WAKE COUNTY TRANSIT PLAN: IMPLEMENTATION

FY 2021 Adopted/Amended Wake Transit Work Plan

Background

The governing boards of GoTriangle, CAMPO, and the Wake County Board of Commissioners adopted the Wake County Transit Plan in 2016, including the Wake County Transit Financial Plan and the Transit Governance Interlocal Agreement, which guides the overall implementation of the expanded transit network reflected in the Plan. Included in the governance agreement is the creation of the Transit Planning Advisory Committee (TPAC), a team charged with facilitating planning activities and recommending funding for implementation elements reflected in the adopted Wake Transit Plan. The TPAC is comprised of members from all of Wake County's municipalities, plus GoTriangle, the Capital Area Metropolitan Planning Organization (CAMPO), Wake County, North Carolina State University (NCSU) and Research Triangle Park (RTP). Per the governance agreement, the TPAC is charged with producing a recommended annual Wake Transit Work Plan, comprised of annual operating and capital budgets, an update of the financial model and assumptions guiding the Transit Plan, multi-year operating and capital programs guiding future work plans, and annual operating and capital agreements. These agreements will guide project deliverables that are anticipated to be completed with the support of funds appropriated in the Wake Transit major operating and capital funds.

Impacts of Coronavirus on FY 21 Adopted Wake Transit Work Plan

An unfortunate but important reality for the FY 2021 Adopted Wake Transit Work Plan was its response to uncertainty regarding revenue collections at the onset of the Coronavirus Disease 2019 (COVID-19) pandemic, which was declared by the World Health Organization in March of 2020. With social distancing and 'stay-at-home' measures to control the spread of COVID-19 imposed on residents statewide, the Wake County Transit Plan implementation partners became aware that economic activity in the county had slowed immediately and in dramatic fashion in the spring of 2020. The public transportation sales and use tax collections authorized under Article 43 of the North Carolina General Statutes comprise the greatest share of assumed revenues to fund investments reflected in the Wake Transit Plan. While it was known that sales tax collections to support transit investments would likely decrease by a significant margin at that time, uncertainty remained around how much and how long of a decline it would be, as well as the extent of its long-term economic impacts for assumed future-year collections.

Out of an abundance of caution, the FY 2021 Adopted Wake Transit Work Plan reflected only a small portion of the new projects or areas of investment reflected in the FY 2021 Draft Wake Transit Work Plan that was released for public comment by the TPAC in January of 2020. The

projects the TPAC recommended to move forward in FY 2021 at the time of the TPAC's recommendation of adoption in April of 2020 were those that were deemed time sensitive or involved time-sensitive external grant sources as part of their overall funding mechanism. It was the TPAC's goal to wait until actual data for sales tax collections for the period between March and July could be acquired and analyzed to revisit the potential for investment in the remaining projects originally proposed for implementation in the Draft FY 2021 Wake Transit Work Plan.

Following up from this posture, from the sales tax collection data that became available for the March-July timeframe, the TPAC was able to determine that the FY 2021 Adopted Wake Transit Work Plan could absorb some of the additional expenses associated with many of the projects originally included in the FY 2021 Draft Wake Transit Work Plan. Accordingly, the FY 2021 Adopted Wake Transit Work Plan was amended to include these projects in January of 2021. At that time, the TPAC also analyzed any foreseen effects on future-year investments that may be impacted by declines in revenue from the assumptions originally made in support of the FY 2021 Draft Wake Transit Work Plan and reprogrammed all future-year investments based on new revenue and expenditure assumptions. This wholesale reprogramming of future-year investments is reflected in an update to the Wake County Transit Plan, which was adopted in April of 2021.

Contents of FY 2021 Adopted/Amended Wake Transit Work Plan

The FY 2021 Adopted/Amended Wake Transit Work Plan balances the careful use of taxpayer dollars with thoughtful investment in transit. Enclosed are:

- The FY 2021 Adopted/Amended Wake Transit Operating and Capital Budgets and corresponding project sheets (project profiles); and
- Multi-year operating program and capital improvement plan (included in the Appendix), which serve as a planning tool that details future investments that are anticipated in future Wake Transit Work Plans.

Contrasting with prior annual work plans, no documentation of changes to financial model assumptions are contained within the FY 2021 Adopted/Amended Wake Transit Work Plan. As previously mentioned, new assumptions were generated to support further implementation of the Wake County Transit Plan as part of an update to the plan, which was adopted in April of 2021. These new assumptions will begin supporting future Wake Transit Work Plans beginning with the FY 2022 Work Plan.

Further, with the noted uncertainty regarding revenue collections and their long-term impacts on the ability to deliver future-year projects on previously conceived timelines, the multi-year operating program and capital improvement plan included in this FY 2021 Adopted Wake Transit Work Plan do not reflect any rebalancing of assumed expenditures with newly assumed revenues based on the economic impacts of the COVID-19 pandemic or any assumed increases

in project expenses based on further feasibility study of those projects. Instead, these multi-year programs serve as an illustrative and tentative projection of planned future-year investments as envisioned in the spring of 2020. As previously mentioned, wholesale reprogramming of future-year investments was completed in the fall/winter of 2020 and 2021 and is reflected in an update to the Wake County Transit Plan that was adopted in April of 2021. An updated multi-year operating program and capital improvement plan that reflects these changes will be included in future-year Wake Transit Work Plans. Project scopes and financial details associated with the future-year projects will continue to be refined during the annual budgeting process associated with future-year Work Plans or through Work Plan amendments.

Specific operating and capital funding agreements will be executed upon adoption or amendment of the FY 2021 Wake Transit Work Plan that detail the expectations, roles, and responsibilities of all parties. No Wake Transit Tax Revenue shall be spent prior to execution of an operating or capital agreement.

Public Outreach on the FY 2021 Wake Transit Work Plan

The FY 2021 Draft Wake Transit Work Plan was released by the TPAC for public comment in late January of 2020, with a public comment period remaining open through the end of February. The TPAC collected a number of influential comments to inform the trajectory of investment in the annual work plan during this time. Given the uncertainty surrounding revenue collections during the COVID-19 pandemic, only a small portion of the projects or areas of investment portrayed in the FY 2021 Draft Wake Transit Work Plan that was released for the public comment period could be included in the adopted work plan. Public input received during the comment period was used in a limited way to determine which projects to move forward for immediate investment versus those that were put on hold for further consideration of investment in the second quarter of FY 2021. When the projects put on hold were revisited in the second quarter of the fiscal year, the TPAC continued to consider the valuable input received during the public comment period for the Draft FY 2021 Wake Transit Work Plan, as well as from a comment period in the fall of 2020 that was specifically targeted toward consideration of the projects put on hold.

TPAC (Transit Planning Advisory Committee)

Per the Wake Transit Governance Agreement, the TPAC recommends and then the CAMPO Executive Board and GoTriangle Board of Trustees must adopt the Work Plan for it to be in put into action. The CAMPO Executive Board adopted the FY 2021 Wake Transit Work Plan at its regular meeting on June 17, 2020, after a 30-day public comment period and public hearing. The GoTriangle Board of Trustees adopted the FY 2021 Wake Transit Work Plan and the FY 2021 Triangle Tax District Wake Operating Fund Ordinance and Wake Capital Fund Ordinance, after a public hearing, at its regular meeting on June 24, 2020. The CAMPO Executive Board and GoTriangle Board of Trustees further approved amendments to the adopted Work Plan in November of 2020, January of 2021, and May of 2021.

ADOPTED/AMENDED FY 2021 WAKE TRANSIT WORK PLAN OPERATING BUDGET

FY 2021 REVENUES

As mentioned above, due to impacts from the COVID-19 pandemic, the FY 2021 Adopted Wake Transit Work Plan focused predominantly on the appropriate funding allocation to continue operations from previously adopted work plans. A total of \$53.1 million is budgeted in the Adopted Wake Transit Work Plan for fiscal year (FY) 2021. For this fiscal year, dollars budgeted by the Wake County Tax District rely on a mixture of local and federal funding sources. The largest source of local funds is the half-cent local option sales tax. On November 8, 2016, Wake County voters approved a levy of a half-cent sales tax to fund public transportation systems. Administered by GoTriangle, the local sales tax went into effect on April 1, 2017.

The FY 2021 Draft Wake Transit Work Plan released for public comment in January of 2020 originally assumed and budgeted \$99.3 million in total sales tax collections for FY 2021, which represented the anticipated impact of the fourth full year of sales tax collections under normal conditions. Under ordinary circumstances, revenue assumptions for the ensuing fiscal year are informed by forecasting tools that are based on historical performance and the economic outlook for the immediate future. Due to the uncertainty of the COVID-19 pandemic on sales tax collections and the local economy, the FY 2021 Adopted Wake Transit Work Plan prudently assumes and budgets only the amount of local option sales tax sufficient enough to fund recurring operating projects initiated in prior years, new projects that are time-sensitive or that involve time-sensitive external grant funding, Community Funding Area projects, and to cover the amount of funds needed to meet necessary capital reserves. The FY 2021 Adopted Wake Transit Work Plan assumes a sales tax revenue contribution of \$39.1 million, which represents approximately 39 percent of the sales tax revenue originally assumed in the FY 2021 Draft Wake Transit Work Plan.

As mentioned in the introduction to the Adopted Work Plan, most projects originally included for funding in FY 2021 were put on hold until sales tax collection data for the period most directly impacted by the COVID-19 pandemic (i.e., March – July of 2020) became available. The TPAC revisited the potential for investment in the remaining projects originally proposed for implementation in the fall of 2020, and through this reevaluation, the TPAC was able to determine that the FY 2021 Adopted Wake Transit Work Plan could absorb some of the additional expenses associated with many of the projects originally included in the FY 2021 Draft Wake Transit Work Plan. Accordingly, a number of project funding allocations were subsequently included by amendment to the FY 2021 Adopted Wake Transit Work Plan in January of 2021.

In addition to the revenues discussed above, the FY 2021 Adopted Wake Transit Work Plan includes four other revenue sources:

- A \$7 county vehicle registration tax to fund public transportation systems; \$7.1 million is budgeted for FY 2021.

- A \$3 Regional Public Transportation Authority vehicle registration tax; \$3.0 million is budgeted for FY 2021.
- A portion of a 5% vehicle rental tax allocated to Wake County; \$3.5 million is budgeted for FY 2021.
- Other Tax District and Farebox revenues; \$407,480 is budgeted for FY 2021.

FY 2021 EXPENDITURES

The expenditures described below are divided among three categories: expanded bus operations, dollars allocated to transit plan implementation, and administration of the Tax District. Also included below is information on the amount allocated to reserves and the transfer to the Wake Transit Major Capital Fund.

I. Total Bus Operations -- \$19.6 Million

New Bus Operations: \$1.9 million

Continuation of Bus Operations Funded in previous work plans: \$17.7 million

The FY 2021 Adopted Wake Transit Work Plan includes \$19.6 million in Bus operations, of which \$17.7 million is for the continuation of funding for services implemented in prior years, and \$1.9 million is for new operations.

Bus operations contemplated in the FY 2021 Adopted Wake Transit Work Plan will continue the implementation of the Wake Bus Plan. This plan programmed the strategic phasing of bus services to an FY 2027 buildout of the bus network as envisioned in the Wake County Transit Plan. The FY 2021 Wake Transit Work Plan includes increased frequency for Route 21: Caraleigh to meet the transportation demand of riders accessing the new Oak City Cares Facility, funds for the Town of Apex to implement GoApex Route 1 under the Community Funding Area Program, the expansion of service span and increase in frequency on GoTriangle Route 305 and on Glenwood Avenue (GoRaleigh), and funds for the Town of Morrisville to begin operation of a community-wide, node-based smart shuttle. Funding is also included for the continuation of the Youth GoPass initiative that allows teens aged 13 to 18 to ride regional transit fare free.

A. Route Improvements and Expansions -- \$1.9 million

The FY 2021 Adopted Wake Transit Work Plan includes \$868,000 in additional funds for GoRaleigh. These funds will be used to increase frequency and expand span on Route 21: Caraleigh and expand service span and increase frequency of service on Glenwood Avenue. Funds of \$115,000 will be allocated through the Community Funding Area Program to the Town of Apex to implement the GoApex Route 1, and an additional \$33,000 will be allocated to the Town of Morrisville to begin operation of a node-based smart shuttle. GoTriangle will receive approximately \$858,000 to expand span of service and increase frequency of service on Route 305.

B. Continuation of Existing Bus Service Funded in Prior Years: \$16.8 Million

The FY 2021 Adopted Wake Transit Work Plan continues the initial investments made in the previous years of Wake Transit Plan implementation. These include new Sunday fixed-route services and midday frequency improvements. Included in the continuation of existing services are multiple new routes that were implemented under previous Wake Transit Work Plans by the City of Raleigh, Town of Cary, Town of Wake Forest and GoTriangle. After further review of the previously funded Holly Springs Express (HSX) route, the FY 2021 Adopted Work Plan includes a modified strategy to serve the Towns of Holly Springs and Apex with the creation of the new Apex-Cary express and slight adjustments to the GoTriangle Route 305. Additional information regarding the continuation of existing services may be found in the “Project Sheets for Continuing Projects Initiated in Prior Fiscal Years” section of the appendix and previous years’ Adopted Wake Transit Work Plans.

C. Other -- \$0.9 Million

Other expenditures for FY 2021 Bus Operations include a continuation of costs associated with the Wake Transit fare strategy. An allocation of \$270,800 is included for the fare strategy initiatives associated with mobile ticketing and fare capping, and an allocation of \$287,900 is included for the continuation of the Youth GoPass Program. Additional information regarding the continuation of existing projects may be found in the “Project Sheets for Continuing Projects Initiated in Prior Fiscal Years” section of the appendix and the previous years’ Adopted Wake Transit Work Plans.

II. Transit Plan Administration -- \$4.1 Million

New Transit Plan Administration – \$333,000

Continuous Transit Plan Administration -- \$3.8 million

A. New Transit Plan Administration -- \$333,000

A total of \$157,000 is included for the City of Raleigh to lease office space in Downtown Raleigh located at Raleigh Union Station. Funding is also included to support one (1) additional full-time equivalent (FTE) staff person for the Town of Cary to coordinate outreach and communications and to support two (2) additional FTEs for GoTriangle to further coordinate Wake Transit communications and to increase resources on GoTriangle’s public engagement team.

B. Continuation of Existing Transit Plan Administration -- \$3.8 Million

The FY 2021 Adopted Wake Transit Work Plan allocates \$3.8 million originally budgeted in prior years for staffing, marketing, and other administration costs. Funds for project implementation staff are included within the 11 full-time equivalents (FTEs) for GoTriangle, three (3) FTEs for CAMPO, seven (7) FTEs for GoRaleigh, and three and a half (3.5) FTEs for GoCary. Also included in this budget are dollars related to marketing, customer and community surveys, customer feedback system, contracted services, property maintenance appraisals, GoTriangle Wake County satellite office expenses, and other legal and administrative expenses. Additional information regarding these and

other prior year recurring expenses may be found in the “Project Sheets for Continuing Projects Initiated in Prior Fiscal Years” section of the appendix and previous years’ Adopted Wake Transit Work Plans.

III. Total Tax District Administration -- \$489,110

New Tax District Administration -- \$0

Continuous Tax District Administration -- \$489,110

Tax District Administration provides financial and regulatory oversight of the Tax District. The FY 2021 Adopted Wake Transit Work Plan includes dollars budgeted in prior years for staffing, financial advisor services, and auditing services. Additional information regarding these prior year recurring expenses may be found in the “Project Sheets for Continuing Projects Initiated in Prior Fiscal Years” section of the appendix and previous years’ Adopted Wake Transit Work Plans.

IV. Transfer to Wake Transit Major Capital Fund -- \$28.7 Million

The Wake Transit Tax District maintains a separate major capital fund to fund capital investments, including planning and design of capital projects in the Wake Transit Plan. The FY 2021 Adopted Wake Transit Work Plan includes a transfer of \$28.7 million. Of these funds, \$19.9 million will be contributed to the established capital projects fund balance. The remaining \$8.8 million will be added to prior year funds for capital projects in FY2021.

Transit Plan Administration - TO002

New FY 2021 Projects

Project ID	TO002-AR	Project Category	Transit Plan Administration	Project Subcategory	Staffing
-------------------	----------	-------------------------	-----------------------------	----------------------------	----------

Project Description:

In FY21, the Town of Cary will employ 1.0 FTE staff position to function as its Transportation Outreach and Communications Coordinator. This project will also fund the administrative expenses incurred related to the function of the employee's work. This position will be responsible for:

- Designing and implementing outreach and education opportunities for GoCary
- Working with regional and community partners on specialized outreach and marketing campaigns
- Coordinating ridership campaigns and serving as TDM liaison
- Working with marketing team to create public information materials
- Administering website and social media updates

Project at a Glance

Project Title	1.0 FTE Transportation Outreach and Communications Coordinator
Agency	Town of Cary
FY 2021 Costs	\$67,500
FY 2022 Programmed Cost	\$138,375
Funding Source	Wake Transit Tax Proceeds
Start Date	January, 2021

Project ID	TO002-AT	Project Category	Transit Plan Administration	Project Subcategory	Staffing
-------------------	----------	-------------------------	-----------------------------	----------------------------	----------

Project Description:

GoTriangle will continue to employ 2.5 full-time equivalent (FTE) employees in FY21, with an additional 1.0 FTE added later in the fiscal year. Of the total 3.5 FTEs, 2.5 of the FTEs are a consolidation of staffing that was authorized for funding and initiated in FYs 2018 and 2019.

Of the 3.5 FTEs, 1.5 FTEs will focus on public outreach and communications activities, including continuing to lead proactive community engagement and public input solicitation for the annual work plan, Wake Transit Plan updates, commuter rail project, and GoTriangle bus service projects and will continue to provide support as needed to municipalities through the Community Funding Area Program. The Community Engagement team will also provide outreach support for ongoing and future projects with broader regional implications, including but not limited to, fare capping, mobile ticketing, Youth GoPass and free rides for seniors.

The remaining 2.0 FTEs will work to meet the required Wake Transit program-level public involvement coordination and planning tasks defined by the TPAC. These positions will work on introducing and/or improving strategic public engagement activities for implementation of the Wake Transit Plan and on coordination of engagement activities with other Wake Transit Plan implementation partners. Costs associated with these FTEs include salary, benefits, professional development needs & supplies, and accessory administrative expenses related to the function of the employee's work.

Project Description:

GoTriangle will employ 4.5 FTEs for overall project implementation. This project is a consolidation of projects TO002-AM, -AN, and A3 and components of projects TO002-S and -T, which were authorized for funding and initiated in prior fiscal years. This staff will work on the following tasks:

Planning tasks: planning/prioritization for bus stop and park-and-ride improvements; management and technical consultant oversight; environmental planning and coordination with regulatory agencies for federally funded projects; and consultant oversight and technical support for CRT station area planning, travel demand modeling, etc.

Design/Engineering/Architecture tasks: field investigations, feasibility analysis, consultant oversight, and technical support for bus stop and park-and-ride improvements; design management, project coordination, and technical support for major facilities projects; feasibility analysis and implementation oversight for BOSS; and design management and technical support for CRT.

Construction Management tasks: project management, contractor oversight, and construction inspection.

Project Coordination and Controls Support tasks: managing coordination with GoTriangle's partners; facilitating productive partnering; promoting schedule and budget adherence; fostering timely conflict resolution; document management; contract administration; and project controls support including budget and schedule monitoring, risk management support, and reporting.

Project Description:

Raleigh's Transit division has experienced significant growth over the last two years as a result of Wake Transit capital projects and the Wake Transit Plan's aggressive schedule for increases in bus services and supporting infrastructure. To consolidate administrative functions and staff, including administrative, planning and marketing/communications functions, the Transit division intends to occupy the lower mezzanine space in Raleigh Union Station (RUS).

The space is needed until a permanent office space is available for the division within the City of Raleigh's Civic Campus. Occupancy is expected in FY20 Q4. A combination of dedicated and shared space comprised of office, conference room, and common area space will be made available to GoTriangle staff as the existing GoTriangle offices located on West Street, next to RUS, await redevelopment.

Project Description:

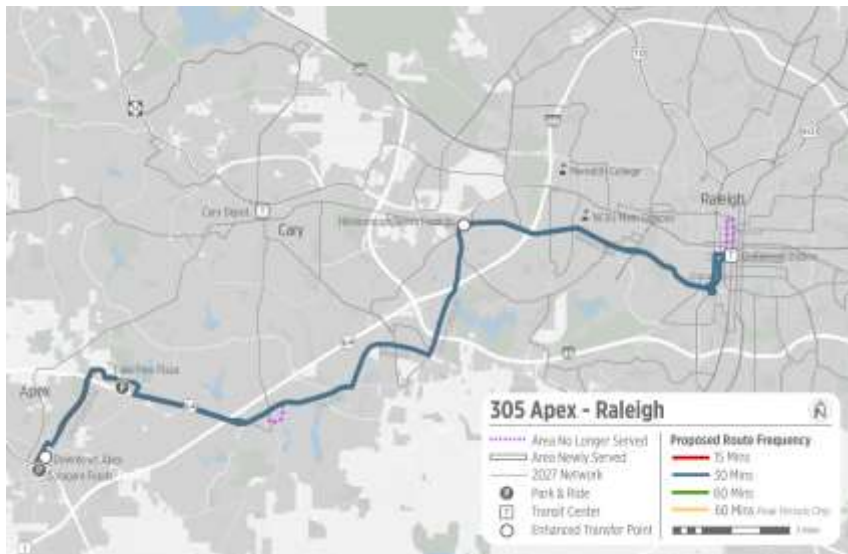

The Apex-Cary Express is expected to begin service at the beginning of FY 2021, providing Apex residents with peak-period express service to connect to transit options at Cary Depot. This route replaces the Apex-to-Cary segment of the original Holly Springs Express (HSX) originally budgeted in the FY 2020 Work Plan (Project TO002-M) and will complement the peak-period extension of GoTriangle's Route 305 to Holly Springs (Project TO005-AC). The Apex-Cary Express route will operate Monday-Friday with five (5) revenue service hours per day.

Project Description:

Wake County's Health & Human Services Department, which implements the Wake Coordinated Transportation System (WCTS) service (GoWake Access) across the county, will continue to provide additional demand-response trips for Wake County residents who are eligible based on age and/or disability in areas of the County that are not served by existing fixed-route transit services. Additionally, this project will provide general public demand-response trips for Wake County residents in rural areas of the county. These demand-response trips will complement the existing fixed-route system by linking rural residents currently without access to those transportation resources.

These additional trips build upon the continuation of rural general public and countywide elderly and disabled demand-response trips funded and initiated in prior fiscal years.

Total	\$ 49,093,779	\$ 58,419,255

Section 3. The GoTriangle President/CEO, or his or her designee, is hereby authorized to transfer funds within appropriations under the following conditions:

- A) No transfer may be made that changes the adopted allocations to fund balance.
- B) All budget transfers will be reported to the Transit Planning Advisory Committee.
- C) All increases to an appropriation, and all transfers between appropriations, must be reviewed by the Transit Planning Advisory Committee and approved by the CAMPO and GoTriangle governing boards.

Section 4: Triangle Tax District – Wake Capital Funds are appropriated pursuant to section 13.2 of Chapter 159 of the General Statutes of North Carolina; therefore, appropriations do not lapse at the end of the fiscal year and are available for duration of the project unless subsequently recommended for reallocation by the Transit Planning Advisory Committee and approved by the CAMPO and GoTriangle governing boards, or as specified in Section 5.

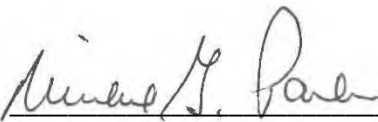

Section 5: GoTriangle Finance Department has authority to close projects and/or programs and reduce appropriations upon notification of project completion by the project sponsor. When actual revenues are available in projects to be closed or which are substantially complete, GoTriangle Finance may transfer savings to Triangle Tax District Wake Capital fund balance. These funds will be then available for future appropriations which require recommendation by the Transit Planning Advisory Committee and approval by the CAMPO and GoTriangle governing boards. This section applies to current and prior year appropriations. A list of project closeouts shall be provided quarterly to the Transit Planning Advisory Committee.

Section 6. If received, Small Starts Funding from the FTA in support of the New Bern Avenue project will be awarded directly to the City of Raleigh. Expenditures funded by these federal funds will be budgeted by the City of Raleigh in their respective Transit Grant Fund. Dollars budgeted above are the local funds budgeted by the tax district and allocated to the City of Raleigh in support of this project.

Section 7. Capital funds included under the Commuter Rail reserve allocation in Ordinance 2020 0011 of the Adopted 2020 fiscal year Wake Transit Work Plan have been allocated to GoTriangle to reimburse the federal interest in five (5) parcels located along the planned Greater Triangle Commuter Rail corridor in Wake County. Project TC004-A2 is allocated \$1,100,000 in funds from project TC004-A.

Section 8. Copies of the Budget Ordinance shall be furnished to the Clerk, to the Board of Trustees, to the Finance Officer, and to the Budget Officer of this Authority to be kept on file for their direction in the disbursement of funds. Copies shall also be furnished to representatives of the Agencies under Section 2. The Budget Ordinance shall be entered into the Board minutes.

ADOPTED THIS 25TH DAY OF AUGUST 2021.

Michael Parker, Board of Trustees Chair

FY 2021 ADOPTED/AMENDED WAKE TRANSIT WORK PLAN CAPITAL BUDGET

The COVID-19 pandemic added a potential financial challenge related to the FY 2021 Adopted Wake Transit Work Plan revenue assumptions. As discussed in the introduction, the majority of the capital projects originally included in the FY 2021 Draft Wake Transit Work Plan released for public comment in January of 2020 were put on hold and were revisited during the fall of 2020 when the impact of the pandemic on revenues could be better understood. The projects funded in the FY 2021 Adopted Wake Transit Work Plan include capital projects that are time sensitive, involve time-sensitive external grant sources as part of their overall funding mechanism, or duly exhibit readiness to move forward for implementation during the span of the fiscal year to keep implementation of the Wake County Transit Plan on schedule.

FY 2021 REVENUE

The FY 2021 Adopted Wake Transit Work Plan includes a total of \$77.5 million of capital projects and \$18.7 million of funds allocated to capital fund balance for a total FY 2021 capital budget of \$96.2 million. These projects are funded by a combination of local revenues and federal funds.

FY 2021 EXPENDITURES

I. Bus Rapid Transit -- \$67.6 Million

The City of Raleigh is allocated \$28.7 million in local funds, to be paired with \$35.6 million of anticipated federal funding and \$3.3 million of contribution from the City of Raleigh to construct the New Bern Avenue Bus Rapid Transit (BRT) project.

II. Capital Planning: \$1.1 Million

GoTriangle is allocated \$458,333, the final year of funding, to implement an Enterprise Resource Planning system that will provide the ability to produce operating reports and assist in making key business decisions. Wake Transit will provide 25 percent of the funding for this project, with the remaining funds allocated between GoTriangle local funds and Durham/Orange funding.

The FY 2021 Adopted Work Plan provides funds in the amount of \$75,000 to GoRaleigh to conduct a Transit-Origin Destination Survey. The Wake Transit contribution will be allocated to pay for the Wake Transit partners' portion of the study. The City of Raleigh will be utilizing local funds to support the remaining 75% of the survey.

Further, in conjunction with existing Wake Transit and local funds, the FY 21 Adopted Work Plan includes \$30,000 for GoWake Access as a match to the recently awarded Federal Transit Administration (FTA) Integrated Mobility Innovation (IMI) grant awarded to Wake County. These funds will be used towards the Northeastern Wake County Micro-Transit Study to design and demonstrate micro-transportation options for people living in the eastern part of the county, which is not readily served by fixed-route transit service. GoWake Access will use FTA IMI grant funds for the majority cost of the study.

Additional funds were allocated to capital planning projects through a January, 2020 amendment to the FY 2021 Wake Transit Work Plan. This includes \$100,000 to GoTriangle to begin an update to the Wake Bus Plan, \$400,000 for CAMPO to complete a major investment study for extensions to two of the Wake BRT corridors, and \$50,000 for the City of Raleigh to receive support for real estate transactions that are related to Wake Transit capital projects the City is responsible for implementing.

III. Community Funding Areas -- \$455K

The Towns of Morrisville and Apex are allocated a total of \$455K to complete bus stop improvements that will complement the expansion of transit operations.

IV. Bus Infrastructure -- \$1.5 Million

GoTriangle is allocated approximately \$115K to complete bus stop improvements, including improvements to the system's bus stop at RDU International Airport. The City of Raleigh is allocated \$1.4 million to design and construct seven (7) transfer points throughout the GoRaleigh system.

V. Commuter Rail -- \$1.1 Million

GoTriangle is allocated \$1.1 million to reimburse the Federal Transit Administration's share for five (5) parcels along the commuter rail corridor in Wake County (two in the Town of Cary; one in the Town of Morrisville; and two in the City of Raleigh). The parcels were previously purchased by GoTriangle with FTA funds in support of a rail project under development in prior years. The FTA's ownership share in the parcels is 55.7 percent. This reimbursement would give GoTriangle a 100 percent ownership interest in the subject parcels. GoTriangle plans to maintain the parcels for project-related uses, such as station facilities and laydown areas for construction and contractor access, should construction of a commuter rail project proceed.

VI. Vehicle Acquisition -- \$5.6 Million

The City of Raleigh is allocated approximately \$5.1 million to replace seven (7) 40-foot diesel transit vehicles in GoRaleigh's existing fleet. The new replacement vehicles will use compressed natural gas propulsion. The City is also allocated \$380K for four (4) paratransit replacement vehicles to support GoRaleigh's demand-response/paratransit operations and an additional \$156K to purchase supervisor and field support vehicles.

VII. Reserve for Future Projects and Debt Service -- \$18.7 Million

Future years of Wake Transit Plan implementation require extensive capital outlay for major infrastructure projects. The Wake Transit Plan was modeled after establishing a five (5) percent capital fund balance as an overall reserve and measure of financial health of the plan, in addition to reserves established in the operating fund. Funds of \$18.7 million in FY 2021 will be used to add to the capital projects fund balance.

-------------------	---------	-------------------------	---------------	----------------------------	------------------

Project Description:

The Northeastern Microtransit Planning Study will be used to demonstrate micro-transportation feasibility and design options for people living in the eastern part of Wake County not yet served by fixed-route public transportation. The study will design and test a geofenced service area utilizing existing and enhanced trip planning software to provide critical connections or linkages with existing non-demand-response transit services. The goal of the study is to design an efficient, fiscally sustainable, quick response Microtransit service with an intuitive interface across a variety of users, especially regarding Wake Transit rural and Elderly and disabled trips.

The majority of the cost of the study will be supported by an FTA Integrated Mobility Innovation grant.

Project Description:

The Origin-Destination Survey was previously completed in 2015 to support the development of the MPO's regional model. This survey included all fixed-route transit systems within the county (GoCary, GoRaleigh, GoTriangle, and Wolfline). A new survey collection is now needed for 2020/2021. Wake Transit funding for the survey will cover GoCary's, GoTriangle's, and Wolfline's portion of the study (approximately \$75,000). The City of Raleigh will separately fund its portion of the survey.

The survey will be completed by the consultant company Planning Communities and its sub-consultant ETC. Project costs include: survey development; system coordination; survey pilot/pre-test; 3,300 completed digital surveys; data cleaning, processing, and expanding by route/time of day/direction; and preparation of summaries for all systems. The survey will be managed by City of Raleigh staff with collaboration from all requisite partners.

Project Description:

In 2019, the CAMPO Executive Board asked the NCDOT Statewide Transportation Improvement Program (STIP) unit to program State funding for a BRT project from Morrisville to Clayton that CAMPO submitted for consideration as part of the SPOT 5 prioritization process. The State Board of Transportation programmed \$115 million for the project in the FYs 2020-2029 STIP. The project overlaps with the Western and Southern BRT corridors currently included in the Wake County Transit Plan, for which the City of Raleigh, as project sponsor, has begun project development activities.

With the inclusion of the expansion of BRT between Cary and Morrisville and between Garner and Clayton, the extra extents of these corridors are ripe for the development and study of alternatives to consider progressing for potential implementation. This study will follow a very similar scope of work as the MIS for the original Wake Transit Plan corridors, including analyzing the travel market, conducting a high-level environmental review, identifying and evaluating BRT alignment alternatives, developing operating plans, generating capital and operating cost estimates, assessing risk, and identifying a project sponsor.

New FY 2021 Projects

Project ID	TC004-A2	Project Category	Commuter Rail Transit	Project Subcategory	CRT Planning / Design / Land Acquisition
-------------------	----------	-------------------------	-----------------------	----------------------------	--

Project Description:

In the first quarter of FY21, \$1,100,000 out of a total of \$39,360,371 in funds that were previously set aside in reserve for commuter rail project development in the FY 2020 Wake Transit Work Plan was taken out of reserve and allocated to GoTriangle in order to reimburse the Federal Transit Administration's share for five (5) parcels along the commuter rail corridor in Wake County (two in the Town of Cary; one in the Town of Morrisville; and two in the City of Raleigh).

Also included in the scope of the request is the demolition of a structure on one of the parcels and a small contingency for additional potential expenses. The parcels were previously purchased by GoTriangle with FTA funds in support of a rail project under development in prior years. The FTA's ownership share in the parcels is 55.7 percent. This reimbursement would give GoTriangle a 100 percent ownership interest in the subject parcels. GoTriangle plans to maintain the parcels for project-related uses, such as station facilities and laydown areas for construction and contractor access, should construction of a commuter rail project proceed. The five parcels are located at:

- 1) 228 and 232 N. Harrison Avenue in Cary;
- 2) 201 Morris Street in Morrisville; and
- 3) 610 and 620 Corporate Center Drive in Raleigh.

Project Description:

With an appropriate environmental clearance from the Federal Transit Administration, the City of Raleigh will complete final design, right-of-way acquisition, construction, and procurement of vehicles for the New Bern Avenue/ Edenton Street Bus Rapid Transit (BRT) corridor from Downtown Raleigh to New Hope Road.

This phase of the New Bern Avenue BRT project is funded by a combination of City of Raleigh funds (\$3,261,000), Wake Transit tax proceeds (\$28,720,000), and federal grant funds (\$35,655,100). This project funding allocation for the New Bern Avenue BRT corridor is anticipated to bring the capital infrastructure components of the corridor to completion. Up to a total of \$500,000 of the Wake Transit tax revenues allocated to the construction budget may be used for the design and integration of artistic elements into the construction of the BRT facility, should the adoption of an art funding eligibility policy ultimately allow that amount. Up to \$250,000 of this \$500,000 amount allocated to the integration of artistic elements may be used by the City in the absence of an adopted policy or in the instance a policy yields a more restrictive amount than \$250,000.

**FY 2021 Draft Wake Transit Work Plan Projects
Delayed to Future Fiscal Years**

The table below lists the capital projects that were included in the FY 2021 Draft Wake Transit Work Plan, that were subsequently included in an unbudgeted reserve queue in the FY 2021 Adopted Wake Transit Work Plan, and that were ultimately delayed to a future fiscal year through an amendment to the FY 2021 Adopted Wake Transit Work Plan in January of 2021. The table notes the new fiscal year in which these respective projects were programmed by the referenced amendment.

Project Description:

The GoTriangle Regional Transit Center (RTC) is the primary hub for GoTriangle regional bus services connecting Wake, Durham, and Orange Counties. The first phase of this project was funded in FY 2019 and continues into FY 2021. The initial phase included an evaluation of the current facility and identification of necessary passenger amenities and infrastructure improvements. The feasibility study is evaluating the best location for the RTC, taking into consideration current and future planned routes, land use, supply, and price. The current location of the RTC on Slater Road in Durham creates the overlapping of routes leading to inefficiency. The feasibility study is evaluating location options that improve route efficiency. The second phase of work is proposed to begin in FY 2022 to design the new facility, while subsequent phases are also scheduled to be funded in FY 2023. Services anticipated to use the facility by 2030 include:

- GoDurham Route 12 (non-Wake Co)
- GoTriangle 100 Raleigh-RDU-RTC
- GoTriangle 310 Cary-Morrisville-RTC
- GoTriangle 311 Apex-RTC
- 700 Durham-RTC (non-Wake Co)
- 800 Chapel Hill-RTC (non-Wake Co)
- 805 Chapel Hill - Woodcroft - RTC (non-Wake-Co)
- NRX-North Raleigh Express

Project Description:

GoRaleigh currently serves MidTown with two (2) routes using existing easements at two (2) stops with benches and shelters. Both sites have limited access without any room for expansion. A transit center is planned for Midtown in Raleigh, near the North Hills shopping center and in proximity to I-440. The Midtown Transit Center will support transfers between transit routes and create opportunities to travel east – west without going into downtown Raleigh. The planned Transit Center will be a staffed facility. This facility will support three (3) high frequency network routes and one (1) local route with 30-minute frequencies.

A planning and feasibility study was scheduled for funding in FY20 to identify an optimal location, taking into consideration planned transit service, land use, supply, and price. The second phase of work is scheduled to begin in FY24 and will involve design and land acquisition, with final design and construction of the new facility planned for FY25.

FY 2021 Adopted/Amended Wake Transit Work Plan

WAKE COUNTY TRANSIT PLAN: IMPLEMENTATION

FY 2021 Financial Model Assumptions Update

Financial Model Assumptions for FY 2021 Adopted Wake Transit Work Plan

The Transit Planning Advisory Committee (TPAC) has assigned GoTriangle as the lead agency to update the Wake Transit Financial Plan and the financial model. Per the Wake Transit Interlocal Governance Agreement, the financial model shall contain the agreed upon operating and capital policies and guidelines mutually agreed to by the TPAC.

Under normal conditions, the FY 2021 Work Plan would include a comprehensive review of the plan's financial model and long-term financial assumptions. However, given the aforementioned economic uncertainty surrounding the COVID-19 pandemic, the original FY 2021 Adopted Wake Transit Work Plan only modeled revenues to support the continued operations of prior-year projects, projects deemed to be time-sensitive, and projects that involve time-sensitive external grant sources as part of their overall funding mechanism. At the time of adoption of the FY 2021 Wake Transit Work Plan, the TPAC, CAMPO Executive Board, and GoTriangle Board of Trustees made a decision to revisit the financial assumptions for the Work Plan and the Wake County Transit Plan as a whole in the second quarter of FY 2021 (October-December) when more data would be available for the period of time most immediately impacted by the pandemic.

Following up from this posture, from the sales tax collection data that became available for the March-July timeframe, the TPAC was able to determine that the FY 2021 Adopted Wake Transit Work Plan could absorb some of the additional expenses associated with many of the projects originally included in the FY 2021 Draft Wake Transit Work Plan. This increase in expenditures for FY 2021 was offset by increasing the estimated budget for the Article 43 Half-Cent sales tax. The associated Work Plan amendments have been tested for financial feasibility and have been incorporated into the Wake County Transit Plan financial model. Further, new assumptions were generated to support further implementation of the Wake County Transit Plan as part of an update to the plan, which was adopted in the spring of 2021. These new assumptions will begin supporting future Wake Transit Work Plans beginning with the FY 2022 Work Plan.

WAKE COUNTY TRANSIT PLAN: IMPLEMENTATION

FY 2021 Adopted Wake Transit Work Plan Appendix Multi-Year Operating Program & Capital Improvement Plan

The Wake Transit Work Plan is created on a recurring annual cycle and includes, among other components, detailed information on projects to be implemented during the upcoming fiscal year. As each project in the fiscal year is part of a broader, multi-year program of projects aligned with the goals of the Wake Transit Plan, the Transit Governance Interlocal Agreement charges the TPAC with producing a multi-year operating program and capital improvement plan for each annual Wake Transit Work Plan. These multi-year programs guide future work plans, provide a basis for tracking projects from one year to the next, allow project sponsors to appropriately plan for future implementation, and ensure that the projects undertaken each year are part of a calculated phased approach to achieving the “Four Big Moves” described in the Wake County Transit Plan. For services and projects that are included in the multi-year operating and capital programs for FY 2022 and beyond, each project will be reviewed prior to its incorporation into future annual work plans to ensure the project is still viable, the timing is still appropriate, and funding mechanisms are still in alignment.

This appendix focuses on projects initiated in fiscal years other than FY 2021, including operating projects initiated in prior fiscal years that continue into FY 2021 and subsequent years, as well as capital and operating projects anticipated for future investment. As noted in the introduction to the FY 2021 Adopted/Amended Wake Transit Work Plan, with the unfortunate circumstance of the COVID-19 pandemic, there was a great deal of uncertainty regarding future revenue collections and their long-term impacts on the ability to deliver future-year projects on previously conceived timelines when the FY 21 Work Plan was prepared. Consequently, the multi-year operating program and capital improvement plan included in this FY 2021 Adopted/Amended Wake Transit Work Plan do not reflect any rebalancing of the assumed expenditures with newly assumed revenues based on the economic impacts of the COVID-19 pandemic. Instead, these multi-year planning guides serve as an illustrative and tentative prognostication of planned future-year investment.

Enclosed in this appendix are investment summaries and project profiles that detail the scopes of operating projects initiated in prior years that continue into FY 2021, and the FYs 2021-2027 multi-year operating and capital improvement programs, which include project-level details for future investments. For future-year operating projects, project profiles are provided for projects initiated between FY 2022 and FY 2024, which align with the planning horizon of short-range transit plans produced as part of the Wake Bus Plan for each fixed-route service provider in Wake County.

GoTriangle will continue to operate Route 100 every 30 minutes from 6:10 AM to 7:25 PM Monday-Friday and from 7:30 AM to 7:15 PM on Saturday. This is an improvement in frequency from the FY17 levels of service (which provided hourly service all day Saturday and from 9:45 AM to 3:30 PM Monday-Friday, as well as half-hour service during morning and afternoon peak periods) and will continue in this fiscal year and future years.

Also, GoTriangle will continue to operate Route 100 on Sundays from 6:40 AM to 9:15 PM, with hourly frequencies during this span. This represents an expansion of the FY18 Sunday service span by 2 hours.

Project Description:

GoTriangle will continue to operate Route 300 with its current span and frequency until NCDOT's McCrimmon Parkway Extension project (STIP ID U-5828) is complete in 2020. Upon completion of U-5828, GoTriangle will eliminate Route 300's service to the GoTriangle Regional Transit Center (RTC), limiting its extent to Cary Depot and Downtown Raleigh. However, in concert with the Route 300 reduction of service will be the introduction of Route 310's new alignment, which will make up for the reduced service. Project Description:

In FY2019, Wake County transit providers produced an updated fare strategy. The draft recommendations of this collaborative effort include making rates uniform for trips types across agencies, and also recommended a fare capping strategy in conjunction with fare payment technology upgrades including mobile ticketing and smart cards.

It is expected that there will be financial impacts for each agency as a result of these regional changes. This project places funds in reserve to hold GoRaleigh, GoTriangle, and GoCary harmless against any reduction of fare revenue as a result of implementing this uniform fare strategy. These earmarked funds will be assigned to project sponsors through a Work Plan amendment later in the fiscal year, and will be dependent on methodology developed by a Fare Working Group.

Future Year Projects

Project ID:	TO005-AF	Project Type:	Bus Operations
			Bus Service

Project Description:

Route 100 provides daily service between Raleigh, Raleigh-Durham International Airport, and the Regional Transit Center (RTC) near Research Triangle Park. GoTriangle will expand service span on Route 100 by starting service earlier in the morning and ending later in the evening. The frequency of service will also be improved to every 30 minutes on Sundays.

Project ID:	TO005-AH	Project Type:	Bus Operations/Bus Service
--------------------	----------	----------------------	----------------------------

Project Description:

This service will operate between the Wake Tech Northern Wake Campus and Triangle Town Center, where there will be connections to multiple bus routes and frequent service. This route will operate Monday-Friday only, as the Wake Tech North campus will also be served by the new Route 25 Durant. Currently, the campus is served by Route 25L, which will be replaced by Route 25 Durant as part of the Falls of Neuse route package at the same time. However, this new Route 34 will be much shorter than 25L, and therefore is not similar to any existing service.

			Bus Service

Project Description:

GoRaleigh will implement a number of improvements and new services in the Falls of Neuse area of northern Raleigh. Route 2-Falls of Neuse will function as a trunk route that will be similar to existing service, although slightly extended to the north, and with some added weekend frequency and span of service. This route will now connect with two new route branches, New Route-Durant and Route 2L-Falls of Neuse North to extend service further north and east.

New Route 2L-Falls of Neuse North will connect with the trunk service (Route 2-Falls of Neuse) and provide a link to downtown Wake Forest. New Route 25-Durant will connect with Route 2-Falls of Neuse and provide a link to the Triangle Town Center. The span of service on all days will be extended.

New Route 32-Lynn-Spring Forest will connect Crabtree Valley Mall and Triangle Town Center, which are both sites where transfers to multiple bus routes will be available. This service is not similar to any existing route, since the new route will serve segments currently covered by multiple routes, as well as some segments that are currently unserved.

Project Description:

GoRaleigh will provide weekday service only between Wake Tech Southern Wake (Main) Campus, the Garner Station Park-and-Ride and an enhanced transfer point located on Garner Station Boulevard. This route will supplement Route 40X Wake Tech Express service, and will only operate on days when the Route 40X has a reduced schedule or does not operate due to holidays or semester breaks. This is a new service.

			Bus Service

Project Description:

GoRaleigh will implement New Route 8-Six Forks Midtown as part of the frequent network. New Route 8-Six Forks replaces the current Six Forks route and splits into New Route 8 serving the inner portion (toward downtown Raleigh), and New Route 8L serving the outer portion. This route will continue to serve downtown Raleigh.

New Route 16 will replace the Oberlin route and will no longer serve downtown Raleigh but will serve NC State University (NCSU). This route will be part of the frequent network, with transfers available to multiple other frequent routes and the Western Bus Rapid Transit line.

			Bus Service

Project Description:

GoRaleigh will implement a change in route alignment for the existing Biltmore Hills route, and the new route will be part of the frequent network. The intent of the route realignment is to focus the frequent service on a shorter and more direct path. This route will continue to serve downtown Raleigh.

In August 2023, weekday frequency will increase, and weekend service will be added on Route 20-Garner and on Route 20L-Garner South.

Vehicle Acquisition - TC001

Future Year Projects

Project IDs:	TC001-E	Project Type:	Vehicle Acquisition
			Fixed Route Expansion Vehicles

Project Description:

GoRaleigh will continue to purchase 40-foot fixed-route transit buses to support new bus services or service improvements anticipated to begin in various years through FY 2027. Many of the vehicles will possess the technology to be powered by alternative fuels, including compressed natural gas (CNG) and electricity. Further, many of the vehicles will be ordered in the year preceding their use, as there is typically an anticipated delivery timeframe of 12-18 months after vehicles are ordered.

Project at A Glance	
Project Description	Purchase 40-foot Diesel, CNG, or Electric Buses
Start Date	Various (See CIP Project Sheet Summary)
Agency	GoRaleigh
Cost	See CIP Project Sheet Summary
Funding Source	Wake Transit Tax Proceeds, Federal Formula Funds

Project IDs:	TC001-D and TC001-F	Project Type:	Vehicle Acquisition
			Fixed Route Replacement Vehicles

Project Description:

GoTriangle and GoRaleigh will continue to purchase 40-foot fixed-route transit buses to replace vehicles that have exhausted their useful life in various years through FY 2027. Many of the vehicles will possess the technology to be powered by alternative fuels, including compressed natural gas (CNG) and electricity. Further, many of the vehicles will be ordered in the year preceding their use, as there is typically an anticipated delivery timeframe of 12-18 months after vehicles are ordered.

****Some of GoTriangle's fleet may be repowered rather than replaced.**

Bus Infrastructure - TC002

Future Year Projects

Project ID:	TC002-R	Project Type:	Bus Infrastructure
			Bus Stop Improvements

Project Description:

The Town of Cary/GoCary will design and construct a number of bus stops to support future bus services programmed to begin in FY 2027. Improvements will include the installation of concrete pads for safer and more comfortable boarding/alighting of buses, benches, bike racks, access ramps, sidewalks, and other associated amenities.

			Transit Center/Transfer Point Improvements

Project Description:

The Multi-Year CIP programs new transit connections throughout the county that will be supported by enhanced transfer points. The transfer points will include:

- Larger shelter(s)
- Lighting
- Passenger information, including real-time information systems; and
- Amenities to enhance passenger comfort (public Wi-Fi, benches, trash cans, bike racks)

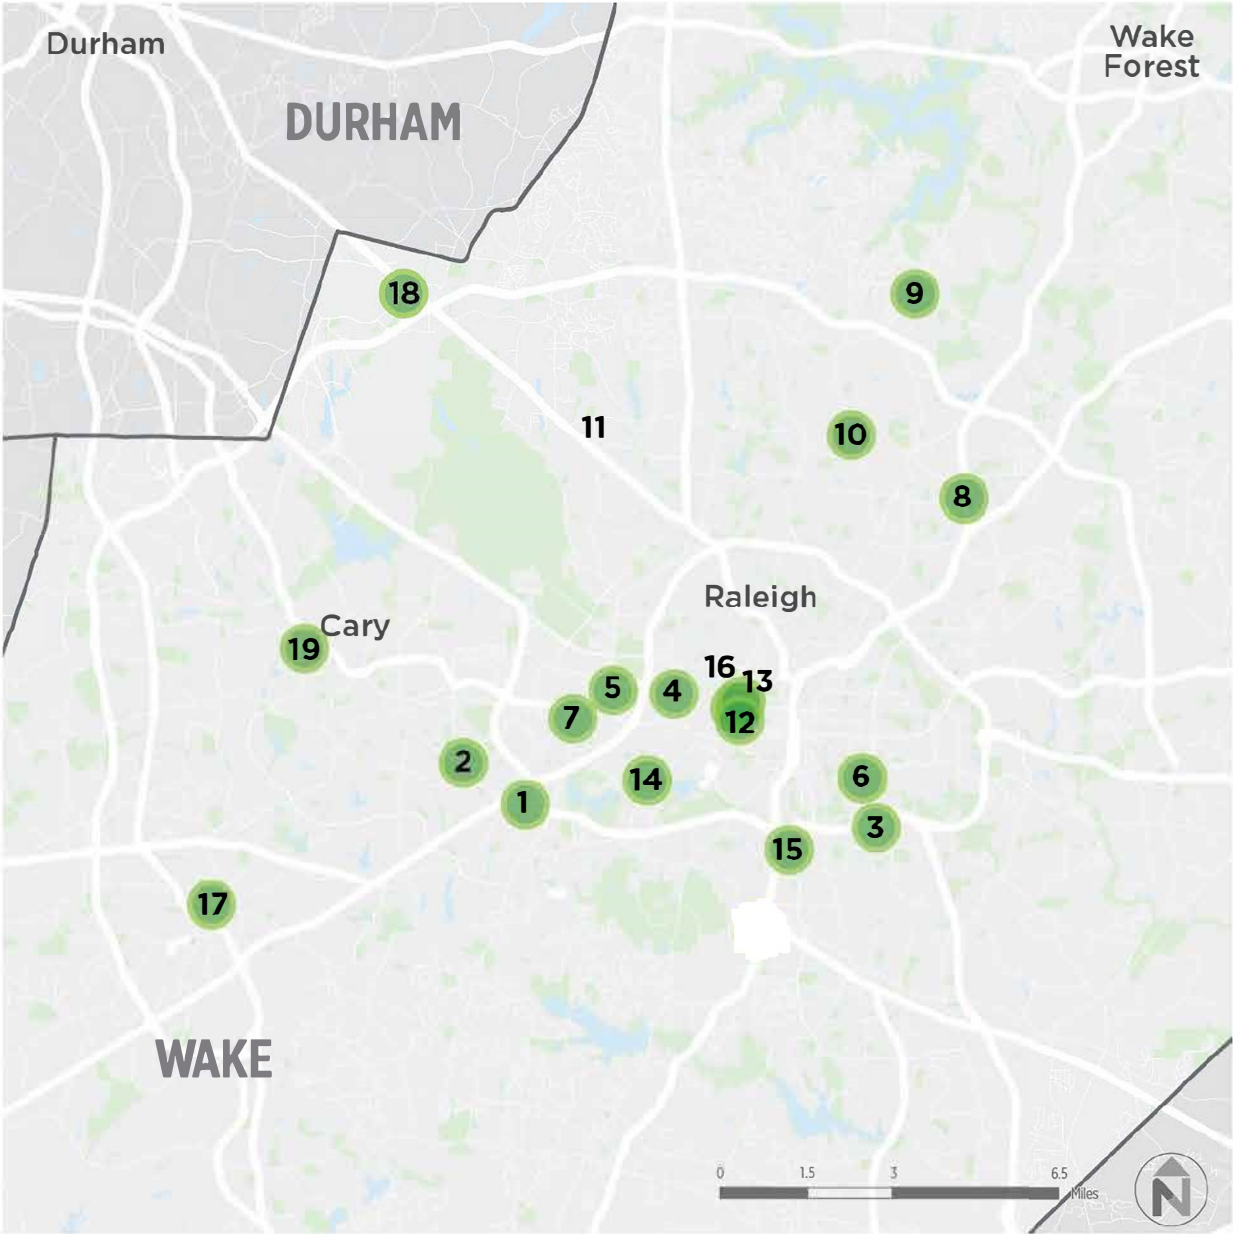

Enhanced Transfer Points are assumed to include improvements to bus stop pairs (one on either side of the street, typically) to facilitate transfers between key routes in both directions, but project elements may vary by location.

Vicinity Map

Project ID:	TC002-F	Project Type:	Bus Infrastructure
			Transit Center/Transfer Point Improvements

Project Description:

The Town of Cary will develop a multimodal transportation hub in downtown Cary. The facility will connect a range of transportation services including intercity rail (Amtrak), planned commuter rail, bus rapid transit, and express and local bus service.

The new facility will include indoor passenger waiting areas and will provide passenger amenities in line with Wake Bus Plan standards.

Site features will be developed, and costs will be shared across site functions/users. The Wake Bus Plan assumes site development costs will be shared across modes and assigns 40% of projects costs to the Bus Infrastructure funding category.

Services anticipated to use the facility by FY 2027 include:

- GoCary 1 Crossroads
- GoCary 3 Harrison
- GoCary 4 High House
- GoCary 6/9B Buck Jones
- GoCary 7 Weston Parkway
- GoCary 9A Trinity
- HSX Holly Springs-Apex-Cary Express

Project ID:	TC002-AL	Project Type:	Bus Infrastructure
			Transit Center/Transfer Point Improvements

Project Description:

GoRaleigh will implement updates to the Transit Center at Crabtree Valley Mall in FY 2021. The Crabtree Valley Mall is a major transit hub with multiple routes converging at the transit center. The existing bus stop is adjacent to a parking deck and offers shelter from the weather. Additional investments will be needed to support bus riders transferring between routes, including additional passenger amenities and information display.

Instead, the Wake Bus Plan recommends investing in the bus stop with additional passenger amenities, information and resources.

Project at A Glance

Project Description	Crabtree Valley Mall Transit Center Updates
Start Date	FY 2022

FY 2022 Cost	\$323,904
Funding Source	Wake Transit Tax Proceeds, Federal Funds

Project IDs:	TC002-AM and TC002-AX	Project Type:	Bus Infrastructure
			Transit Center/Transfer Point Improvements

Project Description:

GoRaleigh will implement updates to the Transit Center at Triangle Town Center in FY 2021. There are currently two transit stops at Triangle Town Center. The main bus stop is located at the mall entrance. Park-and-ride spaces are located near the Orvis store along the access road. As more bus services meet at Triangle Town Center, both bus stops will need additional infrastructure to support bus riders making transfers between routes.

GoRaleigh plans to relocate the transit center to a new location on the Triangle Town Center property in FY 2024. Funding is allocated in FY 2023 to examine the feasibility of relocation needs and to begin design, with additional funds programmed for FY 2024 to relocate the transit center.

			Maintenance Facility Improvements

Project Description:

The City of Raleigh/GoRaleigh will expand its compressed natural gas (CNG) fueling station at the GoRaleigh bus operations and maintenance facility on Poole Road. This infrastructure is needed to support an expansion in GoRaleigh's CNG-fueled fleet, which will result in cleaner vehicle emissions and lower fuel costs.

Project ID:	TC002-B	Project Type:	Bus Infrastructure
			Maintenance Facility Improvements

Project Description:

The GoTriangle Operations and Maintenance Facility was originally constructed in 1998. In 2006, the facility was updated to add space for administrative functions. GoTriangle maintains a fleet of 97 fixed-route buses, which exceeds the capacity of site. The site does not have sufficient maintenance bays and administrative space and is unable to accommodate GoTriangle's service vans fleet (66 vehicles).

GoTriangle will plan, design and construct a new Operations and Maintenance Facility. Recommendations call for building a facility with capacity for 150 buses, large enough to accommodate GoTriangle's fleet needs, including vehicles needed for operations in Orange and Durham Counties. Facility costs will be shared across GoTriangle's service areas. The Wake County share of the facility costs is 40%.

Bus Rapid Transit - TC005

Future Year Projects

Project ID	TC005-A	Project Category	Bus Rapid Transit	Project Subcategory	BRT Planning / Design
-------------------	---------	-------------------------	-------------------	----------------------------	-----------------------

Project Description:

In FY22, the City of Raleigh will continue to advance the Capital, Western, and Wilmington Bus Rapid Transit (BRT) corridors identified in the Wake Transit Plan through the Federal Transit Administration (FTA) Small Start Project Development (SS PD) process.

Activities included in this phase that will continue into FY 22 are:

- Selection of the Locally Preferred Alternative (LPA)
- Environmental review (NEPA)
- Design (up to final)

This funding will be used to supplement project development and final design for the northern, western, and southern BRT corridors, as needed.
