## ***What Participants Are Saying...***

*"Loved the concept that you can't really eliminate your biases, but that illuminating and acknowledging them can go a long way towards healing the problem. It takes a lot of pressure off and allows us to be human, with our weaknesses, while encouraging us to be mindful of our biases and actions."*

*"I specifically liked the helpful tools outline and suggestions in dealing with identifying bias and how to cope with improving the overall situation. The [movie] clips... were a good prelude to the discussion that followed and helped get the points across."*
