Wake Transit Operating Guidelines for Lead Agencies

Guidance

The Transit Governance Interlocal Agreement (ILA), Article III, establishes the Transit Planning Advisory Committee (TPAC). Section 3.02 ('Membership, Organization, and Objectives'), item (c), number (5), directs the TPAC to identify one or more parties to serve as the Lead Agency for each of the responsibilities enumerated in Section 3.03. The summarized list of Section 3.03 responsibilities includes:

1. The Wake County Work Plan including its separate elements
2. Detailed elements of the Multi-Year Service Implementation Plan (i.e. The Wake Bus Plan and Fixed Guideway Corridor Major Investment Study)
3. A staffing model and staffing expectations plan
4. A Community Funding Area program management policy and plan
5. Templates for project and financial reports
6. Project prioritization Policy to guide the Capital improvement program and multi-year operating program
7. Designation of project sponsors responsible for each Work Plan implementation element
8. Updates to the Multi-year vision plan (the Wake Transit Plan)
9. Articulated strategies for each implementation element or agreement (i.e. The concurrence process)
10. Articulated strategy for incorporating public outreach, involvement and communications

The ILA clarifies that the TPAC shall not exclude any item from this list of responsibilities but may add to the list by its internal deliberation processes. The complete ILA and current list of Lead Agency assignments can be downloaded from the Wake Transit/TPAC Document Library at <https://www.campo-nc.us>.

Purpose

The purpose of developing a template and compiling these Lead Agency Operating Guidelines into a single document is to provide a practical resource for existing and new TPAC participants. Individuals who are new to Wake Transit and the TPAC, especially those who will be assigned a role in the execution of tasks and deliverables will find it a useful tool. Existing TPAC and governing board members can use it to bolster their general awareness of the work being done in support of the Wake Transit Plan as well as to understand how and when deliverables can be anticipated.

However, this is not a set of prescribed rules or procedures. Lead Agencies shall utilize the information documented for each responsibility/task as a guide to ensure that the work required for Wake Transit program implementation is adequate and timely for all parties involved. Opportunities for Lead Agencies to report on task planning and progress to the TPAC occurs as appropriate or required for the specific deliverables listed.

Lead Agency Definition

A Lead Agency is recommended for designation by the TPAC, which is then considered for approval by the Governing Boards; the CAMPO Executive Board and GoTriangle Board of Trustees. The Lead Agency must be a party to the Wake Transit Interlocal Governance Agreement or a TPAC voting member. Lead Agencies

are assigned with the development, coordination, and/or publication of a deliverable associated with a specific Wake Transit Plan Implementation task. The assignment empowers that agency to direct and guide the task and produce any deliverables that correspond to it.

Coordination and Partnership

Once assigned to a new Wake Transit implementation task, one of the Lead Agency's first responsibilities is to complete the Operating Guidelines template, Appendix A. In doing so, the agency is provided the opportunity to define the specific task assigned to them and clarify its understanding of the TPAC's expectations early in the planning and development process. As part of the initial effort to define the task and associated deliverables, the Lead Agency will notate on the template:

Partnership Opportunities/Coordination Needs with TPAC Subcommittees

Many, but not all, deliverables included on the task worksheets, will require some level of participation or input from one or more of the TPAC subcommittees. The Lead Agency will check the box next to each subcommittee that is anticipated to be involved in the development of or approval process for a specific deliverable. Other participating working groups, committees or organizations should be noted in the partnership notes section of the worksheet.

TPAC and Governing Board level of Participation

In addition to checking which subcommittees will be involved in accomplishing a deliverable, the Lead Agency will also select the level of involvement of the TPAC and Governing Boards. There are three options. 1) Check "Info" to note that the entity will receive information on the deliverable, but no action is required, 2) Check "Approval" to note that the deliverable will require some type of action prior to being finalized, and 3) Leave all boxes blank indicating that the deliverable can be accomplished without additional review.

Management and Oversight

CAMPO is the assigned Lead Agency for executing the administrative functions of the TPAC. Management of the Lead Agency Operating Guidelines packet falls within the purview of this assigned role. The TPAC Administrator will maintain a current copy of the Guidelines, make them available electronically through the TPAC pages of the CAMPO website, will present update information in accordance with the process defined below, will coordinate the update process and will be responsible for coordinating an appropriately scaled conflict resolution process should that effort be needed.

Major Updates

Major updates are those that involve Lead Agency Assignments. Examples of major updates include the addition or removal of a task, the initial assignment of a lead agency to a new task and a change in Lead Agency assignment from one entity to another. Major updates must be accomplished through some action of the TPAC and the Governing Boards prior to being reflected in the Lead Agency Operating Guidelines. The TPAC Administrator will present major update recommendations for consideration.

Minor Updates

Minor updates can be accomplished through an administrative process undertaken by the Lead Agencies and TPAC Administrator. They do not require TPAC action but are provided as information and made available electronically. Minor edits and updates can be recommended by the TPAC, its subcommittees, and/or

Lead Agency staff. Examples include, but are not limited to; adding, editing or removing deliverables within an existing task and changing a contact person's name or information. Minor updates are reviewed with appropriate lead agency staff and the TPAC subcommittees. Changes made will be noted in the appendix. The revised packet will be posted online as soon as the materials are finalized and the TPAC will be informed that a revised version is available. No action of the TPAC is required for minor updates.

The Update Process

The update process will be accomplished in three steps.

1. Annual Call for Updates

There will be an annual call to review the Lead Agency Operating Guidelines packet and to discuss the need for updates. The call will be initiated by the TPAC Administrator and is meant to ensure information contained within the Lead Agency Operating Guidelines remains current and that tasks are being accomplished in accordance with TPAC guidance. Updates can be proposed at any time, but only once per year will there be a formalized effort to ensure compliance and accuracy.

The call will be disseminated to the TPAC with targeted engagement of the Cabinet, which is made up of the Chairs and Vice Chairs serving the TPAC, and the Lead Agency staff listed as current Lead Agency contacts. The call will include a defined review period and deadline for submitting recommended changes, whether major or minor and will occur to align with Work Plan development activities. The TPAC Administrator will compile all comments and requests for changes and present to the cabinet for initial review and to outline next steps.

2. Subcommittee Review

The TPAC Administrator will share the compiled list of recommended updates with the Cabinet. Collectively, the group will determine which TPAC subcommittees will be engaged in the review process and for which recommended updates. Selected subcommittees will have time to review the materials and submit questions prior to a joint meeting that will be held to discuss and finalize the recommended updates.

Minor updates selected to move forward will be added to the Lead Agency Operating Guidelines without further action.

Major updates will be presented for TPAC consideration and then will follow the established Lead Agency Assignment process which requires approval of the Governing Boards. Once approved, the updates will be added to the Lead Agency Operating Guidelines.

3. Presentation of Lead Agency Operating Guidelines

The TPAC Administrator will provide a presentation to the TPAC at least once per year at the conclusion of the Call for Updates to the Lead Agency Operating Guidelines. The presentation will include an overview of all minor changes made, if any, and will report out on any major update recommendations for consideration. Updated Lead Agency Operating Guidelines will be posted to the CAMPO website, specifically on the Wake Transit Document Library web page.

Lead Agency Operating Guideline Worksheets

Task 1: Compile and Maintain the Annual Wake County Transit Work Plan

Lead Agency: CAMPO

Purpose:								
The Annual Work Plan defines the Wake Transit projects implemented each fiscal year as part of the Wake Transit Plan. In compiling all defined elements in Section 2.38 of the ILA-into a single document, a coherent vision of Wake Transit projects, including projects programmed for later years, is made available for TPAC and Governing Board consideration, and for review and comment by the public.

Task 2: Compile and Maintain the Multi-year Operating Program

Lead Agency: CAMPO

Purpose:					
The Multi-Year Operating Program (MYOP) programs future year Wake Transit operating investments and outlines the strategic phasing of projects that will use Wake Transit funding. By updating the MYOP annually, using information regarding the current health of the operating fund, discussions regarding the schedule and budgets for planned and ongoing operating investments can occur, informing the broader context of Wake Transit Plan Implementation.

Task 3: Transit Planning Advisory Committee (TPAC) Administration

Lead Agency: CAMPO

Purpose:								
Provide ongoing administrative support for TPAC proceedings including facilitation of meetings, distribution of materials, documentation of proceedings, and posting of relevant materials to the CAMPO TPAC website. Similar facilitation will occur for TPAC subcommittees and work groups. Coordinate and develop ongoing TPAC administrative policies or amendments to existing policies, as needed.

Partnership Notes:								
The TPAC Administrator will provide support to lead agency staff, as well as members of any TPAC voting member organization or stakeholder, with a need to bring information to the TPAC and/or Wake Transit governing boards on any implementation task under the TPAC's purview. The TPAC Administrator shall endeavor to meet with all TPAC voting member organizations at least twice per fiscal year to allow technical assistance support, as well as ensuring organizational needs are being met.								
Any action items from the TPAC that require governing board approval shall be presented to each respective governing board at subsequent governing board meetings following the date of TPAC action.

Task 4: Manage Development of a Staffing model and Staffing Expectation Plan (for Wake Transit Implementation)

Lead Agency: CAMPO

Purpose:					
The staffing plan guides the use of operating funds for staffing resources based on anticipated implementation timelines and overall tax district and transit plan administration and project needs for Wake Transit projects. The original staffing plan was completed and endorsed on 8/8/18 and will be used to inform ongoing conversations related to staffing requests.					
Deliverables:	Timeframe:	TPAC Process Flow:			
		Subcommittees	TPAC	CAMPO Executive Board	GoTriangle Board of Trustees

Task 5: Manage Development of a Community Funding Area Program Management Plan

Lead Agency: CAMPO

Purpose:								
The Community Funding Area Program Management Plan (CFA PMP) provides strategic guidance for the oversight of the CFA Program. The PMP was developed and adopted by the Wake Transit governing boards in November 2018, but policies regarding the CFA program may need to be revisited in later years of the program.								
Deliverables:	Timeframe:			TPAC Process Flow:				
				Subcommittees	TPAC	CAMPO Executive Board	GoTriangle Board of Trustees	
The performance of the CFA PMP's ability to guide program management will be evaluated, which may result in a reevaluation of program requirements or processes, as necessary	<input checked="" type="checkbox"/> Annual	<input type="checkbox"/> Semi-Annual	<input type="checkbox"/> Quarterly	<input type="checkbox"/> Other: Enter details	<input type="checkbox"/> B&F <input type="checkbox"/> PE&C <input type="checkbox"/> P&P <input type="checkbox"/> Process	<input checked="" type="checkbox"/> Info <input checked="" type="checkbox"/> Approval	<input checked="" type="checkbox"/> Info <input checked="" type="checkbox"/> Approval	<input checked="" type="checkbox"/> Info <input checked="" type="checkbox"/> Approval
Convene and Coordinate a CFA program Working Group, as needed	<input type="checkbox"/> Annual	<input type="checkbox"/> Semi-Annual	<input type="checkbox"/> Quarterly	<input checked="" type="checkbox"/> Other: As needed	<input type="checkbox"/> B&F <input type="checkbox"/> PE&C <input type="checkbox"/> P&P <input type="checkbox"/> Process	<input checked="" type="checkbox"/> Info <input type="checkbox"/> Approval	<input type="checkbox"/> Info <input type="checkbox"/> Approval	<input type="checkbox"/> Info <input type="checkbox"/> Approval
Partnership Notes:								
CAMPO staff will consult with sponsors for funded projects, selection committee members, and TPAC members more generally throughout the program year to ascertain program successes and failures. In later years, it is anticipated that this may develop into a more formal committee which can guide and inform improvements to the Community Funding Area Program Management Plan.

Task 6: Manage and Implement the Community Funding Area (CFA) Program

Lead Agency: CAMPO

Purpose:								
The Community Funding Area Program allows municipalities across Wake County (including RTP) to compete for planning, capital, and operating transit funding, spurring localized transit development. Program management includes ensuring that the process follows adopted policies.								
Deliverables:	Timeframe:				TPAC Process Flow:

Task 7: Provide Technical Assistance to Community Funding Area Jurisdictions

Lead Agency: CAMPO

Purpose:								
Communities eligible for participation in the Community Funding Area Program usually have limited existing transit service and may desire assistance in preparing an application for the Community Funding Area Program. The provision of technical assistance for these communities will consist of two focuses: 1.) helping eligible communities navigate the CFA application process, and 2.) helping communities conceive and develop potential projects.								
Deliverables:	Timeframe:				TPAC Process Flow:

Task 8: Develop and administer a Project Prioritization Policy (to guide development of CIP and Multi-Year Operating Program)

Lead Agency: CAMPO

Purpose:					
The Project Prioritization Policy will help guide decisions about project implementation sequencing if the funding outlook for the Wake Transit plan changes significantly. The original policy was completed and adopted by the governing boards in February 2018. The policy will also be used to prioritize any re-revisioned transit service investments recommended by Wake Transit Vision Plan updates.

Task 9: Designate Project Sponsors

Lead Agency: CAMPO

Purpose:					
Designation of project sponsors ensures that projects identified in the Work Plan are assigned to a responsible agency with appropriate technical capacity and allows projects to move forward in a coordinated manner.					
Deliverables:	Timeframe:	TPAC Process Flow:			
		Subcommittees	TPAC	CAMPO Executive Board	GoTriangle Board of Trustees
CAMPO will continue to take formal action to designate project sponsors for any major capital projects and in cases for which project sponsor designations cannot be determined through updates to the bus plan or development of annual work plans	<input checked="" type="checkbox"/> Annual <input type="checkbox"/> Semi-Annual <input type="checkbox"/> Quarterly <input checked="" type="checkbox"/> Other: As needed	<input type="checkbox"/> B&F <input type="checkbox"/> PE&C <input type="checkbox"/> P&P <input type="checkbox"/> Process	<input checked="" type="checkbox"/> Info <input checked="" type="checkbox"/> Approval	<input type="checkbox"/> Info <input checked="" type="checkbox"/> Approval	<input checked="" type="checkbox"/> Info <input type="checkbox"/> Approval
Partnership Notes:					
<p>CAMPO will coordinate with TPAC and individual project sponsors in development of the work plan, and with project sponsors for formal major capital project designations. Formal project sponsor designations for major capital projects are completed as an action of the CAMPO Executive Board, with letters inviting agencies to serve as respective project sponsors. All other project sponsor designations are institutionalized through the Wake Transit Work Plan process.</p> <p>For sponsor designation to occur through the Wake Transit Work Plan, TPAC must recommend the Work Plan, after which it must also be adopted by the CAMPO Executive Board and the GoTriangle Board of Trustees.</p> <p>For formal sponsor designation for major capital projects, TPAC recommendation is encouraged, the CAMPO Executive Board must take action, and the GoTriangle Board of Trustees will receive an update as information.</p>

Task 10: Manage Updates to the Multi-Year Vision Plan (i.e. Wake Transit Plan)

Lead Agency: CAMPO

Purpose:								
The original Wake County Transit Plan created a vision for Wake Transit investment through FY2027. As this horizon year approaches, there is a need to expand the plan horizon to guide later years of Wake Transit investment. To allow coordination with other regional transportation planning efforts, the Vision Plan update cycle will be designed to inform the development of the Metropolitan Transportation Plan, which is updated every four years.
