Eastern Wake Traffic Signal System Integration Study

Questions on RFP

1. The proposal asks for Town of Cary Vendor ID information. Is it required for Town of Cary or City of Raleigh?

Response: The RFP states on page 14 that vendor IDs should be included for Town of Cary and NCDOT if available.   If not available, vendor is expected to work expeditiously to achieve those registrations if they are selected. Furthermore, "Consultants (including all proposed staff from the lead and subconsultant firms) will also need to be registered and approved in NCDOT's Consultant Rate System prior to execution of a contract."
