

THANK YOU

**FOUNDATION FOR WOMEN & GIRLS WITH
BLOOD DISORDERS**

2020

IMPACT AND GRATITUDE REPORT

OUR MISSION

The Foundation for Women & Girls with Blood Disorders works to ensure that all women and girls with blood disorders are correctly diagnosed and optimally managed at every life stage.

We achieve this by:

- Raising awareness and educating key healthcare professionals
- Translating and disseminating information and research
- Nurturing future healthcare leaders
- Fostering collaboration and generating knowledge among core disciplines

Thank you

Dear Friends,

Ten years have passed since Andra James, MD, MPH, Barbara Konkle, MD, Roshni Kulkarni, MD, and Ann-Marie Nazzaro, PhD, established the Foundation for Women & Girls with Blood Disorders (FWGBD). Their combined efforts created a ripple effect, impacting thousands of healthcare professionals across the country and the women and young women for whom they care. Since our start, FWGBD has educated over 8,000 professionals about the unique needs that women and girls with blood disorders face across the life span. And it has played a vital role in increasing women’s access to knowledgeable providers and designated services for women and girls by raising awareness, advancing knowledge, fostering collaboration between key disciplines, and inspiring individuals and organizations into action.

All of this has been possible because of your support. Together, during 2020, new and old partnerships as well as individual donations helped us do what we do best: educate providers and change lives. This year, we:

- **Launched** our first membership offering and welcomed 256 professionals as official members of our organization
- **Worked with 55 faculty/experts** who donated their time and talent to our actions to raise awareness and advance the knowledge of their peers to improve the lives of women and girls with blood disorders
- **Expanded our WGBD Learning Action Network (LAN) membership** to include 200 members representing 71 institutions located in 40 states, as well as one (1) in Canada and one (1) in Utrecht, Netherlands
- **Marked our first decade by holding our first, biennial national conference, FWGBD 2020**
- **Convened our third WGSCD LAN meeting and our sixth WGBD LAN meeting** virtually
- **Hosted two live Webinars**, both now archived on fwgbd.org
- **Awarded one additional research fellowship award in Spring of 2020**, and plan to **award three more early in 2021**, and
- **Continued to publish original stories and answers to common questions** to increase awareness, enhance knowledge and inspire action

We couldn’t have done this without you. Your ongoing investment ensures that in 2021 we can continue to take bold steps towards making our vision a reality, so that one day, all women and girls with blood disorders are correctly diagnosed and optimally managed at every life stage. While this year is hard to wrap our heads around, we look back on the bright spots of the year-hard work with colleagues, wonderful virtual celebrations with friends, and the unwavering support of our members and donors. We look forward to the engaging opportunities that await all of us in 2021.

*With GRATITUDE,
 The FWGBD Team*

2020 HIGHLIGHTS

Thank you

“Great content!! Always so interesting and relevant.”

For ten years, the Foundation has raised awareness and provided education of excellence to over 8,000 healthcare professionals about the unique needs of women and girls with blood disorders. This is a brief summary of some of our work performed this year.

APRIL 6, 2020

Live Virtual Workshop: CDC / FWGBD SCD Women's Reproductive Health Workshop

Co-Chairs: Craig Hooper, PhD; Andra H. James, MD, MPH
Faculty: Kim Smith-Whitley, MD; Lydia H. Pecker, MD; Mary Hulihan, PhD; Sheree Lynn Boulet, DrPH, MPH

The purpose of this workshop was to convene leading experts/sickle cell center program directors/researchers/clinicians to better understand the issues, review current practices and evidence-based information on the optimal clinical management of women with SCD and SCT across the lifespan. The initial outcome of the meeting was a summary of the recommended strategies and next steps for the optimal treatment and management of women with SCD. The meeting was co-organized in partnership with the Division of Blood Disorders at the Centers for Disease Control and Prevention (CDC).

28 professionals attended.

AUGUST 1-8, 2020

National Hemophilia Foundation (NHF) Conference (Virtual)

FWGBD took part in NHF's second national public health conference, with speaker Dr. Kristina Haley (OHSU) presenting on 8/8/20 on the topic of Heavy Menstrual Bleeding in Adolescents: Lessons Learned from a Multi-disciplinary Clinic.

100+ patients/professionals attended.

AUGUST 10-11, 2020

Live Symposium: NIH Annual SCD Clinical Researchers Meeting (Virtual)

FWGBD MAC member Kim Smith-Whitley, MD chairing our session featuring Lydia H. Pecker, MD, Naomi Tepper, MD, MPH, FACOG, and Sarah O'Brien, MD, MSc who discussed issues related to fertility, fertility preservation and contraception for women with SCD.

Potential research gaps and priorities were also discussed.

400+ professionals attended.

AUGUST 25, 2020

Live Webinar: Addressing the Management of ITP: An Introduction and Review of the Most Recent ASH 2019 Clinical Practice Guidelines for ITP

Presented by Dr. Terry Gernsheimer and moderated by Dr. Gowthami Arepally, our faculty reviewed the evidence-based recommendations and recently updated 2019 ASH ITP Clinical Guidelines covering the management of ITP. In addition, a special focus was on the maternal and potential fetal considerations professionals must address in making evidence-based decisions.

77 professionals attended.

SEPTEMBER 17, 2020

WGSCD LAN Annual Workshop III (Virtual)

FWGBD hosted its third Women/Girls Sickle Cell Disease Learning Action Network workshop.

49 professionals attended.

SEPTEMBER 18, 2020

WGBD LAN Annual Workshop VI (Virtual)

FWGBD hosted its sixth Women/Girls Bleeding Disorder Learning Action Network workshop.

88 professionals attended.

SEPTEMBER 24-25, 2020

FWGBD 2020 Conference (Virtual)

FWGBD held its first national conference over two days. The meeting featured 33 internationally renowned physicians and researchers; four plenaries, as well as two sets of breakout workshops, with two concurrent sessions each; and, featured a special interactive panel discussion related to COVID-19, pregnancy and thrombosis.

255 professionals attended.

OCTOBER 9, 2020

Live Webinar: Addressing the Use of Long-Acting Reversible Contraception (LARC), with Special Considerations for Use with Young Women and Women with Heavy Menstrual Bleeding

FWGBD WGBD LAN members Dr. Oluyemisi Adeyemi-Fowode and Dr. Allison Wheeler detailed current best practices on the use and management of long-acting reversible contraception (LARC) in women of reproductive age, with special considerations for young women/women who experience or are at risk of experiencing heavy menstrual bleeding. Dr. Claudia Borzutzky moderated the program.

42 professionals attended.

NOVEMBER 1-3, 2020

Being Visible: Women with Hemophilia Conference (Virtual)

FWGBD presented at the third national conference for women with hemophilia, with FWGBD executive director Kerry Funkhouser, EdD, joining a panel and speaking on the WGBD LAN and Designated Clinics for Young Women/Women with Bleeding Disorders.

100 patients/professionals attended.

Also...FWGBD Virtual Booths at these Meetings in 2020:

Oct. 13-17: Sickle Cell Disease Association of America (SCDAA)

Oct. 27-29: Thrombosis & Hemostasis Summit of North America (THSNA)

Nov. 19-20: World Federation of Hemophilia (WFH) Global Summit on Women and Girls with Inherited Blood Disorders

Dec. 5-8: American Society of Hematology (ASH)

255 professionals attended the virtual event;
263 registered; 205 attended events on Day 1 and 178 attended events on Day 2

Day 1
Welcome and Opening Remarks: Conference Co-Chairs: Janice Bacon, MD; Ravi Sarode, MD; Andra H. James, MD, MPH, FWGBD Founding President

Plenary 1: Bleeding Across the Lifespan – What’s Common and What’s Not? Obstetrical, Gynecological and Hematological Perspectives
Faculty: Roshni Kulkarni, MD and Andra H. James, MD, MPH (Moderators); Jeffrey Jensen, MD, MPH; Shannon Carpenter, MD, MS, FAAP; Chad Grotegut, MD, MBA, MHS

Plenary 2: The Challenges of SCD for Women – HMB from GYN Perspective, Pain During Menstruation and Pregnancy
Faculty: Kim Smith-Whitley, MD (Moderator); Russell Ware, MD, PhD; Alecia Nero, MD, MSCS, FACP; Deva Sharma, MD, MS

Breakout Workshops

- A. Your Guide to Acute Bleeding in a Patient with Heavy Menstrual Bleeding
Faculty: Angela Weyand, MD (Moderator); Ayesha Zia, MD; Maureen Baldwin, MD, MPH
- B. When Bleeding Patients Clot
Faculty: Bethany Samuelson Bannow, MD (Moderator); Kelley McLean, MD; Lisa Baumann Kreuziger, MD, MS
- C. Caring for Special Populations: Pharmacological Considerations for Transgender Youth and Starting a Transgender Clinic
Faculty: Kristina Haley, DO, MCR (Moderator); Eric Mullins, MD; Tanya L. Kowalczyk Mullins, MD, MS; Nancy Sokkary, MD
- D. Common Encounters: Females with Mild or Moderate Hemophilia and Ehlers-Danlos Syndrome in Women & Girls with Bleeding Disorders
Faculty: Meera Chitlur, MD (Moderator); Robert Sidonio, Jr., MD, MSc; Pamela Trapane, MD

Day 2
Plenary 3: Stopping the Clot: Etiology, Prophylaxis and the Role & Risks of Hormonal Therapy - Thrombotic Risks, Anticoagulation Issues, OCP
Faculty: Alice Cohen, MD FACP (Moderator); Stephan Moll, MD; Mary Cushman, MD, MSc; Shannon Bates, MDCM, MSc, FRCPC

Plenary 4: Bleeding and Clotting Conundrums
Faculty: Barbara A. Konkle, MD; Andra H. James, MD, MPH; Margaret Ragni, MD, MPH

- Special Programs**
- COVID-19 Panel: Ask the Experts
Faculty: Ravi Sarode, MD (Moderator); Annemarie Fogerty, MD; Luis Pacheco, MD
 - Keynote Address: Dr. Alexis Thompson (Moderated by Dr. Janice Bacon)
 - Closing Remarks by FWGBD Founders: Dr. Andra James, Dr. Barbara Konkle, and Dr. Roshni Kulkarni

“The FWGBD conferences/colloquiums continue to be my favorite. Leading experts at your fingertips and passionate group of attendees. The topics were great.”

Thank you

FWGBD 2020 PROGRAM HIGHLIGHTS

September 24-25, 2020

FWGBD 2020 was held on September 24 and 25, 2020, from 11 AM to 5 PM each day. COVID-19 was at its peak and the conference planners were prepared to pivot to a virtual platform and all speakers, sponsors and exhibitors were notified in advance the event would go on even if we could not meet in-person. Ultimately, FWGBD and the committee decided to focus on the well-being of its community while providing important education and decided to transition FWGBD 2020 to a virtual experience for the entire two days.

Recap of FWGBD 2020

- Featured 33 internationally renowned physicians and researchers
- Four plenaries, as well as two sets of breakout workshops, with two concurrent each
- Featured a special interactive panel discussion related to COVID-19, pregnancy and thrombosis
- 7 Sponsors
- 11 Exhibitors
- Closed with a celebratory keynote address; attendees were inspired by the words of Alexis Thompson, MD, MPH, Section Chief of Hematology in the Department of Pediatrics at Ann and Robert H. Lurie Children’s Hospital of Chicago and the Sarah Armour Endowed Chair for Blood Diseases and Cancer. She is also a Professor of Pediatrics at the Northwestern University Feinberg School of Medicine and has served on numerous regional and national advisory committees as well as non-profit organizations. She was past President of the American Society of Hematology and is a current member of FWGBD’s Medical Advisory Committee. Many who attended the keynote described Dr. Thompson’s speech as being heartfelt, helpful and inspiring.
- Approximately 107 registered participants have continued to watch content after the meeting’s conclusion

100% agreed the format of the discussion was relevant and enhanced their knowledge of the subject

89% said it provided new ideas or information that they expect to use

86% said information gained from this conference will result in making a change in their practice

Thank you

WEBINAR HIGHLIGHTS

Archiving our live symposia and webinars enables us to share the inspiring and necessary information healthcare professionals need to effectively care for women and girls with blood disorders.

August 25, 2020

Live Webinar: Addressing the Management of ITP: An Introduction and Review of the Most Recent ASH 2019 Clinical Practice Guidelines for ITP

Faculty: Terry B. Gernsheimer, MD and Gowthami M. Arepally, MD (Moderator)

Learning Objectives:

- Review the process for developing the 2019 ASH ITP Clinical Guidelines, as well as their strengths and limitations
- Understand the clinical importance of, and apply to practice, the 2019 ASH ITP Clinical Practice Guidelines
- Recognize and understand differences in recommendations in these guidelines compared to those developed by other organizations
- Discuss and describe the potential maternal and fetal consequences of ITP and considerations professionals must address in making decisions regarding the management of women with ITP

Pre-registrations: 148
Attendees of Live Event: 77
CE Certificates awarded: 24

Program Evaluation completed by: 24
Overall rating: 98% Excellent/Good
Average pre-test scores: 57%
Average post-test scores: 75%
Knowledge gain: 33%

100%

of participants reported the Webinars enhanced their knowledge the subject

97%

of participants
• rated the Webinars as Excellent/Good
• reported the Webinars increased their Competence

October 9, 2020

Live Webinar: Addressing the Use of Long-Acting Reversible Contraception (LARC), with Special Considerations for Use with Young Women and Women with Heavy Menstrual Bleeding

Faculty: Oluyemisi Adeyemi-Fowode, MD, FACOG; Allison Paroskie Wheeler, MD, MSCI; and Claudia Borzutzky, MD (Moderator)

Learning Objectives:

- Understand the importance of, and apply to practice, assessing and monitoring patients for the identification of appropriate patients for intrauterine contraception
- Describe the proper placement of intrauterine contraception
- Discuss the effectiveness and safety of intrauterine contraception in young women/women, especially those women who are at risk for or experience heavy menstrual bleeding
- Review the anticipatory guidance needed prior to initiation of the method
- Discuss best practices regarding pre-medication, insertion and post procedure for LNG-IUS
- Discuss ways in which collaboration with hematology augments management

Pre-registrations: 67
Attendees of Live Event: 42
CE Certificates awarded: 10

Program Evaluation completed by: 13
Overall rating: 100% Excellent/Good
Average pre-test scores: 56%
Average post-test scores: 79%
Knowledge gain: 40.9%

100%

of participants of BOTH meetings
 • felt the program met their learning needs,
 • said speakers were knowledgeable, and
 • the format enhanced current knowledge base

SEPTEMBER 17, 2020

WGSCD LAN Virtual Workshop III

49 participants representing
 22 institutions from 19 states

Educational Topics Covered:

- Keynote Presentation: Reproductive Health for Women and Girls with Sickle Cell Disease
- CDC SCD Workgroup Update - Knowledge Gaps in the Field
- WGSCD LAN Collaborative Research Projects - Planning Work, Discussion
- WGSCD Subcommittee Breakout Work
- Introduction to the SCD Center at Children’s Healthcare of Atlanta/Emory
- Peer-to-Peer Discussion
- Identifying the key items of a SCD Program for Women/Young Women

Planned Practice Changes Noted by Attendees:

- Providing more educational resources (for patients)
- Discuss hormonal therapy that may be considered to reduce menstrual cycle pain that could provoke VOC pain
- Reaching out to other expertise/disciplines
- I think making sure that we are as open and honest as we can be, having the conversations more often can help overcome barriers, and also ensuring that we have additional educational materials on the topics of concern
- Explore new and exciting models
- Presenting the literature about the gaps in current care and engaging them in strategy discussion to address those gaps at our institution
- As our team grows, awareness and getting them involved in FWGBD’s efforts would be the first step

Thank you

LEARNING ACTION NETWORKS

WGBD AND WGSCD LAN WORKSHOPS

In 2016, FWGBD launched its Learning Action Network (LAN) initiative to bring together healthcare professionals to harness the power of collaboration, spread practical implementation of best practices, and connect participants across disciplines to improve quality of care for women and girls with blood disorders.

SEPTEMBER 18, 2020

WGBD LAN Virtual Workshop VI

88 participants representing
 35 institutions from 24 states

Educational Topics Covered:

- Keynote Presentation: Working in the New Normal: Telehealth, Your Clinic, Your Patients and You
- Introduction to the Girl Squad Community Outreach Program, Children’s Hospital of Michigan
- WGBD LAN Collaborative Research Projects: Current & Future
- Subcommittee work and Reports
- Introduction to the Children’s Healthcare of Atlanta/Emory Adolescent and Young Adult’s Clinic
- Peer-to-Peer Panel Discussion: Career, Communication, Collaboration

Desired Clinical Practice Changes that participants said they will make as a result of this activity:

- Being more mindful of telemedicine setting; Setting ground rules/expectations for the interaction
- Improve telehealth visits; work with mentors to achieve goals
- Communicating with girls especially before menarche what is normal vs. abnormal bleeding; Try to be more present during telemedicine calls, zoom meetings, etc.
- Use more of the techniques shared by Dr. Norris with respect to communication with patients
- Will work on guidelines for iron deficiency screening - will include nutrition consults in clinic
- I will be more knowledgeable about WGBD issues, teaching materials

Thank you

RESEARCH AWARDS

2020 Special Award Focus Area: Bleeding Disorders Affecting Women and Girls (\$35,000) -

The following award was made possible through a medical education grant from Shire.

Recipient:

Chelsea Kebodeaux, MD, PGY 6
Pediatric and Adolescent Gynecology Fellow
Baylor College of Medicine

Mentor:

Dr. Oluyemisi Adeyemi-Fowode

Project Title:

Alternate-day versus daily oral iron therapy in adolescents with iron deficiency anemia and heavy menstrual bleeding: a randomized clinical trial

Project Description:

Dr. Kebodeaux's study aims to optimize the treatment of iron deficiency anemia due to heavy menstrual bleeding. The results of her project will provide valuable pilot data that can be expanded upon to improve the treatment of iron deficiency anemia in adolescent females with heavy menstrual bleeding and bleeding disorders which in turn lead to improved quality of life for patients.

Since 2016, FWGBD has awarded \$320,000* in research awards.

(*85,000 of this to be awarded in 2021)

The objectives of the Promoting XXcellence in Women's Health: Optimal Management of Women and Girls with Blood Disorders awards are to:

1. Foster and sustain interest/knowledge of the next-generation of healthcare providers, i.e., physician-researchers working in blood or bleeding disorders affecting women/girls.
2. Foster collaboration between two core disciplines for WGBD - the Hematologist and the Women's Reproductive Health Specialist.
3. Support an opportunity for junior faculty or fellows to conduct research in these important areas.

12* AWARDS
granted
since 2016

(*3 to be awarded
still in early 2021)

\$320,000*
awarded
since 2016

(*85,000 of this to be
awarded in 2021)

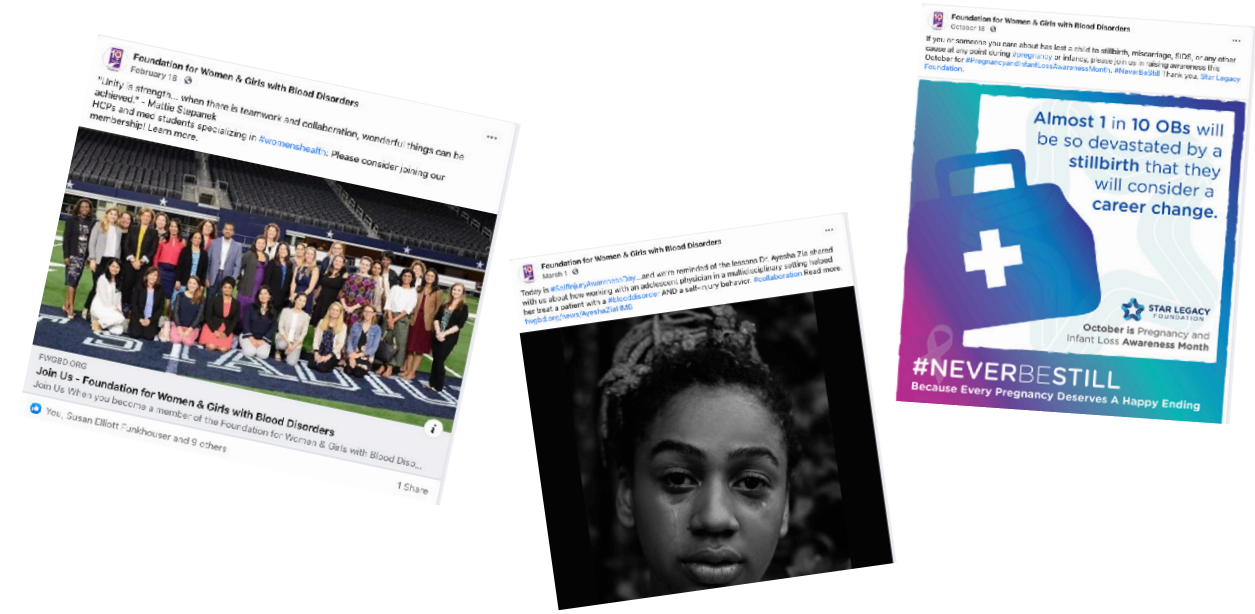

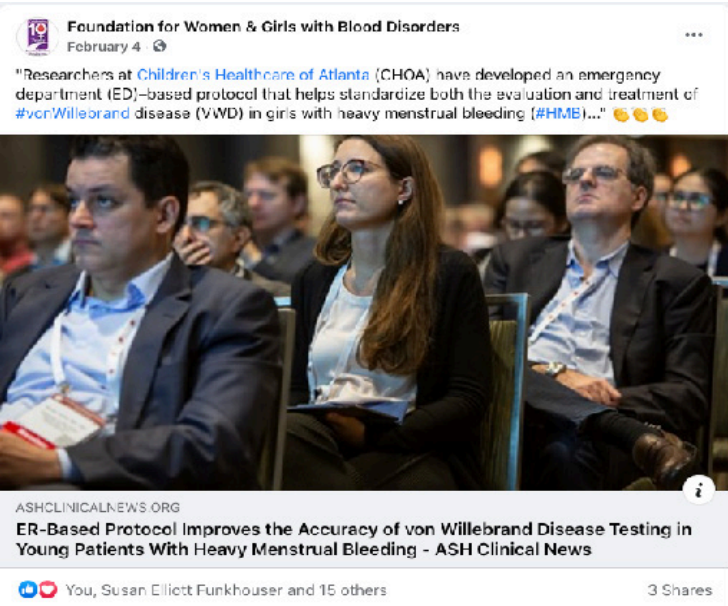

4 Volunteers
reviewed the
research award
applications

"As a surgeon in training with a particular interest in the basic sciences around trauma induced coagulopathy, I had a very circuitous route to becoming part of the Foundation family in that I became interested in sex hormones and how they affect coagulation. Those interests ultimately led me to meet Dr. James, Dr. Funkhouser and ultimately being welcomed into the Foundation Family, which is an extremely diverse group that I feel honored to be part of that family."

Dr. Julia Coleman
2018 RFA Recipient

Facebook

The FWGBD Facebook community is comprised of 1,111 individuals. Sixty-one (61) individuals joined us in 2020, generating a 6% growth rate. Our top posts by reach and engagement in the order they were published are...

Twitter

FWGBD uses Twitter as a two-way flow of communication for sharing and gathering timely updates from the blood disorders health sphere. Through this medium we are able to share critical snapshots of our work, show cause-related support, highlight our impact on the ground, and weigh in on women's health-related news from around the world.

The FWGBD Twitter community is comprised of 541 followers. Of these individuals, 42 were new in 2020, showing a 12% increase over 2019.

YouTube

FWGBD has a total of 275 subscribers, which is a 141% increase since 2019.

- 24.6k views (6.2k in 2019) - up 297%
- 41.4k watch hours (436.2 in 2019, 247.2 in 2018) - up 221%

Ask the Experts: Tranexamic Acid Use for Heavy Menstrual Bleeding = 8.2k views (8,230 views) (Top Video)

OUR REACH

The FWGBD Community

FWGBD is continuing to build a community of people who learn about the unique needs of women and girls with blood disorders through our programs, our Website, and our social media channels. These individuals are consciously opting to be a part of our mission. They are signing up to receive regular information, attend events, donate resources, or engage in other ways with and on behalf of FWGBD. We want to continue to build and energize these individuals with regular contact and interaction.

Web Traffic – fwgbd.org

In 2020, our Website had 14,824 unique users at fwgbd.org, who visited us a total of 19,630 times. Compared with 11,791 / 15,629 last year, we've grown our Website reach by 24% and our visits by 24%. Our users reside in 146 countries across the globe.

Aside from our homepage, these pages had high traffic in 2020:

- <http://www.fwgbd.org/conference>
- <http://www.fwgbd.org/conference/fwgbd-2020-agenda-at-a-glance>
- <http://www.fwgbd.org/membership>

Newsletter

In 2020, our number of newsletter subscribers grew by 10%, with an average **open rate of 20% across all campaigns.***

*From Constant Contact analytics.

LinkedIn

In 2020, we now have 84 followers compared to 48 in 2019, showing a 75% increase.

Thank you

OUR 2020 PARTNERS

The Hemophilia Center of Western Pennsylvania (HCWP)

In 2020, the HTC partnered with us once again by granting us a financial matching grant of \$135,000. They continue to be one of our biggest supporters.

Hemostasis Thrombosis Research Society (HTRS)

In 2017 and 2019, FWGBD held an educational session focusing on uterine hemostasis preceding the HTRS/NASTH Scientific Symposium. They are a supportive and valued partner. In 2020, FWGBD and HTRS created a joint FWGBD/HTRS membership between the two organizations.

Thrombosis and Hemostasis Summit of North America (THSNA)

Since the idea to develop and implement a Summit on Thrombosis and Hemostasis was hatched in 2010, FWGBD has been a partner organization in planning this biennial Summit. FWGBD joined as a member of the TH Societies of NA-with FWGBD board member Kenneth Mann, PhD, representing FWGBD on their Board. FWGBD assisted in the development of the program for THSNA/Summit 2012, 2014, 2016 and 2018, and participated virtually in the recent 2020 Summit.

Foundation, Industry, and Government Support

With your generosity, FWGBD continued to provide education of excellence and support the next generation of healthcare providers.
