## **Southeast Area Study Update Request for Proposals**

### **Questions and Responses**

September 16, 2021

**Q1. Could the pending MPO boundary redesignation based on the 2020 Census have any impact on the project scope, budget, or schedule?**

A1: No, while the MPO boundary may change as a result of the 2020 census, it is not anticipated to go beyond the proposed study area. The study area is anticipated to cover any expansion of the MPO. We do not anticipate any other impacts to project scope, budget, or schedule due to the pending MPO boundary redesignation based on the 2020 census.

**Q2. Is there a file size limitation for our proposals?**

A2: No. However, proposals are to be emailed in pdf format and a size manageable for email attachments.

**Q3. If we wanted to create a figure, are we able to use a 11x17 paper size? If so, will that count as one page?**

A3: No, please keep the paper size to standard 8.5x11.
