## NC Bar Association Health Benefit Trust: Plan 4

Coverage Period: 10/01/2016 - 09/30/2017

Summary of Benefits and Coverage: What this Plan Covers & What it Costs

Coverage for: Individual/Family Plan Type: PPO

This is only a summary. If you want more detail about your coverage and costs, you can get the complete terms in the policy or plan document at www.bcbsnc.com or by calling 1-877-275-9787.

Important Questions	Answers	Why this Matters:	
What is the overall deductible?	In-Network- <b>\$2,000</b> Individual/ <b>\$4,000</b> Family Total. Out-of-Network- <b>\$4,000</b> Individual/ <b>\$8,000</b> Family Total. Doesn't apply to In-Network preventive care. Coinsurance and copayments do not apply to the deductible.	You must pay all the costs up to the <u>deductible</u> amount before this plan begins to pay for covered services you use. Check your policy or plan document to see when the <u>deductible</u> starts over (usually, but not always, January 1st). See the chart starting on page 2 for how much you pay for covered services after you meet the <u>deductible</u> .	
Are there other deductibles for specific services?	No.	You don't have to meet <u>deductibles</u> for specific services, but see the chart starting on page 2 for other costs for services this plan covers.	
Is there an <u>out-of-</u> <u>pocket limit</u> on my expenses?	Yes. In-Network- <b>\$6,000</b> Individual/ <b>\$12,000</b> Family Total. Out-of-Network- <b>\$12,000</b> Individual/ <b>\$24,000</b> Family Total.	The <u>out-of-pocket limit</u> is the most you could pay during a coverage period (usually one year) for your share of the cost of covered services. This limit hely you plan for health care expenses.	
What is not included in the <u>out-of-pocket</u> limit?	Premiums, balance-billed charges, health care this plan doesn't cover and penalties for failure to obtain pre-authorization for services	Even though you pay these expenses, they don't count toward the <u>out-of-</u> <u>pocketlimit.</u>	
Is there an overall annual limit on what the plan pays?	Yes.	This plan will pay for covered services only up to this limit during each coverage period, even if your own need is greater. You're responsible for all expenses above this limit. The chart starting on page 2 describes <i>specific</i> coverage limits, such as limits on the number of office visits.	

Does this plan use a <u>network</u> of <u>providers</u> ?	Yes. For a list of In-Network providers, see www.bcbsnc.com/ content/providersearch/index.htm or please call 1-877-275-9787	If you use an in-network doctor or other health care <b>provider</b> , this plan will pay some or all of the costs of covered services. Be aware, your in-network doctor or hospital may use an out-of-network <b>provider</b> for some services. Plans use the term in-network, <b>preferred</b> , or participating for <b>providers</b> in their <b>network</b> . See the chart starting on page 2 for how this plan pays different kinds of <b>providers</b> .
Do I need a referral to see a specialist?	No. You don't need a referral to see a specialist.	You can see the <u>specialist</u> you choose without permission from this plan.
Are there services this plan doesn't cover?	Yes.	Some of the services this plan doesn't cover are listed on a later page. See your policy or plan document for additional information about <u>excluded services.</u>

- <u>Copayments</u> are fixed dollar amounts (for example, \$15) you pay for covered health care, usually when you receive the service.
  <u>Coinsurance</u> is *your* share of the costs of a covered service, calculated as a percent of the <u>allowed amount</u> for the service. For example, if the plan's <u>allowed amount</u> for an overnight hospital stay is \$1,000, your <u>coinsurance</u> payment of 20% would be \$200. This may change if you haven't met your <u>deductible</u>.
  - The amount the plan pays for covered services is based on the <u>allowed amount</u>. If an out-of-network <u>provider</u> charges more than the <u>allowed amount</u>, you may have to pay the difference. For example, if an out-of-network hospital charges \$1,500 for an overnight stay and the <u>allowed amount</u> is \$1,000, you may have to pay the \$500 difference. (This is called <u>balance billing</u>.)
  - This plan may encourage you to use in-network **providers** by charging you lower **<u>deductibles</u>**, <u>copayments</u> and <u>coinsurance</u> amounts.

## **Excluded Services & Other Covered Services:**

## Your Rights to Continue Coverage:

If you lose coverage under the plan, then, depending upon the circumstances, Federal and State laws may provide protections that allow you to keep health coverage. Any such rights may be limited in duration and will require you to pay a **premium**, which may be significantly higher than the premium you pay while covered under the plan. Other limitations on your rights to continue coverage may also apply.

For more information on your rights to continue coverage, contact BCBSNC at 1-877-275-9787. You may also contact your state insurance department, the U.S. Department of Labor, Employee Benefits Security Administration at 1-866-444-3272 or www.dol.gov/ebsa, or the U.S. Department of Health and Human Services at 1-877-267-2323 x61565 or www.cciio.cms.gov.

## Your Grievance and Appeals Rights:

If you have a complaint or are dissatisfied with a denial of coverage for claims under your plan, you may be able to <u>appeal</u> or file a <u>grievance</u>. For questions about your rights, this notice, or assistance, you can contact: BCBSNC at 1-877-275-9787 or **mybcbsnc.com**. You may also receive assistance from the Department of Labor's Employee Benefits Security Administration at 1-866-444-EBSA (3272) or **www.dol.gov/ebsa/healthreform**, if applicable.

## Does This Coverage Provide Minimum Essential Coverage?

The Affordable Care Act requires most people to have health care coverage that qualifies as "minimum essential coverage". This plan or policy <u>does provide minimum essential coverage</u>.

## Does This Coverage Meet the Minimum Value Standard?

The Affordable Care Act establishes a minimum value standard of benefits of health plan. The minimum value standard is 60% (actuarial value). This health coverage <u>does meet</u> the minimum value standard for the benefits it provides.

\*Please note that although amounts contributed by an employer to an employee's HSA or integrated HRA should be taken into account for this calculation, the amount of that contribution, if unknown, has not been considered.

# About these Coverage Examples:

These examples show how this plan might cover medical care in given situations. Use these examples to see, in general, how much financial protection a sample patient might get if they are covered under different plans.

This is not a cost estimator.

Don't use these examples to estimate your actual costs under this plan. The actual care you receive will be different from these examples, and the cost of that care also will be different.

See the next page for important information about these examples.

## Questions and answers about Coverage Examples:

What are some of the assumptions behind the Coverage Examples?

- Costs don't include premiums.
- Sample care costs are based on national averages supplied by the U.S. Department of Health and Human Services, and aren't specific to a particular geographic area or health plan.
- Patient's condition was not an excluded or preexisting condition
- All services and treatments started and ended in the same coverage period.
- There are no other medical expenses for any member covered under this plan.
- Out-of-pocket expenses are based only on treating the condition in the example.
- The patient received all care from innetwork **providers**. If the patient had received care from out-of-network **providers**, costs would have been higher.

### What does a Coverage Example show?

For each treatment situation, the Coverage Example helps you see how <u>deductibles</u>, <u>copayments</u>, and <u>coinsurance</u> can add up. It also helps you see what expenses might be left up to you to pay because the service or treatment isn't covered or payment is limited.

## Does the Coverage Example predict my own care needs?

 Mo. Treatments shown are just examples. The care you would receive for this condition could be different based on your doctor's advice, your age, how serious your condition is, and many other factors.

## Does the Coverage Example predict my future expenses?

✗ <u>No.</u>Coverage Examples are <u>not</u> cost estimators. You can't use the examples to estimate costs for an actual condition. They are for comparative purposes only. Your own costs will be different depending on the care you receive, the prices your <u>providers</u> charge, and the reimbursement your health plan allows. Can I use Coverage Examples to compare plans?

 Yes. When you look at the Summary of Benefits and Coverage for other plans, you'll find the same Coverage Examples.
 When you compare plans, check the "Patient Pays" box for each example. The smaller that number, the more coverage the plan provides.

## Are there other costs I should consider when comparing plans?

Yes. An important cost is the premium you pay. Generally, the lower your premium, the more you'll pay in out-of-pocket costs, such as <u>copayments</u>, <u>deductibles</u>, and <u>coinsurance</u>. You should consider also contributions to accounts such as health savings accounts (HSAs), flexible spending arrangements (FSAs) or health reimbursement accounts (HRAs) that help you pay out-of-pocket expenses.
