

CITY OF NORTH RIDGEVILLE

OFFICE OF THE MAYOR

G. David Gillock, Mayor
Jeffrey J. Armbruster, Safety-Service Director

December 31, 2014

To Whom It May Concern:

The City of North Ridgeville adopted an ordinance in the year 2013 to establish regulations for unattended collection bins throughout our City. This ordinance requires any container used for collecting donations of clothing, shoes, books or other salvageable personal property to register with our City. The containers must be placed and maintained by the organization placing them in accordance with all provisions of the ordinance.

These provisions include obtaining permission from the actual property owner, placing the bin within the required setback and property lines, maintaining the area surrounding the collection bin and ensuring the bin is maintained in good condition and appearance.

Planet Aid has placed several bins in our City and through our process of registration, has graciously complied with all of the requirements in doing so. They were very cooperative to have their bins placed in the specific locations and within guidelines. Mr. John Kenny, Territory Manager was very polite, patient, quick to return calls, and actually meet with me in person on several occasions. He made sure his bins were placed in the specified areas required by the City and never displayed dismay in doing so.

The City of North Ridgeville appreciates the cooperation we have received from Planet Aid with regards to their collection bins being placed in our City and we welcome their presence.

Respectfully,

Robin D. Mayda

Administrative Assistant to

Jeffrey J. Armbruster, Safety Service Director
