

# Do you need help with heating costs?

Energy policy has changed! If you plan to apply for CIP or LIEAP this energy season, you **MUST** bring the following information:

- ◆ Four most recent check stubs for **all** household members
- ◆ Verification of any unearned income (i.e. child support, Social Security, pensions, etc.)
- ◆ Social security numbers for everyone in your household
- ◆ Energy vendor account number

If you have questions or need additional information, please call (336) 846-5644 and speak to the services intake worker.

**Do not assume that items are  
"in the system."**

Workers are now required to have *recent* verification of certain information so applicants must provide the required documentation on the day of application for benefits to be approved.

**Failure to provide the  
required information will  
cost you your benefit!**
