## WAKE COUNTY TRANSIT PLAN: IMPLEMENTATION

### **FY 2020 Recommended Wake Transit Work Plan**

The governing boards of GoTriangle, CAMPO, and the Wake County Board of Commissioners adopted the Wake County Transit Plan, including the Wake County Transit Financial Plan and the Transit Governance Interlocal Agreement, which guides the ongoing planning, funding, expansion and construction of the Plan. Included in the governance agreement is the creation of the Transit Planning Advisory Committee (TPAC), a team charged with planning and implementing the adopted Wake Transit Plan. TPAC is comprised of members from all of Wake County's municipalities, plus GoTriangle, the Capital Area Metropolitan Planning Organization (CAMPO), Wake County, North Carolina State University (NCSU) and Research Triangle Park (RTP). Per the governance agreement, the TPAC is charged with producing a recommended annual Wake Transit Work Plan, comprised of annual operating and capital budgets, an update of the financial model and assumptions guiding the Transit Plan, multi-year operating and capital programs guiding future work plans, and annual operating and capital agreements. These agreements will guide the deliverables for funds appropriated in the Wake Transit major operating and capital funds appropriated by the tax district.

Enclosed are the FY 2020 Recommended Wake Transit Operating and Capital Budgets and corresponding project sheets, as well as the multi-year operating and capital programs (included in the Appendix). The multi-year operating and capital programs serve as a planning tool that details current investments, as well as future investments that are anticipated in future Wake Transit Work Plans. Project scopes and financial details associated with the future-year projects in these programs will be refined during the annual budgeting process associated with future-year work plans. These are all components of the FY 2020 Recommended Wake Transit Work Plan. Specific operating and capital agreements will be executed upon adoption that detail the expectations, roles and responsibilities of all parties. No Wake Transit Tax Revenue shall be spent prior to execution of an operating or capital agreement.

The FY 2020 Recommended Wake Transit Work Plan balances the careful use of taxpayer dollars with thoughtful investment in transit.

The FY 2020 Recommended Work Plan is also responsive to public and agency comment received from input during the FY 2020 Work Plan outreach, as well as outreach conducted during the development of the Wake County Bus Plan and Fixed Guideways Major Investment Study. The Recommended Work Plan builds on services implemented in FY 2019 by adding funding for additional new bus services. The Work Plan also allocates funding toward project-level studies, as well as toward the next steps related to major capital investments like the planned Commuter Rail and Bus Rapid Transit projects. In addition, the FY 2020 Recommended Wake Transit Work Plan continues to build on staffing resources required to implement priorities as a part of the Wake Transit Plan.

# GO FORWARD

A COMMUNITY INVESTMENT IN TRANSIT

Revisions from the FY 2020 Draft Work Plan include:

- Increased frequency on the proposed NRX route connecting northern Raleigh with the Regional Transit Center;
- Investment by GoRaleigh in electric vehicles and associated charging infrastructure;
- Refinements to assumed staffing and other ongoing administrative expenses;
- Inclusion of assumed revenue from funding sources that are external to the Wake Transit Fund;
- Inclusion of specific Community Funding Area projects recommended for implementation in FY 2020; and
- Refinements to scope information for a variety of projects budgeted for FY 2020.

**TPAC (Transit Planning Advisory Committee)**

**(ILA)** An Interlocal Agreement was developed and signed to establish a decision-making process where all stakeholders have a voice.

**TPAC** Transit Planning Advisory Committee (**TPAC**) is the technical team charged with implementing the adopted Wake Transit Plan.

Provisions have been made for weighted voting → **TPAC** makes recommendations on how the dollars are spent

Policy decisions are sent to the governing boards simultaneously for approval

**TPAC Members**

- Wake County
- Research Triangle Park
- GoTriangle
- CAMPO
- NCSU
- Apex
- Cary
- Fuquay-Varina
- Garner
- Holly Springs
- Knightdale
- Morrisville
- Raleigh
- Rolesville
- Wake Forest
- Wendell
- Zebulon

*If no simultaneous approval, Wake County convenes conference committee.*

Per the Wake Transit Governance Agreement, TPAC recommends and then the CAMPO Executive Board and GoTriangle Board of Trustees must adopt the Work Plan for it to be in put into action. The CAMPO Executive Board will consider approval/adoption of the FY 2020 Wake Transit Work Plan at its regular meeting scheduled for June 19, 2019, after a 30-day public comment period and public hearing. The GoTriangle Board of Trustees, after a public hearing, will consider approval/adoption of the FY 2020 Wake Transit Work Plan and the FY 2020 Triangle Tax District Wake Operating Fund Ordinance and Wake Capital Fund Ordinance in May or June of 2019.

## FY 2020 TRANSIT WORK PLAN OPERATING BUDGET

### FY 2020 REVENUES

A total of \$107.3 million is budgeted in the Wake Transit Work Plan for fiscal year (FY) 2020. For this fiscal year, dollars funded by the Wake County Tax District rely on a mixture of local funding sources. The largest source of local funds is the half-cent local option sales tax. On November 8, 2016, Wake County voters approved a levy of a half-cent sales tax to fund public transportation systems. Administered by GoTriangle, the local sales tax went into effect on April 1, 2017. The FY 2020 Recommended Work Plan assumes the third full year of sales tax revenue, totaling \$92.1 million.

In addition to the half-cent sales tax, the FY 2020 Recommended Wake Transit Work Plan involves four other revenue sources.

- A \$7 county vehicle registration tax to fund transportation systems; \$6.7 million is budgeted for FY 2020.
- A \$3 dedication from the \$8 Regional Transit Authority Registration Tax; \$2.8 million is budgeted for FY 2020.
- A portion of the 5% vehicle rental tax allocated to Wake County; \$4.4 million is budgeted for FY 2020.
- Farebox revenue; \$1.3 million is budgeted for FY 2020.

### FY 2020 EXPENDITURES

The expenditures described below are divided among three categories: expanded bus operations, dollars allocated to transit planning and overall transit plan implementation, and administration of the tax district. Also included below is information on the amount allocated to reserves and the transfer to the Wake Transit Major Capital fund.

#### I. **Total Bus Operations -- \$21.2 million**

New Bus Operations: \$4.1 million

Continuation of Bus Operations Funded in previous work plans: \$17.1 million

The FY 2020 Recommended Wake Transit Work Plan includes \$21.2 million in Bus operations, of which \$17.1 million is for the continuation of funding for services implemented in the prior years, and \$4.1 million is for new operations.

The bus operations contemplated in the FY 2020 Recommended Wake Transit Work Plan are a result of an 18-month process that resulted in the Wake Bus Plan, which prioritized and programmed the implementation of the ten-year bus network. The FY 2020 Wake Transit Work Plan prioritizes the connection of additional Wake County communities and continues significant prior investments from previous fiscal years. To streamline the

passenger experience, GoRaleigh, GoTriangle and GoCary are working towards a common fare strategy.

A. Route Improvements and Expansions -- \$3.7 Million:

The FY 2020 Recommended Wake Transit Work Plan includes approximately \$2.8 million in additional funds for GoRaleigh. These funds will be used to implement three (3) routes. GoRaleigh will replace the existing GoTriangle Route KRX (Knightdale-Raleigh Express) peak service with a new route that will no longer serve downtown Raleigh directly, but will provide all day weekday service. Connections will be available at the New Hope Commons shopping center and, once completed, the East Raleigh Transit Center to multiple bus routes and frequent service. GoRaleigh will also replace the existing GoTriangle Route 102 (Garner-Raleigh) with a route alignment on Garner Road and all day weekday service. The current route will be split into two (2) routes, and major destinations for the revised routes will include White Oak Shopping Center, which will be supported by a park-and-ride facility, Forest Hills Shopping Center, Shaw University and Downtown Raleigh. Finally, GoRaleigh will begin a new route that will connect Rolesville with Triangle Town Center during weekday peak hours. Once at Triangle Town Center, passengers will have connections to multiple bus routes within the GoRaleigh and GoTriangle transit systems.

GoCary is allocated \$142,000 to implement the Holly Springs Express. The new proposed route will operate Monday-Friday during peak periods and will connect Holly Springs and Apex with service to the Cary Depot during peak commuting hours.

GoTriangle will be allocated \$464,000 for additional funding for Route 310. The new route will replace and expand upon the portion of Route 300 that runs between the Regional Transit Center and the Cary Depot and will provide service to Wake Tech's new RTP campus. GoTriangle will also replace the existing Route 201 with the North Raleigh Express (NRX). The eastern portion of Route 201, which travels on Spring Forest Road and Millbrook Road in North Raleigh, would be eliminated and instead would use I-540 all the way to Triangle Town Center.

The Town of Wake Forest will be allocated \$214,000 to enhance the existing one-way Wake Forest Loop circulator by adding service in the opposite direction.

GoWake Access is allocated an additional \$87,000 to provide 2,360 trips for elderly, disabled and rural Wake County residents currently not on a fixed bus route.

B. Continuation of Existing Service Funded in Prior Years: \$16.8 Million:

The FY 2020 Recommended Wake Transit Work Plan continues the initial investments made in the previous years of Wake Transit Plan implementation. These include new Sunday fixed-route services and mid-day frequency improvements. Included in the

continuation of existing service are multiple new routes that were implemented during the second half of FY 2019 by the City of Raleigh and Town of Cary, which include service expansion in southeastern and northwestern Raleigh and a new Weston Parkway route in Cary. Additional information regarding these services may be found in the “Project Sheets for Continuing Projects initiated in Prior Fiscal Years” section of the appendix and previous years’ Adopted Wake Transit Work Plans.

C. Other -- \$699,000:

Other funds for FY 2020 Bus Operations include \$358,500 in new projects that include operating costs associated with the Wake Transit fare strategy. An allocation of \$340,500 will be authorized for the continuation of projects from the prior year including the Youth GoPass Program. Additional information regarding these projects may be found in the “Project Sheets for Continuing Projects initiated in Prior Fiscal Years” section of the appendix and the previous years’ Adopted Wake Transit Work Plans.

**II. Transit Plan Administration -- \$3.5 Million**

New Transit Plan Administration – \$0

Continuous Transit Plan Administration -- \$3.5 Million

The FY 2020 Recommended Wake Transit Work Plan provides \$3.5 million originally budgeted in prior years for staffing, marketing, and other administration costs. This includes almost ten (9.8) full-time equivalents (FTE) at GoTriangle, three (3) FTEs at CAMPO, five (5) FTEs at GoRaleigh, and three and a half (3.5) FTEs at GoCary. Also included in this budget are dollars related to marketing, customer and community surveys, customer feedback system contracted services, property maintenance appraisals, the GoTriangle Wake satellite office expense, and other legal and administrative expenses. Additional information regarding these and other prior year recurring expenses may be found in the “Project Sheets for Continuing Projects initiated in Prior Fiscal Years” section of the appendix and previous years’ Adopted Wake Transit Work Plans.

**III. Total Tax District Administration -- \$450,000**

New Tax District Administration -- \$0

Continuous Tax District Administration -- \$450,000

Tax District Administration provides financial and regulatory oversight of the tax district. The FY 2020 Recommended Wake Transit Work Plan includes dollars budgeted in prior years for staffing, financial advisor services, and auditing services. Additional information regarding these prior year recurring expenses may be found in the “Project Sheets for

Continuing Projects initiated in Prior Fiscal Years” section of the appendix and previous years’ Adopted Wake Transit Work Plans.

**IV. Transfer to Wake Transit Major Capital Fund -- \$82.1 Million**

The Wake Transit Tax District maintains a separate major capital fund to fund capital investments, including planning and design of capital projects in the Wake Transit Plan. The FY 2020 Recommended Wake Transit Work Plan includes a transfer of \$82.1 million. Of these funds, \$19.9 million will be contributed to the established capital projects fund balance. The remaining \$62.2 million will be added to prior year funds for capital projects in FY2020.

**Project Description:**

Route 33 will replace the existing KRX Knightdale-Raleigh Express peak service. The new route will no longer serve downtown Raleigh directly, but will provide all day and weekend service. Transfers will be available at East Raleigh Transit Center, when constructed, to multiple bus routes with frequent service. All day service on weekdays begins in FY20, and weekend service is added in FY23.

Service is anticipated to begin in September 2019. Public Engagement will take place Spring 2019.

**Project Description:**

Route 310 is the new name for the portion of Route 300 between Cary and the Regional Transit Center (RTC), which is currently served on weekdays during peak hours only. This proposal adds 30-minute shuttle service from the RTC to the Wake Tech RTP campus from 6:30am-8:30pm. In January 2020, corresponding with the completion of the McCrimmon Parkway extension, the shuttle service will be replaced with Route 310 that provides hourly midday and evening service between the RTC and the Cary Depot, serving Morrisville and the Wake Tech RTP campus, as well as extending the 30-minute peak period service. Service between the RTC and the Wake Tech RTP Campus will continue to operate every 30 minutes.

**Project Description:**

In FY2019, Wake County transit providers produced an updated fare strategy. The draft recommendations of this collaborative effort include making rates uniform for trips types across agencies, and also recommended a fare capping strategy in conjunction with fare payment technology upgrades including mobile ticketing and smart cards.

The recommended fare strategy will need to be approved by each agency individually, but it is expected that there will be financial impacts for each agency as a result of these regional changes. This project places funds in reserve to hold GoRaleigh, GoTriangle, and GoCary harmless against any reduction of fare revenue as a result of implementing this uniform fare strategy. These earmarked funds will be assigned to project sponsors through a Work Plan amendment later in the fiscal year, and will be dependent on methodology developed by a Fare Working Group.

**Project Description:**

Route HSX is a new express route that will provide weekday peak commuter service between Holly Springs, Apex and Cary via Williams St/NC-55, Salem St and Old Apex Rd with three morning round trips and three afternoon round trips. The service will provide connections for commuters and others wishing to connect between the communities of southwestern Wake County and may be increased to all-day service in the future. Additional local and regional connections are available in Apex and Cary.

GoCary staff is currently working with the Towns of Apex and Holly Springs on service implementation and will engage in route-level public outreach prior to the start of service.

As part of the Community Funding Area Program, the Town of Wake Forest, in partnership with the City of Raleigh / GoRaleigh, will enhance the existing one-way Wake Forest Loop by adding transit service in the opposite direction.

The listed project cost includes funds to allow up to a 10% cost overage, as defined in the Community Funding Area Program Management Plan. In some program years, project costs may be limited by the policy described in the Program Management Plan specifying that no single Community Funding Area Project can use more than 30% of the total Community Funding Area Program annual budget.

## **FY 2020 RECOMMENDED CAPITAL TRANSIT WORK PLAN**

The FY 2020 Recommended Wake Transit Work Plan includes capital funds for planning, design and construction of major infrastructure needed for the Wake Transit Plan as well as for the acquisition of vehicles to support route improvements and expansions. Capital projects contemplated in the Wake Transit Plan in future years are dependent on several factors, including successful receipt of federal or state grant awards.

### **FY 2020 REVENUE**

The FY 2020 Recommended Wake Transit Work Plan includes a total of \$93.0 million of capital projects, \$19.9 million of funds allocated to capital fund balance for a total FY 2020 capital budget of \$112.9 million. These projects are funded by a combination of local revenues, federal funds and debt proceeds.

### **FY 2020 EXPENDITURES**

#### **I. Bus Infrastructure -- \$20.0 Million**

The Wake Transit Plan envisioned capital infrastructure to support a rapidly increasing local bus network. This infrastructure includes transfer points, transit centers, park and ride lots, bus stop improvements, bus maintenance facilities, sidewalk access and street side facilities, advanced technologies and other improvements. The Wake Bus Plan identified specific phasing of these projects to support the implementation of the ten year Wake Transit Bus Network. Funds for FY 2020 are allocated for many of these types of improvements so they will be in place to support future service when it is implemented.

#### Operational/Maintenance and Multi-Modal Facility

The FY 2020 Recommended Work Plan allocates GoCary \$1.5 million to begin the construction of a GoCary Regional Operations and Maintenance Facility located at 160 Towerview Court. An Administration/Operations Facility Assessment Study was completed in 2011 indicating that the GoCary system could realize substantial cost savings by owning its own transit facility. Prior year Work Plans allocated funds for design of this facility; by the second half of FY 2020, design will be complete and construction will begin.

GoRaleigh is allocated \$2,000,000 to continue design and land acquisition for the East Raleigh Community Transit Center. The goal of the project is to provide a safer and more convenient connection for riders throughout the bus network without having to travel downtown. Construction for this project will be programmed in future years of Wake Transit Plan implementation. GoRaleigh will also receive \$364,000 to complete a feasibility study and begin design on a new Transit Center located in Midtown Raleigh. The planned transit center is expected to be located near the North Hills shopping center and in proximity to I-440. The Recommended Work Plan will provide GoRaleigh \$560,000

to upgrade or create new enhanced transfer points at five (5) locations in Raleigh: Cross Link and Rock Quarry Road, Hillsborough Street and Gorman Street, Hillsborough Street and State Fairgrounds, MLK and Rock Quarry Road and Hillsborough Street and Jones Franklin Road. These enhanced transfer points may include larger shelters, lighting, real-time passenger information systems and amenities to enhance passenger comfort such as public Wi-Fi, benches and trash cans. Additional Bus Infrastructure project funds provided to GoRaleigh include \$2,750,000 to purchase land for a proposed newly constructed Paratransit Operations and Maintenance Facility that would accommodate both GoRaleigh Access and GoWake Access operations. Construction for this project will be programmed in future years of Wake Transit Plan implementation.

Following up from the success of the \$20 million Better Utilizing Investments to Leverage Development (BUILD) grant award, GoTriangle is allocated an additional \$7,260,000 to continue the design and begin construction of the Raleigh Union Station Bus Facility (RUSBUS). This facility will allow future bus services, including bus rapid transit, to connect directly to existing intercity rail services and future commuter rail service.

#### Bus Route Amenities and Park & Ride Facilities

The FY 2020 Recommended Wake Transit Work Plan provides funds in the amount of \$500,000 to GoRaleigh for bus stop improvements throughout the Raleigh bus network. These locations will include clear signage that will meet the Americans with Disabilities Act (ADA) standards and will have passenger amenities ranging from benches to shelters. GoTriangle will be provided with \$744,000 for bus stop improvements which will enhance passengers' safety and comfort. The bus stop improvements are expected to be distributed throughout the GoTriangle network within Wake County and can impact both existing and new stops. GoCary is allotted \$399,110 to design and construct various improvements to a number of existing bus stops throughout the town that are compliant with Americans with Disabilities Act (ADA) standards. Improvements will include the installation of concrete pads, benches, bike racks, access ramps, sidewalks and other associated amenities.

GoRaleigh and GoCary are allocated \$110,000 to design and construct two (2) park and ride facilities on leased sites. GoRaleigh will design and construct the park and ride in the Town of Rolesville, and GoCary will design and construct the park and ride in the Town of Holly Springs to accompany the new bus service that will begin in FY 2020. The Recommended Work Plan will provide GoTriangle \$333,000 to renovate and enhance several GoTriangle park and ride lots.

#### Bus Technology

A total of \$3,500,000 is budgeted in FY 2020 for Fare Collection and Mobile Ticketing technology. The funds will be utilized to allow transit providers to upgrade current fareboxes, prepare for mobile ticketing and explore other technologies that will be

compatible with future fare strategies. The upgrades in technology are expected to benefit transit riders with more seamless boarding and improved on-time performance. GoRaleigh, GoCary and GoTriangle are working towards a common fare strategy with the same per unit ride pricing for single ride, 7-day, 14-day and monthly passes. With the implementation of mobile technology, the providers will also be positioned to explore the possibility of implementing fare capping, a program that ensures riders who purchase multiple single or weekly passes in a month will not pay more than riders purchasing monthly passes.

**II. Bus Acquisition -- \$8.4 Million**

GoRaleigh is allocated \$8.4 million to replace 12 older diesel vehicles with compressed natural gas (CNG) vehicles and purchase three (3) additional 40-foot electric vehicles for new service. The City will use a mix of local and Wake Transit funds for the total vehicle purchases.

**III. Bus Rapid Transit -- \$21.0 Million**

The Wake Transit Plan includes 20 miles of Bus Rapid Transit (BRT) infrastructure. The City of Raleigh has been named project sponsor for Wake Transit Bus Rapid Transit Projects. The City anticipates submitting the first BRT corridor to the Federal Transit Administration (FTA) for Small Starts Project Development in the second half of FY 2019. The FY 2020 Recommended Wake Transit Work Plan includes \$21.0 million in funding for the City of Raleigh to continue advancing additional corridors into Project Development. Small Starts Project Development includes environmental review, alternatives review, selection of the locally preferred alternative, engineering and final design.

**IV. Commuter Rail Transit -- \$42.7 Million**

The FY 2020 Recommended Wake Transit Work Plan includes reserves of \$42.7 million for funding the Commuter Rail. The funds will be utilized to complete the environmental review process including the development of alternatives, selection of a locally preferred alternative (LPA) and adoption of the project into a fiscally constrained long range transportation plan. Dollars budgeted in FY 2020 are budgeted using estimated total track mileage of 37.4 miles between West Durham to Greenfield Parkway, where 2/3 of the miles are in Wake County and 1/3 are in Durham County. Dollars are then budgeted proportionally between the Wake Major Capital Fund and the Durham/Orange Fund. It is anticipated that funds will be appropriated to GoTriangle in the first quarter of FY 2020 after an additional pre-project development study is complete, preparing the commuter rail project for competitive federal funding.

**V. Capital Planning: \$798K**

GoTriangle is allocated \$458,333, the second of three years of funding, to implement an Enterprise Resource Planning system that will provide the ability to produce meaningful reports and assist in making key business decisions. Wake Transit will provide 25 percent of the funding for this project, with remaining funds allocated between GoTriangle regional funds and Durham/Orange funding.

Finally, the FY 2020 Recommended Wake Transit Work Plan includes \$90,000 for CAMPO to create an online dashboard for the public to display the progress of the Wake Transit Plan implementation. CAMPO will also receive \$250,000 in funding to extend the planning horizon for the Wake County Transit Vision Plan that will help guide Wake County's transit needs beyond FY 2027. The schedule for the next adoption of an update to the CAMPO (2050) Metropolitan Transportation Plan (MTP) is set for late calendar year 2021. Results from this project will be used to help inform the 2050 MTP.

**VI. Community Funding Area: \$80K**

The Towns of Fuquay-Varina, Garner, and Rolesville are allocated a total of \$80,250 to study public transportation options within each community that would complement the expansion of planned countywide bus service.

**VII. Reserve for Future Projects and Debt Service -- \$19.9 Million**

Future years of Wake Transit Plan implementation require extensive capital outlay for major infrastructure projects. The Wake Transit Plan was modeled after establishing a five (5) percent capital fund balance as an overall reserve and measure of financial health of the plan, in addition to reserves established in the operating fund. Funds of \$19.9 million in FY 2020 will be used to add to the capital projects fund balance.

# Vehicle Acquisition - TC001

New Projects

<b>Project ID</b>	TC001-E	<b>Project Category</b>	Vehicle Acquisition	<b>Project Subcategory</b>	Fixed Route Expansion Vehicles
-------------------	---------	-------------------------	---------------------	----------------------------	--------------------------------

**Project Description:**

The City of Raleigh/GoRaleigh will purchase three (3) 40-foot electric transit buses to support new bus services anticipated to begin in FY21. The city is leveraging Wake Transit dollars with additional City of Raleigh funding to support the initial upfront costs of purchasing electric buses and related charging infrastructure.

The operating cost over the lifespan of an electric bus is \$250,000 to \$400,000 less than a diesel bus, and electric buses produce no tailpipe emissions.

**Project at a Glance**

Project Title	Purchase 40-Foot Diesel, Compressed Natural Gas, or Electric Buses
Agency	City of Raleigh
FY 2020 Cost	\$1,832,962
Funding Source	Wake Transit Tax Proceeds
Start Date	July 2019

<b>Project ID</b>	TC001-F	<b>Project Category</b>	Vehicle Acquisition	<b>Project Subcategory</b>	Fixed Route Replacement Vehicles
-------------------	---------	-------------------------	---------------------	----------------------------	----------------------------------

**Project Description:**

The City of Raleigh / GoRaleigh will replace twelve (12) 40-foot diesel transit vehicles. Replacement buses will be compressed natural gas, and the City of Raleigh is contributing \$800,000 towards the cost of these replacements.

**Project at a Glance**

Project Title	Purchase 40-Foot Diesel, Compressed Natural Gas, or Electric Buses
Agency	City of Raleigh
FY 2020 Cost	\$6,531,846

# Bus Infrastructure - TC002

## New Projects

<b>Project ID</b>	TC002-I	<b>Project Category</b>	Bus Infrastructure	<b>Project Subcategory</b>	Bus Stop Improvements
-------------------	---------	-------------------------	--------------------	----------------------------	-----------------------

**Project Description:**

As new and enhanced routes come into service in FY 2020, existing bus stops will be upgraded.

Improvements include:

- Signage
- Concrete Pads
- Access Ramps
- Sidewalk Improvements
- Shelters and benches (depending on daily passenger boardings)

Wake Transit funding for this project is being used as a match for a CAMPO Locally Administered Projects Program (LAPP) project, from which the City of Raleigh is receiving \$2 million in federal funds for both systemwide bus stop improvements and bus stop improvements for new routes.

<b>Project at a Glance</b>

-------------------	---------	-------------------------	--------------------	----------------------------	----------------------------

**Project Description:**

To support the Rolesville Express Route (Route 401), scheduled to begin operations in FY20, GoRaleigh will work with the Town of Rolesville to develop a park-and-ride lot. The park and ride is expected to be a leased facility with space for 25 vehicles.

The investment will provide amenities such as:

- Signage
- Route and transit information
- Shelter
- Benches/Seating
- Lighting
- Ramps to ensure ADA accessibility
- Emergency callout boxes and security cameras
- Bike rack
- Trash and recycling bins

Project location, size, and elements will be determined during the planning and design phase.

<b>Project ID</b>	TC002-K	<b>Project Category</b>	Bus Infrastructure	<b>Project Subcategory</b>	Park-and-Ride Improvements
-------------------	---------	-------------------------	--------------------	----------------------------	----------------------------

**Project Description:**

GoTriangle will improve four (4) park-and-ride facilities. The park-and-ride at the Food Lion at Hilltop Shopping Center in Fuquay-Varina will be relocated to Wake Tech's campus, allowing Fuquay-Varina Express (FRX) passengers to access Wake Tech directly. The relocation of the park-and-ride to the Wake Tech campus is anticipated to occur by Spring/Summer of 2020. The other park-and-ride projects will be located across Wake County at other existing GoTriangle park-and-ride facilities, as determined by an ongoing feasibility study.

The investment will provide amenities such as:

- Enhanced shelter

**Project Description:**

A transit center is planned for Midtown in Raleigh, near the North Hills shopping center. This project includes a planning and feasibility study to identify an optimal location for this transit center, taking into consideration planned transit service, land use, supply, and price. This facility will support three (3) high frequency network routes and one (1) local route with 30-minute frequencies, and will create opportunities to travel east – west without going into downtown Raleigh. The planned transit center will be a staffed facility.

The second phase of work is scheduled to begin in FY21 and will involve final design and construction of the new facility.

**Project Description:**

The existing Wake Transit Vision Plan (also known as the Wake County Transit Plan) has a horizon year of FY 2027, which will need to be extended to effectively plan for continued investments in transit in Wake County.

Updating the Vision Plan in FY20 will synchronize the plan with the update cycle for the Capital Area MPO's Metropolitan Transportation Plan (MTP). By synchronizing these update cycles, the Vision Plan can better inform the MTP's longer-range vision, and it can inform the deficiency and alternatives analysis phases, as well as the fiscal constraint component, of the 2050 MTP.

**Project Description:**

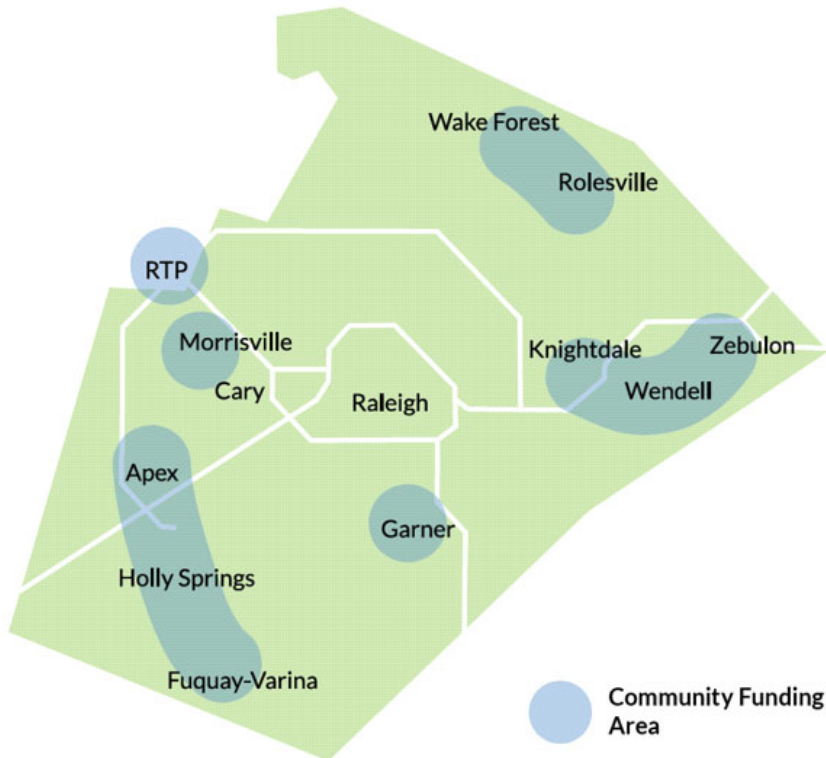

As part of the Community Funding Area Program, the Town of Fuquay-Varina, in partnership with Wake County, will fund a planning study to determine the feasibility of microtransit service.

Deliverables of the study include demographic analysis (highlighting transit-dependent populations and location); identification of optimal service areas; identification of the optimal number of vehicles for microtransit service, including type and size; determining trip frequency; and providing cost estimates for marketing, implementation, operation, and drivers.

The listed project cost includes funds to allow up to a 10% cost overage, as defined in the Community Funding Area Program Management Plan. Use of this additional 10% of project funds will require an increased match from the Town.

**Project Description:**

As part of the Community Funding Area Program, the Town of Garner will hire a consultant to further investigate transit options identified in the 2018 Garner Forward Transportation Plan and CFA Market Analysis. The study will consider a circulator loop with potential connections to routes 20/20L, future BRT/CRT service, and other potential destinations and employment centers.

Deliverables for the project include an analysis of transit needs and demand, including identification of origins, destinations, and activity centers for ridership forecasting, development of an implementation plan and service mode, identification of capital infrastructure needs, identification of potential funding options and sources, and public outreach and stakeholder coordination

<b>Project ID</b>	TC004-A	<b>Project Category</b>	Commuter Rail Transit	<b>Project Subcategory</b>	CRT Project Development
-------------------	---------	-------------------------	-----------------------	----------------------------	-------------------------

**Project Description:**

At the conclusion of the Fixed Guideway Transit Corridors Major Investment Study, a range of reasonable alternatives will be assessed and the project implementation details for the project identified. This study will determine the preferred alternatives to advance for each identified corridor, will assess the human and natural environmental impact of the alternatives, and will refine project implementation costs and design details. These studies are a Federal requirement to progress the proposed fixed guideway projects to final design and construction.

Dollars are proportionally budgeted based on total track mileage of 37.4 miles between West Durham to Greenfield Parkway; two-thirds of the estimated cost of this project is budgeted in the Wake Major Capital Fund based on this track mileage. The other third of the estimated cost of this project is contemplated via Durham County Transit funds.

In FY20, the City of Raleigh will advance the Capital, Western, and Wilmington Bus Rapid Transit (BRT) corridors identified in the Wake Transit Plan through the Federal Transit Administration (FTA) Small Start Project Development (SS PD) process.

Activities included in this phase are:

- Selection of the Locally Preferred Alternative (LPA)
- Environmental review (NEPA)
- Design (up to final)

As each BRT project is further defined within the remaining corridors, a unique project for each specific corridor will be established through a Work Plan amendment, as occurred in FY 2019 for the New Bern BRT corridor.

# **FY 2020 Recommended Wake Transit Work Plan**

WAKE COUNTY TRANSIT PLAN: IMPLEMENTATION

**FY 2020 Financial Model Assumptions Update**

## Financial Model Assumptions for FY 2020 Draft Wake Transit Work Plan

The Transit Planning Advisory Committee (TPAC) has assigned GoTriangle as the lead agency to update the Wake Transit Financial Plan and the financial model. Per the Transit Interlocal Governance Agreement, the financial model shall contain the agreed upon operating and capital policies and guidelines mutually agreed to by the TPAC. The model also includes the multi-year capital and operating costs as well as the liquidity targets and debt ratios relevant to rating agency metrics.

The process of transitioning the Wake Transit Model to GoTriangle is complete. GoTriangle, with collaboration from Wake County updated the financial model that will be used for the FY 2020 Draft Work Plan. This model will be shared with transit partners as part of preparing the FY 2020 Recommended Work Plan.

The model continues to reflect the Transit Plan's strategic approach in leveraging federal and state funds, combined with existing and new sources of local funding, to deliver projects that connect regionally, connect Wake County's communities, provide frequent urban mobility, and link local service. The plan continues to maintain the necessary liquidity measures and other metrics of fiscal health to support the goals of the Wake Transit Financial Plan. It adheres to the policies and guidelines of the Wake Transit Financial Guidelines approved by CAMPO and GoTriangle in June 2017. These policies are available at [www.waketransit.com](http://www.waketransit.com).

As detailed in the Wake County Transit Plan, the plan is fiscally constrained and is contingent on a variety of assumptions. The FY 2020 Draft Transit Work Plan reflects assumptions that will evolve as information is modified and projections are updated to reflect actual results. The FY 2020 Draft Work Plan incorporates projects in the Wake Bus

Plan as well as the assumptions of competitive grant revenue for some of the Bus Infrastructure projects. It also incorporates some updates from the Major Investment Study for Bus Rapid Transit. Additional updates will be finalized as fare revenue and revised route miles from the Wake Bus Plan are finalized. Modeling assumptions for updated spending curves for Bus Rapid Transit and additional pre-project development study for commuter rail will also impact the current assumptions.

Additionally, overall inflation assumptions, availability of local sources of revenue and growth assumptions, competition for federal funding for projects, successful access to capital markets, and regional partnerships will continue to influence the overall financial outlook of the Transit Plan. The FY 2020 Draft Wake Transit Work Plan does assume some changes in the FY 2019 and FY 2020 Sales Tax projections to accommodate a growing economy, but one that is growing at a slightly slower pace.

The FY 2020 Financial Model Assumptions Template details the assumptions made in the Wake Transit Financial Plan adopted by GoTriangle, CAMPO, and the Wake County Board of Commissioners and compares those to the assumptions used to prepare the FY 2020 Draft Wake Transit Work Plan. Operating costs and capital costs included in the model are shown in the multi-year operating and capital improvement programs contained in the FY 2020 Draft Transit Work Plan.

## WAKE COUNTY TRANSIT PLAN: IMPLEMENTATION

### **FY 2020 Recommended Wake Transit Work Plan Appendix Multi-Year Operating Program & Capital Improvement Plan**

The Wake Transit Work Plan is created on a recurring annual cycle and includes, among other components, detailed information on projects to be implemented during the upcoming fiscal year. As each project in the fiscal year is part of a broader, multi-year program of projects aligned with the goals of the Wake Transit Plan, the Transit Governance Interlocal Agreement charges the TPAC with producing a multi-year operating program and capital improvement plan for each annual Wake Transit Work Plan. These multi-year programs guide future work plans, provide a basis for tracking projects from one year to the next, allow project sponsors to appropriately plan for future implementation, and ensure that the projects undertaken each year are part of an effective and phased approach to achieving the “Four Big Moves” described in the Wake Transit Vision Plan. For services and projects that are included in the multi-year operating and capital programs for FY 2021 and beyond, each project will be reviewed prior to its incorporation into future annual work plans to ensure the project is still viable and the timing is still appropriate.

This appendix focuses on projects initiated in fiscal years other than FY 2020, including operating projects initiated in prior fiscal years that continue into FY 2020 and subsequent years, as well as capital and operating projects anticipated for future investment.

Enclosed in this appendix are investment summaries and project profiles that detail the scope of operating projects initiated in prior years that continue into FY 2020, and the draft FYs 2020-2027 multi-year operating and capital improvement programs, which include project-level details for future investments. For future-year operating projects, project profiles are provided for projects initiated between FY 2021 and FY 2024, which align with the planning horizon of short-range transit plans produced as part of the Wake Bus Plan for each fixed-route service provider in Wake County.

**Project Description:**

Wake County's Health & Human Services Department, which implements the Wake Coordinated Transportation System (WCTS) service (GoWake Access) across the county, will continue to allocate funding to serve as a local match source to expand its call center resources. This project includes the conversion of three temporary call center representatives to four full-time, permanent call center representatives to reduce the call wait time and increase service levels for clients utilizing WCTS. Wake Transit Funds are proposed to be matched with Wake County General Funds and State Funds to support the positions.

Wake County Coordinated Transportation Services (WCTS) will also continue to provide additional demand-response trips for Wake County residents who are eligible based on age and/or disability in areas of the County that are not served by existing fixed route transit services. Additionally, this project will provide demand-response trips for Wake County residents in rural areas of the county. These demand-response trips will complement the existing fixed-route system by linking rural residents currently without access to those transportation resources.

**Project Description:**

This service will operate between the Wake Tech Northern Wake Campus and Triangle Town Center, where there will be connections to multiple bus routes and frequent service. This route will operate Monday-Friday only, as the Wake Tech North campus will also be served by the new Route 25 Durant. Currently, the campus is served by Route 25L, which will be replaced by Route 25 Durant as part of the Falls of Neuse route package at the same time. However, this new Route 34 will be much shorter than 25L, and therefore is not similar to any existing service.

**Project Description:**

GoRaleigh will implement a number of improvements and new services in the Falls of Neuse area of northern Raleigh. Route 2-Falls of Neuse will function as a trunk route that will be similar to existing service, although slightly extended to the north, and with some added weekend frequency and span of service. This route will now connect with two new route branches, New Route-Durant and Route 2L-Falls of Neuse North to extend service further north and east.

New Route 2L-Falls of Neuse North will connect with the trunk service (Route 2-Falls of Neuse) and provide a link to downtown Wake Forest. New Route 25-Durant will connect with Route 2-Falls of Neuse and provide a link to the Triangle Town Center. The span of service on all days will be extended.

New Route 32-Lynn-Spring Forest will connect Crabtree Valley Mall and Triangle Town Center, which are both sites where transfers to multiple bus routes will be available. This service is not similar to any existing route, since the new route will serve segments currently covered by multiple routes, as well as some segments that are currently unserved.

			Transit Center/Transfer Point Improvements

**Project Description:**

The GoTriangle Regional Transit Center (RTC) is the primary hub for GoTriangle regional bus services connecting Wake, Durham, and Orange Counties. The first phase of this project was funded in FY 2019. The initial phase included a feasibility study to determine the best location for a new RTC, taking into consideration current and future planned routes, land use, supply, and price. The current location of the RTC on Slater Road in Durham creates the overlapping of routes leading to inefficiency. The feasibility study is evaluating location options that improve route efficiency.

The second phase of work will begin in FY 2021 to design and construct the new facility. Services anticipated to use the facility by 2027 include:

- GoTriangle 100 Raleigh-RDU-RTC
- GoTriangle 310 Cary-Morrisville-RTC
- GoTriangle 311 Apex-RTC
- 700 Durham-RTC (non-Wake Co)
- 800 Chapel Hill-RTC (non-Wake Co)

The Multi-Year CIP programs new transit connections throughout the county that will be supported by enhanced transfer points. The transfer points will include:

- Larger shelter(s)
- Lighting
- Passenger information, including real-time information systems; and
- Amenities to enhance passenger comfort (public Wi-Fi, benches, trash cans, bike racks)

Enhanced Transfer Points are assumed to include improvements to bus stop pairs (one on either side of the street, typically) to facilitate transfers between key routes in both directions, but project elements may vary by location.

**Project Description:**

The Town of Cary will develop a multimodal transportation hub in downtown Cary. The facility will connect a range of transportation services including intercity rail (Amtrak), planned commuter rail, bus rapid transit, and express and local bus service.

The new facility will include indoor passenger waiting areas and will provide passenger amenities in line with Wake Bus Plan standards.

Site features will be developed, and costs will be shared across site functions/users. The Wake Bus Plan assumes site development costs will be shared across modes and assigns 40% of projects costs to the Bus Infrastructure funding category.

Services anticipated to use the facility by FY 2027 include:

- GoCary 1 Crossroads
- GoCary 3 Harrison
- GoCary 4 High House
- GoCary 6/9B Buck Jones
- GoCary 7 Weston Parkway
- GoCary 9A Trinity

**Project Description:**

GoRaleigh will implement updates to the Transit Center at Crabtree Valley Mall in FY 2021. The Crabtree Valley Mall is a major transit hub with multiple routes converging at the transit center. The existing bus stop is adjacent to a parking deck and offers shelter from the weather. Additional investments will be needed to support bus riders transferring between routes, including additional passenger amenities and information display.

The Wake Bus Plan recommends investing in the bus stop with additional passenger amenities, information and resources.

**Project Description:**

GoRaleigh will implement updates to the Transit Center at Triangle Town Center in FY 2021. There are currently two transit stops at Triangle Town Center. The main bus stop is located at the mall entrance. Park-and-ride spaces are located near the Orvis store along the access road. As more bus services meet at Triangle Town Center, both bus stops will need additional infrastructure to support bus riders making transfers between routes.

GoRaleigh plans to relocate the transit center to a new location on the Triangle Town Center property in FY 2024. Funding is allocated in FY 2023 to examine the feasibility of relocation needs and to begin design, with additional funds programmed for FY 2024 to relocate the transit center.

			Maintenance Facility Improvements

**Project Description:**

The GoTriangle Operations and Maintenance Facility was originally constructed in 1998. In 2006, the facility was updated to add space for administrative functions. GoTriangle maintains a fleet of 97 fixed-route buses, which exceeds the capacity of site. The site does not have sufficient maintenance bays and administrative space and is unable to accommodate GoTriangle's service vans fleet (66 vehicles).

GoTriangle will plan, design and construct a new Operations and Maintenance Facility. Recommendations call for building a facility with capacity for 150 buses, large enough to accommodate GoTriangle's fleet needs, including vehicles needed for operations in Orange and Durham Counties. Facility costs will be shared across GoTriangle's service areas. The Wake County share of the facility costs is 40%.
