Pictured to the right is the SleepSafe bed that was purchased for Arc Herkimer's Respite Center.

Arc Herkimer Respite Center Gets New Bed Thanks to J.M. McDonald Foundation Inc.

Arc Herkimer's William H. Privett Respite Center in Little Falls, NY, has received a new SleepSafe bed thanks to the J.M. McDonald Foundation Inc.

The William H. Privett Respite Center provides overnight, weekend, and other needed support for parents and guardians. While at the center, individuals feel at home and staff provide recreational opportunities to engage in.

The SleepSafe-style bed allows the agency to provide a safe place for individuals who are unable to utilize a "typical" bed.

With the generosity of the J.M. McDonald Foundation, Arc Herkimer's Respite Center now has two SleepSafe beds to help accommodate more children, and to provide support to more families.
