LEAD AND SPONSORING AGENCY

The Federal Aid Highway Act of 1962 required that transportation projects in urbanized areas of 50,000 or greater in population be based on a continuing comprehensive urban transportation planning process undertaken cooperatively by the states and local governments. In an effort to complete this transportation planning process in an effective manner, the North Carolina Capital Area Metropolitan Planning Organization was created. The current Capital Area MPO planning area boundary encompasses over 1,600 square miles and a population of more than 1,000,000.

The Capital Area MPO is tasked with providing a regional, comprehensive and cooperative planning process that serves as the basis for the expenditure of all federal transportation funds in the area. Under Section 134 of the Federal Highway Act of 1973, MPOs are required to prepare long range transportation plans for the planning area with a minimum of a 20-year planning horizon.

The Town of Cary serves as the Lead Planning Agency for the Capital Area MPO. The MPO is required to complete the transportation planning process in a continuing, cooperative and comprehensive manner.

BACKGROUND

The Capital Area MPO, in cooperation with staff from member agencies, has developed the region's Metropolitan Transportation Plan (MTP), including the Comprehensive Transportation Plan (CTP). The CTP serves as the unconstrained element of the region's Metropolitan Transportation Plan (MTP). As part of the development of the MTP, the Capital Area MPO conducted a series of local meetings to identify transportation projects for inclusion in the MTP. As a result of these meetings, several areas were identified as needing more detailed study to identify feasible and appropriate transportation solutions. This project will identify and develop an analysis of potential capacity, operational or safety improvements for locations throughout the Capital Area MPO planning area. Information developed from these studies will be used as a basis for recommendations in the MTP. The selected consultant(s) will complete this technical study in cooperation with the Capital Area MPO, NCDOT and local jurisdictions. The selected consultant(s) may also be responsible for soliciting input from appropriate governmental and non-governmental stakeholders. All efforts will be made to find design solutions that are cost effective and minimize impacts and potential associated regulatory hurdles. All plans shall comply with the guidelines of the Americans with Disabilities Act (ADA), American Association of State Highway and Transportation Officials (AASHTO) and Manual of Uniform Traffic Control Devices (MUTCD).

STUDY LOCATION AND INFORMATION

For FY 2024, one location has been identified through the Capital Area MPO's planning efforts for further analysis. The general goals of this analysis are:

- Evaluate the existing travel conditions within the study area(s) including traffic type, conditions and counts.
- Identify and evaluate the feasibility of potential transportation improvements within the study area(s).
- Identify the potential natural and human environmental impacts related to future transportation improvements within the study areas.
- Provide recommendations for future transportation solutions to meet current and future projected travel needs.
- Provide recommendations for an action plan to deliver the transportation solutions, including assignment of jurisdictional responsibility, planning level costs and potential funding sources.

Youngsville, NC, Proposed Bypass Connection and Truck Traffic Remediation

The primary focus of this study will be to evaluate and determine the best location for the extension of the proposed Youngsville Bypass between Main Street/Tarboro Road and NC 96 on the southeast side of

town. The alignment of the Bypass north of Main Street/Tarboro Road and west of Cedar Creek Road to Park Avenue on the west side of Youngsville was recently updated with the adoption of Amendment #1 to the 2050 Metropolitan Transportation Plan. There are several options for carrying the alignment south across Main Street /Tarboro Road to connect with NC 96 on the southeast side of town. Evaluation of potential alignments should consider existing and future travel patterns in the Town. Consideration should be given to reducing truck traffic on Main Street while planning for increased freight truck traffic in the vicinity and capturing impacts of the future rail service planned along the s-line corridor. Updated traffic counts (including freight truck counts and turning movements) at locations including Cedar Creek Road at Main Street; NC 96 at US 1A; and S. Cross Street at Main Street should be included. Recommendations should include proposals for the alignment of the Youngsville Bypass Extension from Main Street/Tarboro Road, and ancillary suggestions for better accommodating or diverting freight traffic through the network, particularly at the intersections referenced.

SCOPE OF SERVICES

The Scope of Services includes, but is not limited to, services necessary to comprehensively prepare the Transportation Improvement Feasibility & Impact Analyses and meet the goals stated above for one location within the Capital Area MPO region. The respondent's qualifications package must meet or exceed the tasks specified in this work statement for the study location. The respondent is asked to use their technical expertise, professional experience and creativity when developing a qualifications package designed to meet this project's specifications. As such, respondents may propose a method or collection of tasks that differs from those in the work statement if they believe that these processes will produce a more sound study.

STATEMENT OF QUALIFICATIONS, INTEREST AND EXPERIENCE

Statements of Qualifications of no more than 10 pages, plus a one-page cover letter shall be submitted with one (1) digital copy in a PDF format, labeled "Capital Area MPO Transportation Feasibility & Impact Analyses FY 2024," to the contact person listed below. Statements of Qualifications will need to include a comprehensive response describing the consultant's knowledge and experience with the tasks described in the above Scope of Services. Statements of Qualifications will need to include the following:

1. *General Experience Summary:* The summary will need to emphasize the consultant's experience with developing transportation feasibility studies and transportation impact analyses consistent with the requested Scope of Services as presented above.

2. *Project References*: References will need to include a brief project description, contact name, address, telephone number, email address, and provide evidence of similar work completed within the last five (5) years.

3. *Project Team*: Provide resumes for specific personnel that will be assigned to the project, including verification that they have experience with similar projects and will be available to complete the project within the allotted timeframe.

If Vendor ID numbers are not available, interested respondents acknowledge through their response to this RFQ that registration with the Town of Cary and NCDOT will be required prior to execution of a contract for services. Due to the short timeline associated with this project, it is highly recommended that any interested respondent become a registered vendor with the Town of Cary and NCDOT prior to submitting a response to this Request for Qualifications. Inability to obtain a vendor certification by February 2024 may disqualify a respondent from selection. Due to the time-constraints associated with the funding available for this study, priority may be given to applicants with an existing Town of Cary and NCDOT vendor numbers.

EVALUATION PROCESS

Statements of Qualifications will be evaluated according to the consultant's relevant knowledge and experience in the tasks described in the Scope of Services and thoroughness in addressing the Statements of Qualifications requirements. Evaluation criteria include, but are not limited to:

The Capital Area MPO will select a contractor after analysis of all information provided in the qualification packages. The Capital Area MPO reserves the right to select the most competitive proposals for this presentation. The Capital Area MPO will suggest the formation of such teams when such relationships appear to offer combinations of expertise or abilities not otherwise available. Respondents have the right to refuse to enter into any suggested relationship.

The Capital Area MPO may reject any or all of the submissions as it deems in its best interests. The Capital Area MPO reserves the right to waive any irregularities or technicalities when it deems the public interest will be served thereby.
