Use of aquatic mussel and Carolina madtom/Neuse River waterdog Programmatic Biological Opinions (PBOs).

Or

- 2) Following a pathway to request informal consultation with the USFWS.
- Use of the PBO requires two additional significant environmental commitments.

### 'Q

# Conservation Measures for Aquatic Species

If PBOs are utilized, the project will require strict adherence to specific environmental commitments which apply to the planning, design, and construction phases of the LAP project. Two specific commitments which exceed the standard NCDOT Best Management Practices (BMPs) are noted below:

All sedimentation and erosion control measures will be appropriately maintained following NCDOT standards to ensure proper function of the measures. The NCDOT adheres to the permit conditions of General Permit NCG 010000 to Discharge Stormwater under the National Pollutant Discharge Elimination System for Construction Activities. NCDOT is required to "select, install, implement and maintain best management practices (BMPs) and control measures that minimize pollutants in the discharge to meet the requirements of this permit. "Among other conditions, the permit requires: 1) all erosion and sedimentation control measures must be inspected at least once every seven calendar days and 2) within 24 hours after any storm event of greater than 1.0 inch of rain per 24 hour period. It is understood that these requirements and implementation of other appropriate BMPs are monitored through multiple layers of oversight. At a minimum, the following personnel monitor erosion control measures:

- Contractor project manager
- NCDOT Division Environmental Officer
- NCDOT Roadside Environmental Field Operations Engineer

In the event of any visible sediment loss from any individual project site, a review of turbidity levels will be made upstream and downstream 400 meters (0.25 mile) to determine if sedimentation effects are occurring beyond 400 meters downstream. If visual observation of turbidity levels downstream appear to be elevated beyond upstream observations, the project inspector will contact the Division Environmental Officer. If determined that project-related sedimentation is occurring beyond 400 meters, the Service must be contacted immediately to discuss potential remediation.

All Environmental Commitments identified in the PBOs, including the two referenced above, should be added to the design plans for LAP projects if the PBOs are utilized.

The municipality is ultimately responsible for the LAP project and the adherence to all environmental commitments. Project inspection/oversight for LAP projects is either completed by municipal inspection staff or PEF contractor inspection staff. The municipal project manager or PEF construction staff having oversight and inspection of the project have to be specifically aware of the two bulleted items which exceed the standard NCDOT BMPs.

Note that NCDOT staff do not provide construction inspection or oversight (including inspection on erosion control issues) on LAP projects. NCDOT provides guidance and not direction.

# Right of Way Authorization

# **Funding Authorization**

Once approved by NCDOT and FHWA the LGA will be notified in the EBS Portal by email with a letter attached for the next steps to follow.

- PE Funding Authorization allows the LGA to advertise/solicit for Professional engineering services.
- ROW Funding will allow the LGA to initiate property acquisition or utility relocation.
- Construction Funding will allow the LGA to bid out the construction project.

# Typical Project Delivery Steps

# **✓** Agreement

✓------Preliminary Engineering Authorization------

Procuring Professional Services

Environmental Document (required)

Plans (required)

- Right of Way Acquisition
  - Utility Relocation

Right of Way Certification (required)

**Utility / RR Certification (required)** 

100% Plans, Contract Proposal and Estimate (PS&E) (required)

-----Construction Authorization-----

 COURTHOUSE PROVIDES EVIDENCE OF LEGAL ACCESS

# **Right of Way Certification**

- CERTIFICATION REQUEST SUBMISSION PACKAGES
- CHECKLIST WILL BE AVAILABLE ON THE NCDOT WEBSITE
- PROJECT SUBMISSION MAY TAKE 2-8 WEEKS TO BE REVIEWED

# Right of Way Certification

- All acquisition must be in conformance with the "Uniform Act," whether ROW Acquisition is being reimbursed with Federal funds or not
- Certification is done by the Division ROW Agent:

Div 4Lloyd Johnston

– Div 5Michelle Winston

– Div 6Randy D. Rogers

 Certification is provided to the LPA but the LPA is responsible for all access rights for project.

Certification

# Right of Way Acquisition & Certification

# Essential Requirements of the Uniform Act for Local Public Agencies

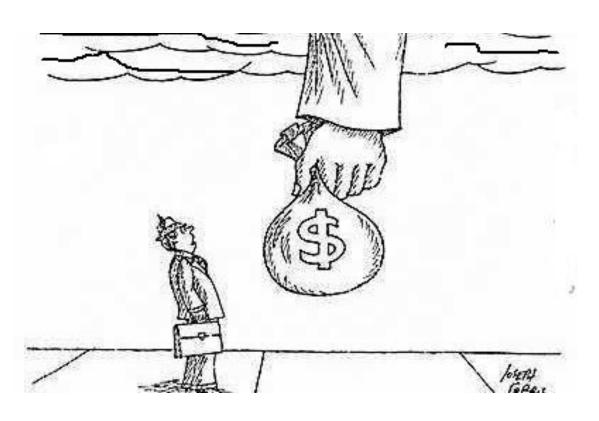

### Learning Outcomes

At the end of this lesson, you will be able to:

- Identify the rights conveyed in the 5<sup>th</sup> and 14<sup>th</sup> amendments to the U. S. Constitution
- State the purposes of the Uniform Act.
- Explain who must follow the Uniform Act
- Understand when URA Requirements must be followed

- When Using Federal-aid funds,
- there are Strings Attached.....

So, what's the catch?

The power of any sovereign government to take private property without the consent of the owner.

## U. S. Constitutional Limitations on Power of Eminent Domain

#### 5th Amendment

"...nor shall private property be taken for public use without just compensation."

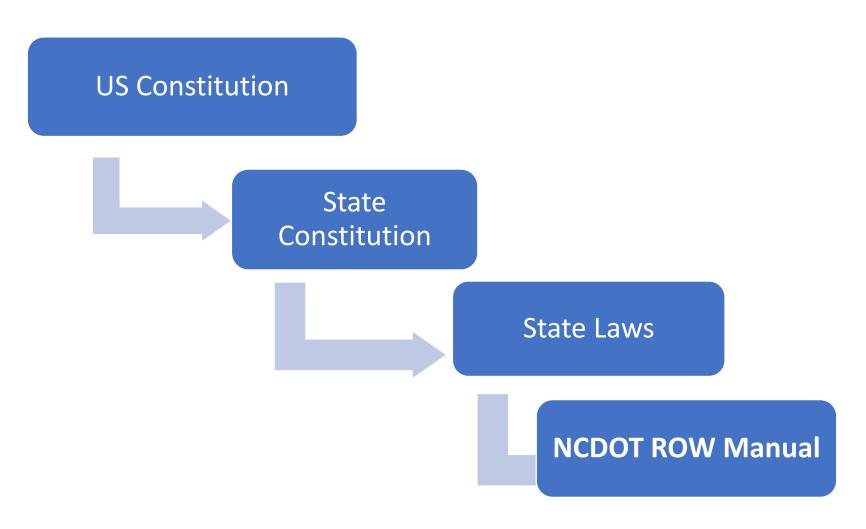

#### 14th Amendment

"...nor shall any State deprive any person of life, liberty, or property, without due process of law..."

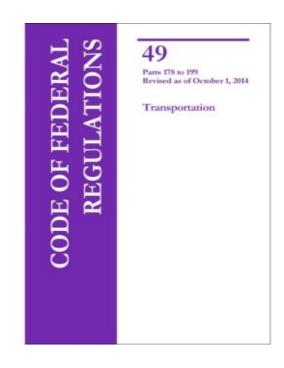

### The Legal Authority to Acquire Property

### **Uniform Act**

Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Public Law 91-646)

## Where can you find the law and the rules to carry out the law?

• The law is codified in 42 U.S.C. 4601

The regulation governing the law is found in
 49 CFR 24

http://www.ecfr.gov

### Uniform Act Twofold Purpose

- Establish <u>uniform</u> and <u>equitable</u> land acquisition policies for Federal and federally-assisted programs.
- Ensure the <u>uniform</u> and <u>equitable</u> treatment of persons displaced from their homes, businesses or farms by Federal and federally-assisted programs.

#### Who Must Follow the URA?

- Any Federal department or agency in the executive branch
- Any department or Agency of a State or a political subdivision of a State
- Any entity with the authority to acquire property by eminent domain under Federal or State law

## When Must an Agency Follow The Uniform Act?

- ✓ When <u>any</u> phase of a project is federallyfunded
- ✓ When real property is acquired
- ✓ When property owners and/or tenants are acquired and/or displaced as a direct result of a Federal Aid project

# Basic Requirements of 49 CFR Part 24 (URA)

- Appraise FMV of property to be acquired
- Agency Review and approval of appraisals
- Agency Determination of Just Compensation
- Offer no less than FMV, in writing
- Strict Adherence to required Notifications

# Basic Requirements of 49 CFR Part 24 (URA)

- Negotiate in Good Faith
- Avoid litigation if possible
- Administration of Relocation Benefits
- Determine Relocation Eligibility
- Relocate residences, businesses, others
- Provide relocation Advisory Services

### Federal/State Partnership

#### **FHWA Provides:**

- Funding
- Compliance Oversight
- Training
- Technical Assistance
- Technical Research

#### **NCDOT Provides:**

- Matching Funds
- Project Development
- Project Design
- Project Delivery
- Program Oversight

### A Quick Review

- What rights do the 5<sup>th</sup> & 14<sup>th</sup> amendments convey?
- What is the two-fold purpose of the Uniform Act?
- Who must follow the Uniform Act?
- When must an Agency must follow the URA Act?
- What do you risk if there is non-compliance?

### Environmental Issues and Permitting

#### **NORTH CAROLINA**

Department of Transportation

### Environmental Issues and Permitting

Division 5

### When is a permit or certification required?

- A Sec. 404 permit or Sec. 401 water quality certification is required when there is a discharge of fill material or excavation in Waters of the U.S./State (streams, ponds, lakes and wetlands).
- Buffer Authorization is required for activities in the regulated riparian buffers.
- This includes activities such as placement of dirt fill in wetlands, pipes in streams, clearing in buffers, etc.
- The municipality is the permit applicant and is responsible for meeting project expectations.

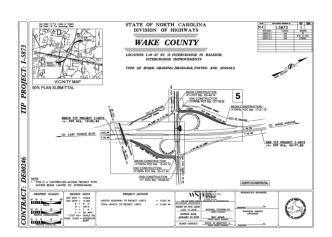

### Development of permit drawings and plans

- Complete wetland delineation, stream determination and riparian buffer determination. Submit PJD to USACE and buffer determination to NCDEQ.
- Determine project scope and complete plans.
- <u>Jurisdictional features must be properly identified on roadway and</u> erosion control plans.

#### $Juris dictional\, Determination\, Request$

This form is intended for use by anyone requesting a jurisdictional determination (JD) from the U.S. Army Corps of Engineers, Wilmington District (Corps). Please include all supporting information, as described within each category, with your request. You may submit your request via mail, electronic mail, or facsimile. Requests should be sent to the appropriate project manager of the county in which the property is located. A current list of project managers by assigned counties can be found on-line at:

http://www.saw.usace.army.mil/Missions/RegulatoryPermitProgram/Contact/CountyLocator.aspx, by calling 910-251-4633, or by contacting any of the field offices listed below. Once your request is received you will be contacted by a Corps project manager.

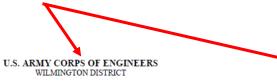

Submit e-PCN via website (possibly FTRO)

Road), south of Warrenton

Description of projects area and activity: Project No. 17BP.5.R.78; Bridge replacement impacting 0.01 acre of wetlands

Applicable Law: Section 404 (Clean Water Act, 33 USC 1344); Section 10 (Rivers and Harbors Act, 33 USC 403)

Authorization: Nationwide Permit Number: NWP 3 Maintenance; SEE ATTACHED NWP GENERAL, REGIONAL AND/OR SPECIAL CONDITIONS

Your work is authorized by the above referenced permit provided it is accomplished in strict accordance with the attached conditions and your submitted application and attached information dated <u>August 22, 2018</u>. Any violation of the attached conditions or deviation from your submitted plans may subject the permittee to a stop work order, a restoration order, a Class I administrative penalty, and/or appropriate legal action. Note: mitigation is required to replace mitigation impacted by removal of buffer from an existing NCDMS in-lieu-fee tream mitigation site.

#### SPECIAL CONDITIONS

- In order to compensate for impacts associated with this permit, mitigation shall be provided in accordance with the
  provisions outlined on the most recent version of the attached Compensatory Mitigation Responsibility Transfer Form. The
  requirements of this form, including any special conditions listed on this form, are hereby incorporated as special conditions
  of this permit authorization.
- 2. The U.S. Fish and Wildlife Service's (USFWS's) Programmatic Biological Opinion (BO) titled 'Bridge and Culvert' Replacements' Repairs' Rehabilitations in Eastern North Carolina, NCDOT Divisions 1-8)', dated June 13, 2018, contains mandatory terms and conditions to implement the reasonable and prudent measures that are associated with incidental take' that are specified in the BO. As such, this permit verification acoustians a special condition requiring compliance with all the mandatory terms and conditions (incorporated by reference into this permit verification) associated with incidental take of the BO. These terms and conditions might include an in-lieu fee payment, and if so, must be completed as soon as possible after all internal coordination allowing for this payment is complete. The Corps Project Manager must be notified by email when this in-lieu fee payment is satisfied. Reasonable and prudent measures are actions necessary to minimize the impacts of incidental take that is anticipated to result from implementing the project that the Service regarded as not likely to jeopardize the species or adversely modify designated critical labitat.
- 3. This USACE permit does not authorize you to take a threatened or endangered species, in particular, the Northern Longeared Bat (NLEB) (Myotis septentrionalis). In order to legally take a listed species, you must have separate authorization under the Endangered Species Act (ESA) (e.g., a Biological Opinion (BO) under the ESA, Section 7, with 'incidental take' provisions with which you must comply). The U.S. Fish and Wildlife Service's (USFWS's) Programmatic BO titled 'Northern Longe-ared Bat (NLEB) Programmatic Biological Opinion for North Carolina Deparament of Tanaportation (NCDOT) Activities in Eastern North Carolina (Divisions 1-8), dated March 25, 2015, and adopted on May 4, 2015, contains mandatory terms and conditions to implement the reasonable and prudent measures that are associated with incidental take; that are specified in the BO. Your authorization under this USACE permit is conditioned upon your compliance with all the mandatory terms and conditions (incorporated by reference into this permit) associated with incidental take of the BO. Failure to comply with the terms and conditions associated with incidental take of the BO. Where a take of the BO. USACE permit The USFWS is the appropriate authority to determine compliance with the items and conditions of its BO and with the ESA.

#### APPROVAL of 401 WATER QUALITY CERTIFICATION and TAR-PAMLICO BUFFER AUTHORIZATION, with ADDITIONAL CONDITIONS

Mr. Joey Hopkins, P.E., Division Engineer NCDOT, Division 5 2612 North Duke Street Durbam, NC, 27704

Dear Mr. Hopkins:

You have our approval, in accordance with the conditions listed below, for the following impacts for the purpose of replacing Bridge 140 in Franklin & Warren Counties:

Site	Mechanized Clearing (ac)	Total Wetland Impact (ac
Total	0.01	0.01

Total Wetland Impact for Project: 0.01 acre

Tar-Pamlico Riparian Buffer Impacts				
Site	Zone 1 Impact (sq ft)	Zone 1 Buffer Mitigation Required (using 3:1 ratio)	Zone 2 Impact (sq ft)	Zone 2 Buffer Mitigation Required (using 1.5:1 ratio)
Totals	3054	N/A	1382	N/A

\* n/a = Total for Site is less than 1/3 acre and 150 linear feet of impact, no mitigation required Total Buffer Impact for Project: 4436 square feet.

The project shall be constructed in accordance with your application received August 22, 2018. After reviewing your application, we have decided that these impacts are covered by General Water Quality Certification Number 4132. This certification corresponds to the Nationwide Permit 3 issued by the Corps of Engineers. This approval is also valid for the Tar-Pamilico Riparian Buffer Rules (15A NCAC 2B 0259). In addition, you should acquire any other federal, state or local permits before you proceed with your project including (but not limited to) Sediment and Erosion Control, Non-Discharge and Water Supply Watershed regulations. This approval will expire with the accompanying 404 permit.

North Carolina Department of Environmental Quality | Division of Water Resources 512 North Salisbury Street | 1617 Mail Service Center | Raleigh, North Carolina 27699-1617

# Specialized aquatic surveys may be required for specific projects

- Aquatic surveys can only be completed by staff from environmental PEFs that are trained and permitted to conduct the survey.
- This work is only completed by specialty environmental firms. Division staff can provide a list of these firms. Contact Chris Murray at <a href="mailto:camurray@ncdot.gov">camurray@ncdot.gov</a>
- In two recent instances, the "environmental PEF" did not have the necessary qualifications and the municipality had to engage with the specialty environmental firms to complete the survey and draft the Informal Concurrence request.
- The streams crossed by the projects were Crabtree Creek above Lassiter Mill Dam, Crabtree Creek near House Creek, and House Creek.
- Surveys are seasonal: Neuse River waterdog in January-March and Carolina madtom/freshwater mussels from April-October.

### Northern long-eared and Tricolored Bat

- Updated Division 5-only Biological Conclusions for NLEB and TCB.
- PEF environmental firms must follow the NCDOT Bat Habitat Assessment Standard Operating Procedure (SOP) by completing the <u>bat survey</u> and completing the <u>Bat Habitat Assessment Forms</u> for <u>LAP projects</u> that affect bridges and culverts.
- SOP and a video are available on Connect.
- Minimum dimensions for conducting a culvert survey are 5 feet in height and 60 feet in length. Bridge and structure assessments are valid for two years. Note: Updated survey could be required for a CE Consultation.
- These forms will be submitted to the NCDOT Biological Surveys Group (BSG) using the Survey 123 application or emailed to <a href="mailto:clknepp@ncdot.gov">clknepp@ncdot.gov</a> or <a href="mailto:BSG@ncdot.gov">BSG@ncdot.gov</a>

Standard Operating Procedures (SOP)
NCDOT Preliminary Bat Habitat Assessments (Structures, Caves & Mines)

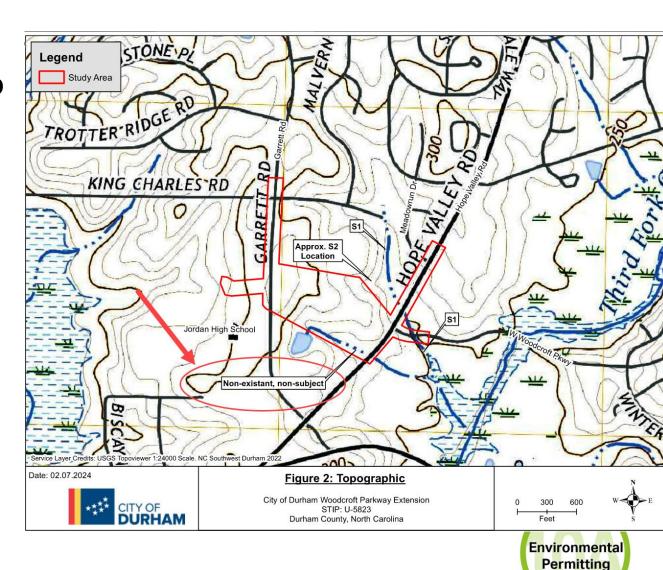

Environmental Analysis Unit – Biological Surveys Group 1598 Mail Service Center, Raleigh, NC 27699-1598

### Regulated Riparian Buffers

- Projects located in the Neuse River basin, Tar River basin and the Jordan Watershed of the Cape Fear River basin are subject to the NCDEQ DWR Riparian Buffer Rule.
- Generally, a channel that is depicted on either the Soil Survey or USGS Topo Map is <u>automatically subject to the Riparian</u> <u>Buffer Rule.</u>
- An On-Site Determination can be requested by the municipality or a PEF working on their behalf believes that the soil survey or topo map have incorrectly depicted surface waters or if the origin of a stream is in question or unclear.
- Several PEF environmental firms do not understand these regulations.

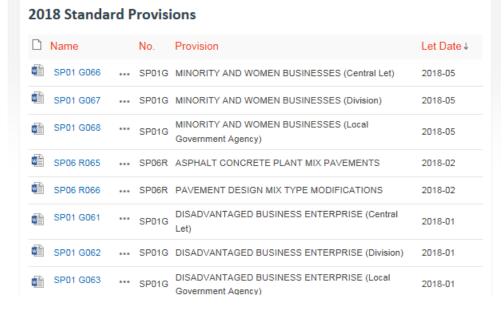

#### **Contract Proposal**

- ★ Website for Local Governments <a href="http://connect.ncdot.gov/municipalities/">http://connect.ncdot.gov/municipalities/</a>
  Pages/Bid-Proposals-for-LGA.aspx
- + Step by step process for developing bid proposals
- + Checklists
- + FAQ's
- + Links to other resources
- + First time users guide

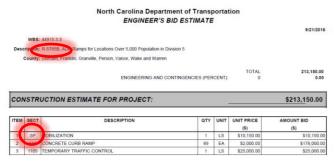

### **Contract Proposal**

- Contract Proposal
  - Use appropriate Checklist
     from LGA website
    - Check effective dates for Specs when updating proposals

1 C	HECKLIST Federally Funded Projects	
3	REQUIRED - provisions for ALL federally funded projects	
4		Link to Provision
5	NCDOT STANDARD NOTES	Link
6	ALLOWABLE CHANGES	Link
7	DISADVANTAGED BUSINESS ENTERPRISES	SP1 G63
8	LETTER OF INTENT FORM	Link
9	CERTIFICATION FOR FEDERAL AID CONTRACTS	SP1 G85
10	U.S. DEPT. OF TRANSPORTATION & CARGO ACT	SP1 G100
11 }	LOCATING EXISTING UNDERGROUND UTILITIES	SP1 G115
12	DOMESTIC STEEL	SP1 G120

- Use Project Specific Bid Form
  - Include TIP
  - Every reference to SP items, include Provision (DOT or LGA) in Proposal. Should define work, unit of measure, payment.

### **Contract Proposal**

#### Contract Proposal

- Do NOT use AIA, EJCDC or SCO Specs often causes conflicts or procedures not allowed by NCDOT.
- Can submit with blanks for letting dates and DBE goals, but must be filled in before advertising
- Division or Contract Standards will review and approve proposal depending on Engineer's Estimate (\$2.5 million)
- Proposal review/approval is good for 6 months so need to time review close to proposed letting to prevent proposal from needing multiple re-reviews.
- Contractor prequalifications

#### Specialty or Proprietary Items

- Avoid if at all possible.
- If using name brand items, must list 3 brands and also "or equivalent".
- Specialty Items MUST be approved well in advance of letting. For example, specific walls types or trash cans on a project where matching existing is desired. Approval could take several weeks!

#### **DBE Goal**

- Federal Money requires a project specific Disadvantage Business Enterprise (DBE) goal to be set by NCDOT.
- Municipalities may have their own programs with goals in place for their projects but DBE is the required program for Federally funded projects. City specs referencing other programs should be removed from bid documents.
- At bid opening, low bidder's package should be checked to see if goal has been reached. If not, a Good Faith Effort (GFE) will be required to be performed by the Municipality.

### Engineer's Estimate

- Care should be taken to prepare a thorough and accurate engineer's estimate prior to bid opening. Use NCDOT bid averages and bid tabs from previous projects as a starting point. Consideration should be given for construction schedule (compressed), night work, small quantities/production, etc.
- If low bid is over 10% above engineer's estimate, justification and/or engineer's estimate correction will be required. Rebidding may be necessary (coordinate with NCDOT).

# Construction Authorization & CEI RFLOI

### **Funding Authorization**

Once approved by NCDOT and FHWA the LGA will be notified in the EBS Portal by email with a letter attached for the next steps to follow.

- PE Funding Authorization allows the LGA to advertise/solicit for Professional engineering services.
- ROW Funding will allow the LGA to initiate property acquisition or utility relocation.
- Construction Funding will allow the LGA to bid out the construction project.

### Typical Project Delivery Steps

✓ Agreement

✓-----Preliminary Engineering Authorization------

Procuring Professional Services

Environmental Document (required)
Plans (required)

✓ ------Right of Way Authorization------

- Right of Way Acquisition
  - Utility Relocation

**Right of Way Certification (required)** 

**Utility / RR Certification (required)** 

100% Plans, Contract Proposal and Estimate (PS&E) (required)

✓ -----Construction Authorization------

- Advertise and Let Construction Contract
  - Construction & Administration

**Final Inspection (required)** 

Final Reimbursement

### RFLOI - PE & CEI

#### **Example of RFLOI**

Version: 2018.11.19.RJS

Advertised: 'MMMM dd, YYYY'

#### LOCAL GOV'T AGENCY (LGA) NAME

#### REQUEST for LETTERS of INTEREST (RFLOI)

#### CONTRACT NAME

TITLE: CONTRACT NAME

ISSUE DATE: 'MMMM dd, YYYY'
SUBMITTAL DEADLINE: 'MMMM dd, YYYY'

ISSUING AGENCY: LGA NAME

#### SYNOPSIS

#### SUBCONSULTANTS ARE / ARE NOT PERMITTED UNDER THIS CONTRACT.

This contract shall be partially reimbursed with Federal-aid funding through the North Carolina Department of Transportation (hereinafter referred to as the Department). The solicitation, selection, and negotiation of a contract shall be conducted in accordance with all Department requirements and guidelines.

The primary and/or subconsultant firm(s) (<u>if Subconsultants</u> are allowed under this RFLOI) shall be pre-qualified by the Department to perform ALL / ANY COMBINATION of the work codes listed below for the LGA NAME. Work Codes required are:

Work Code Number – Work Code Description

WORK CODES for each primary and/or subconsultant firm(s) (<u>if Subconsultants are allowed under this RFLOI) SHALL</u> be listed on the respective RS-2 FORMS (see section 'SUBMISSION ORGANIZATION AND INFORMATION REQUIREMENTS').

This RFLOI is to solicit responses (LETTERS of INTEREST, or LOIs) from qualified firms to provide professional consulting services to:

Version: 2018.11.19.RJS

#### PROPOSED CONTRACT SCOPE

PROPOSED CONTRACT TIME: PROPOSED CONTRACT TIME -- YEAR(S); and EXTENSION(S).

PROPOSED CONTRACT PAYMENT TYPE: PROPOSED CONTRACT PAYMENT TYPE -- i.e. LUMP SUM and/or COST-PLUS, etc.

#### SUBMITTAL REQUIREMENTS

All LOIs are limited to **NUMBER OF PAGES in WORDS** (**NUMBER OF PAGES in NUMBERS**) pages (RS-2 forms are not included in the page count) inclusive of the cover sheet, and shall be typed on 8-1/2" x 11" sheets, single-spaced, one-sided.

Fold out pages <u>are not</u> allowed. In order to reduce costs and to facilitate recycling; binders, dividers, tabs, etc. are prohibited. One staple in the upper left-hand corner is preferred.

LOIs containing more than NUMBER OF PAGES in WORDS (NUMBER OF PAGES in NUMBERS) pages will not be considered.

NUMBER of COPIES of LOI in WORDS (NUMBER of COPIES of LOI in NUMBERS) total copies of the LOI should be submitted.

Firms submitting LOIs are encouraged to carefully check them for conformance to the requirements stated above. If LOIs do not meet ALL of these requirements they will be disqualified. No exception will be granted.

#### SELECTION PROCESS

Following is a general description of the selection process:

- . The LGA's Selection Committee will review all qualifying LOI submittals.
- For Limited Services Contracts (On-Call type contracts), the LGA's Selection Committee MAY, at the LGA's discretion, choose any number of firms to provide the services being solicited
- <u>For Project-Specific Contracts</u> (non On-Call type contracts), the LGA's Selection Committee <u>MAY</u>, at the LGA's discretion, shortlist a minimum of three (3) firms to be interviewed. IF APPLICABLE, dates of shortlisting and dates for interviews are shown in the section <u>SUBMISSION SCHEDULE AND KEY DATES</u> at the end of this RFLOI.

1

### Bidding, Letting & Award

90-100% Plans, Specifications & Estimate

#### **Construction Procurement**

- Advertising and Letting a Construction Contract can only occur <u>after</u> Construction funds are authorized.
- Construction Advertisement should occur as soon as possible after Authorization is received.
   The clock starts ticking upon authorization.
- CEI RFLOI should be advertised quickly after construction authorization (generally professional services contracts take longer to procure) or on-call CEI services should be set up in advance. Holding up NTP on construction for CEI services in undesirable.
- Consider seasonal restrictions/workload when setting letting schedule and contract dates. Lettings late in the season generally receive less bids and less competitive bid prices.

## Concurrence in Award

## **Items Needed:**

- Bid tabs
- All forms filled out by bidders
- Letters of Intent from listed DBE subs
- Resolution from Council OR proof of delegation to Manager, etc.
- Letter from Town requesting Concurrence
  - If Delegation of award to manager etc., the letter should be signed by that position, and include a sentence stating they intend to award.

IF YOU HAVE QUESTIONS OR CONCERNS ABOUT YOUR BID RESULTS PLEASE DON'T WAIT UNTIL YOU SUBMIT CONCURRENCE PACKAGE TO DISCUSS WITH NCDOT.

# Concurrence in Award

Please be sure to return complete electronic plans and executed construction contract to NCDOT for our records and to assist with construction oversight.

Make sure to invite proper staff to Pre-Construction Conference per the letter.

The Award Concurrence turns project over to Construction staff at this time.

# Reimbursement Procedures

# Construction Reimbursement

- All reimbursement requests will be submitted through the EBS Portal
- Submit new Reimbursement Claim
- Only one claim can be submitted at a time
- A reimbursement claim must go through final approval before submitting a second claim.

### **Construction Completion Concurrence Letter**

### STATE OF NORTH CAROLINA DEPARTMENT OF TRANSPORTATION

ROY COOPER GOVERNOR JAMES H. TROGDON, III

November 18, 2019

WBS: 501488.3.1 TIP NO.: B-5556 COUNTY: Wake

DESCRIPTION: Lake Dam Road Bridge Replacement – Bridge No. 910490 over Walnut Creek

Mr. Gilles Bellot, PE Project Manager City of Raleigh PO Box 590

Raleigh, NC 27602-0590

SUBJECT: Project Concurrence

Dear Mr. Bellot:

This is to advise that the Department concurs that work on the Lake Dam Road Bridge Replacement Project, also known as TIP Project B-5556, was satisfactorily completed as of July 31, 2019.

To fully complete the project in accordance with the municipal agreement (and applicable supplement agreements), the following administrative tasks and project documentation must be completed within six (6) month as stipulated in the agreement(s):

- NCDOT Materials & Test Unit Project Certification All final quantities must be confirmed and reconciled with corresponding test reports and/or material certification documentation.
- Final Estimate Final quantities, contract time and intermediate contract times, and all final
  claims must be compiled, reconciled with the Contractor, and approved by NCDOT. The Final
  Estimate package must be submitted to NCDOT for checking with a DBE utilization/compliance
  summary.
- Final Payment to the Contractor Payment should be made in strict accordance with the approved Final Estimate and any approved claims.
- Final Payment for CEI Services (if applicable) Per the terms of the municipal agreement, reimbursement for construction contract administration is limited to no more than fifteen (15%) percent of the actual construction contract.
- Final Reimbursement Request The municipality shall submit a final request for reimbursement, clearly marked as FINAL, in accordance with the project funding outlined in the municipal agreement and applicable supplemental agreements. Upon approval and reimbursement. NCDOT will issue Form 1446B.

# Questions?

# FHWA Review & Audit

# **Review Findings**

- 1. Expenditures occurred before FHWA Authorization was signed
- 2. Projects not competitively bid
- 3. No pay records/diaries
- 4. No weigh tickets
- 5. No certified payrolls
- 6. No wage rate interviews
- 7. No material received reports
- 8. No Buy America Certification
- 9. No testing/test reports
- No DBE documentation
- 11. No NCDOT oversight
- 12. NCDOT personnel were not verifying pay quantities before approving invoices
- 13. Force Account by local agency
- 14. Municipality destroyed records before the end of the records retention date

# Items Typically Reviewed

- Advertisement/Bid documents
- Consultant Selection process
- Project Diaries
- Pay Record Books
- Concrete/Asphalt/ABC test results/frequencies
- Weight tickets
- Pay Estimates
- Supplemental Agreements
- Wage Rates/Interviews
- DBE/Subcontractors
- Grading
- Traffic Control
- Erosion Control
- Signs
- Material Certifications
- Job-site Posters
- LPA/NCDOT Oversight
- Project Final Acceptance Process

# Preliminary Project Reviews

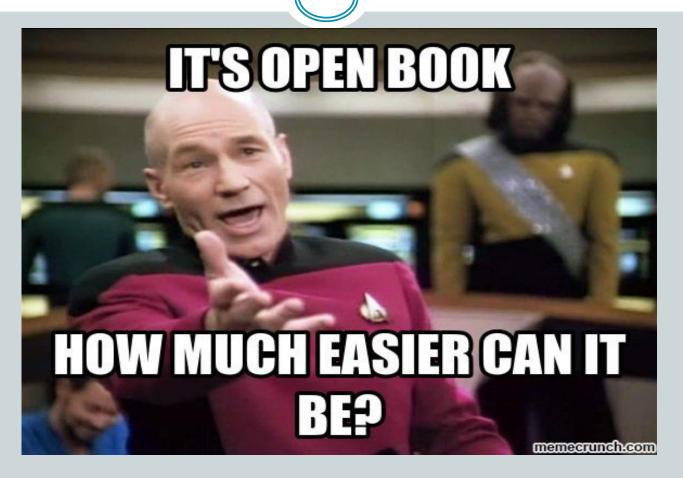

LPA Program Manager will be conducting two types of reviews:

**Pre-Construction Meetings/Reviews** – Please don't forget to invite me, the DOT and DOT-Materials and Test Unit. (It's stated on your Concurrence In Award letter.)

I want to be included in these meetings to ensure everyone is on the same page as far as expectations and requirements.

# **Records Reviews**

**Records Review Checklist** 

# Material Certification & Project Closeout

In order to achieve project final acceptance, the NCDOT (Materials & Test Unit) will need to certify your project (requested by an NCDOT-1446B form by NCDOT). Please make sure all records are available for their review.

2 CFR 200 (aka: Supercircular) - Requires that projects be closed out 15 months after the "End Date" established and documented on the FHWA Authorization.

Note to NCDOT & Municipalities: Please schedule M&T's review, the punch list walk through, final invoice, etc. as soon as you can in the final acceptance process to ensure proper (and timely) project closeout.

If timeframes are not met, the Supercircular states that ALL project funds shall be taken back.

# LAPP Project Delivery Requirements

## Project Reporting Requirements

- In addition to the requirements associated with receiving federal funding, the MPO will also require regular reporting on projects funded through the LAPP.
- Applicants are required to provide updates to the MPO outlining where the project is in the timeline toward funding obligation of all phases awarded for the project. This includes NEPA, plan and right-of-way submittals.
- More frequent communications are required if project location, schedule or funding changes are likely to occur.
- Applicant are also required to include CAMPO on key date communications toward implementation of the project, such as bidding, ground-breaking and opening ceremonies.
- References to funding in communications should include: "Federal funds were provided for this project by the Capital Area Metropolitan Planning Organization through the Federal Highway Administration."

# LAPP Additional Funding

What: Projects in the LAPP Program are permitted to submit requests to CAMPO for additional funding. If approved, this additional funding is provided at a 50/50 match with the jurisdiction.

When: Jurisdictions are encouraged to only request additional funding for their LAPP project ONE TIME per project phase. Make sure that you have STRONG cost estimates at time of additional funding request.

How: Additional funding requests are submitted to CAMPO and should provide an explanation of the cost overage, current plans, and an updated budget. Minor project adjustments can be approved administratively by the CAMPO Executive Director, larger adjustments need approval by the CAMPO Executive Board.

\*Due to the limited nature of LAPP funding, additional funding can never be guaranteed.

## **LAPP - FFY 26 Deadlines**

- January May 2025
  - Public Involvement
  - Executive Board adopts project list
  - CMAQ Applications
  - Training for LAPP selected project managers
  - TIP & STIP Amendment Process
- May September 2025
  - Municipal Agreements signed by local gov.
  - Municipal Agreements signed by NCDOT
  - FTA Request for Draft Grant # for Transit Flex Projects
  - SEPTEMBER 15, 2025: ALL AGREEMENTS MUST BE SIGNED OR FUNDS MAY BE PROGRAMMED TO ANOTHER SHOVEL READY PROJECT THIS IS A CRITICAL DEADLINE

## **LAPP - FFY 26 Deadlines**

- June 2026
  - Consideration given to reprogramming funds that are not anticipated to be obligated before October \*June Reprogramming Exercise\*
- September 15, 2026
  - Final Deadline for Funding Obligation: All unobligated funds for LAPP projects are eligible for de-programming.

What is the **first step** in the locally administered project delivery process?

- a) Right-of-Way Acquisition
- b) Agreement Execution
- c) Environmental Review
- d) Construction Authorization

What must be **approved before a locally administered project** can be advertised for bidding?

- a) Final Inspection
- b) Construction Authorization
- c) Right-of-Way Certification
- d) Environmental Documentation

What is the **Supercircular (2 CFR 200)** requirement regarding project closeout?

- a) Projects must be closed within 15 months after the "End Date"
- b) Projects can remain open indefinitely
- c) Projects must close immediately after funding authorization
- d) Project funds can be used for non-transportation expenses

What happens if a project sponsor does not invoice NCDOT within six months of project completion?

- a) The project is automatically extended
- b) The sponsor will not be eligible for reimbursement
- c) The funding is automatically increased
- d) The project sponsor can request an exemption

What happens if a federally funded project is **inactive for more than** one year?

- a) The funding remains available indefinitely
- b) FHWA's Finance Section is required to deobligate unspent funding
- c) The local government automatically receives an extension
- d) The project must be restarted from the beginning

What is the **deadline for all municipal agreements to be signed** for the FFY 26 LAPP program?

When must your final phase of funding be obligated?
