On June 6th, Onslow County was presented with the NC Works Certified Work Ready Community Certificate. The NC Works Certified Communities initiative is designed to support economic development by providing a county's local workforce with documented foundational skills, processes and tools to enhance North Carolina's global competitiveness. As a Certified ACT Work Ready Community, Onslow County is demonstrating they have the partnerships in place that support a robust workforce development program and is serious about growing the workforce to meet industry.

You may watch the brief ceremony program on G-10. To learn more about how your business could benefit, please visit: [www.workreadycommunities.org](http://www.workreadycommunities.org)
