

SOUTHERN CORRIDOR RAPID BUS EXTENSION PHASE 2

The Capital Area Metropolitan Planning Organization (CAMPO) is conducting a major investment study (MIS) for a proposed Wake BRT corridor rapid bus extension.

This rapid bus extension would span between **Garner and Clayton** and would build upon the Wake BRT: Southern Corridor, which is currently under development as a separate project.

The first phase of public engagement occurred in the fall of 2021, and the second phase is now live. During this phase, CAMPO is asking for input to help evaluate the alignment alternatives.

Here is how you can stay involved:

Learn about the study updates and the alternatives being considered at:
