FY 2024 Wake Transit Work Plan Request Instructions

Wake Transit Sharepoint Site

For the FY 2024 Wake Transit Work Plan development process, agencies are to submit project funding request forms for the following:

- Any new operating project not already included in the FY 2024 base budget;
- Any capital project requested to be funded in FY 2024;
- Any changes in the scope of work for operating projects included in the FY 2024 base budget, regardless of funding amount; and
- Any increase in requested amount for operating projects over the FY 2024 base budget amount.

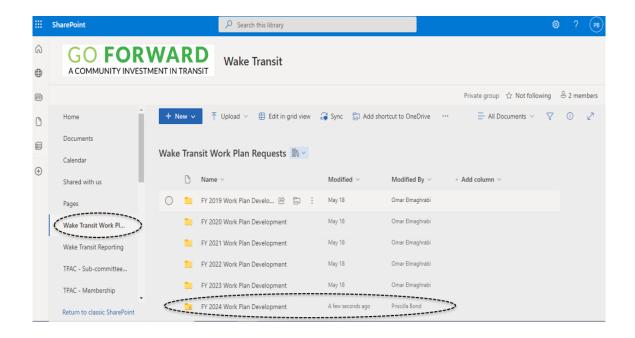

Although not essential, any changes to future-year programmed projects (FYs 2025-2030) in the adopted FY 2023 Wake Transit Work Plan should also be submitted through the Wake Transit Sharepoint site. New Community Funding Area Program project funding requests shall be submitted through the Community Funding Area Program call for projects and are exempt from these instructions.

The Wake Sharepoint Site is accessible at:

https://gotriangle.sharepoint.com/sites/WakeTransit

If you do not have access, or need help with login credentials or passwords, please email Priscilla Bond at PBond@GoTriangle.org

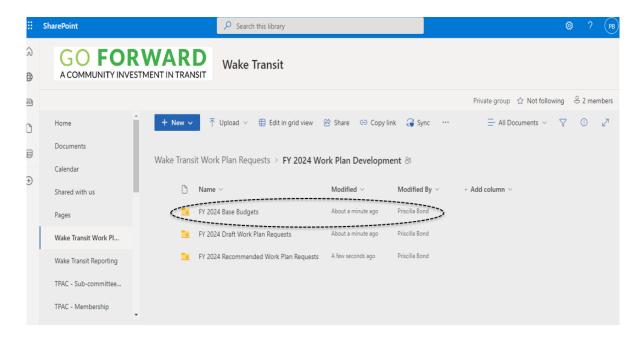

Information on the FY 2024 Wake Transit Work Plan development process is located in the FY 2024 Work Plan Development folder under Wake Transit Work Plan Requests.

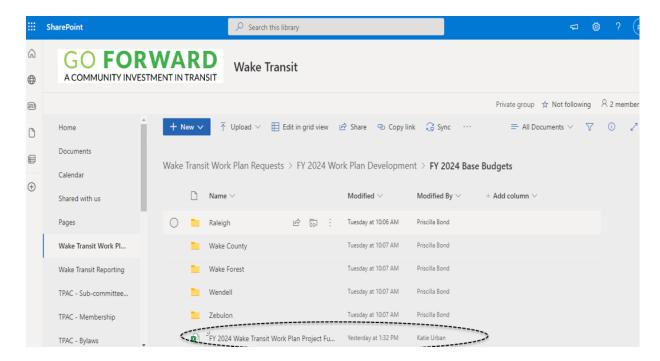

FY 2024 Base Budgets

For FY 2024, agencies will find a FY 2024 base budget in their applicable folder on Sharepoint. These FY 2024 base budgets assume the amounts reported by agencies as the recurring cost from FY 2023 operating appropriations, which include the annualized cost of FY 2023 partial year funding, if applicable, and any other full year FY 2023 recurring appropriations inflated at 2.5 percent. This amount ties to the amounts shown in the multi-year operating program in the adopted FY 2023 Wake Transit Work Plan.

Base Budgets for each agency and municipality are located here:

Detailed line-item information that accounts for FY 2024 amounts shown in the multi-year operating program are located here:

Agencies and municipalities that received Wake Transit bus operations, transit plan administration, and tax district administration appropriations for FY 2023 shall review and verify these amounts and verify that the FY 2023 scopes of work, as written in the respective project profile sheets, are still applicable. If annualized costs for bus operations, transit plan administration, or tax district administration are projected to be less than what was previously identified and what is currently calculated as part of the FY 2024 base budget, agencies are requested to enter adjustments in the base budget adjustment column located in the individual agency FY 2024 base budget spreadsheet. If annualized costs for these items are projected to cost more than what is included in the base budget, that is considered an expansion request, and a project funding request form must be submitted.

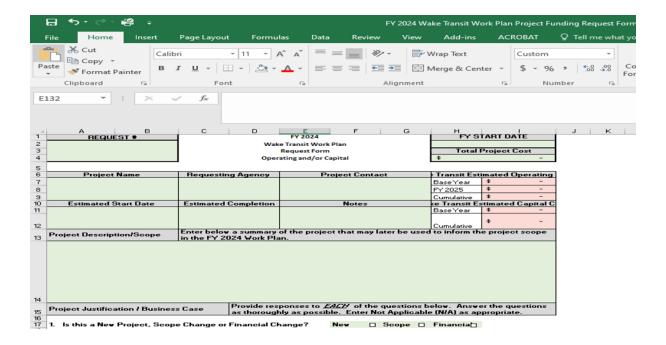

Project Funding Request Forms (Operating Expansion and Capital Requests)

Agencies are highly encouraged to take time and effort, and to coordinate internally, before submitting requests for which funds are requested from Wake Transit sources. Inadequate information submitted in support of projects greatly diminishes the ability of the TPAC's Planning & Prioritization and Budget & Finance Subcommittees to evaluate projects for which Wake Transit funds are requested. It also prevents a sufficient narrative from being developed that tells the public, partner agencies, and other stakeholders about future Wake Transit projects in and with the Draft Wake Transit Work Plan to be released for public comment.

In order for an operating expansion or capital project funding request to be submitted, it must be submitted on the FY 2024 Wake Transit Work Plan Project Funding Request Form. A form should be submitted for each operating and/or capital project requested for funding by an agency. Request forms are required for:

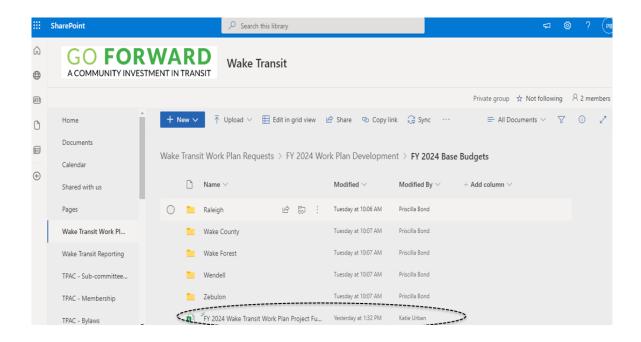

- Scope changes to existing projects;
- Financial changes that are above the amount programmed in base budgets for FY 2024 for recurring operating appropriations; or
- New operating and capital projects requesting appropriations; projects previously only shown as programmed in FY 2024 require a Wake Transit Work Plan Project Funding Request Form to be filled out to be considered for appropriation of funds and elevation from programming.

This form is in Microsoft Excel. The request form prompts project sponsors to include much of the narrative and financial information required to support the FY 2024 Work Plan Project Funding Request.

All requests are required to provide the anticipated start date in the fiscal year. Furthermore, capital project funding requests are required to be identified by phase, with anticipated start dates for each phase.

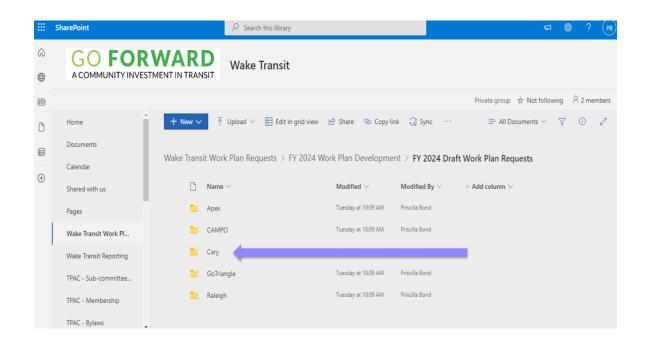

Blank project funding request forms are available on the Wake Transit Sharepoint Site:

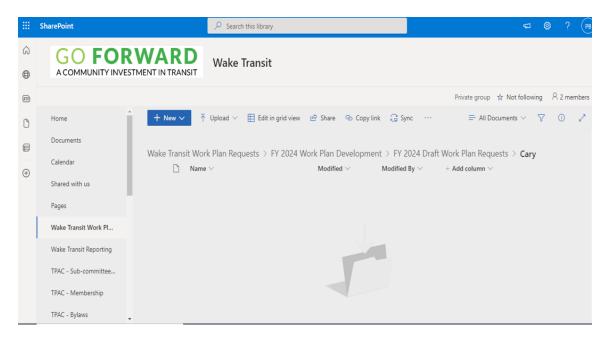

How to Submit Requests

Operating expansion and capital project funding requests to be funded in FY 2024 in full or in part by Wake Transit tax revenues are due by October 14, 2022.

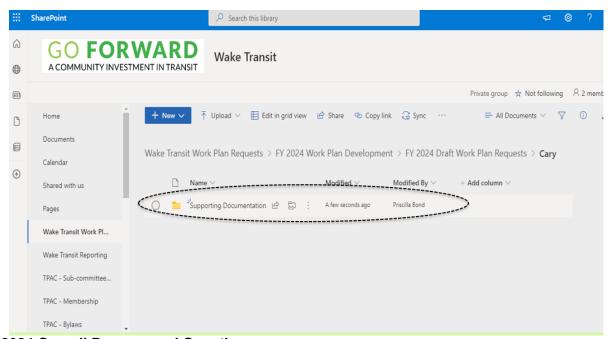

Each agency should make sure to save a copy of ALL operating expansion requests and capital project funding requests in the unique folder for its requests on the Wake Transit Sharepoint site. Project requests should be saved with a version and date so that changes can be tracked as the FY 2024 process moves forward and subsequent versions are created. Agencies are encouraged to coordinate requests internally and to have one point of contact for submitting requests in agency folders.

Supporting Documentation

In addition to filling out the required information on the Wake Transit Work Plan Project Funding Request Form, agencies are required to submit graphics or other files in their agency folders that support the requests, if applicable. For bus operating projects, agencies are requested to attach a map showing the route or routes included in the request. For capital projects, agencies should submit pictures, maps, or schematics of proposed capital projects. This information will be used in the generation of the Draft FY 2024 Wake Transit Work Plan and to communicate project characteristics during the public comment period, on the GoForward website, and for presentations to various elected boards and commissions. This information should be labeled and included in an FY 2024 Work Plan Development Supporting Documentation folder.

FY 2024 Overall Process and Questions

The Wake Transit Sharepoint Site will contain the FY 2024 kickoff presentation and the FYs 2023/2024 Work Plan Development, Amendment, and Quarterly and Annual Reporting Calendars.

Questions concerning the FY 2023 Work Plan development process should be directed to Evan Koff (evan.koff@campo-nc.us or 919-996-4177) or Anna Stokes (anna.stokes@campo-nc.us or 919-996-4410).
