

MedAccess Urgent Care PLLC, a locally owned leader in the urgent care industry, has an extensive Employer Health Services program.

As Director of our Employer Health Services division, I work closely with local business and industry operations to establish partnerships where MAUC can assist with Employer Health Services, either on site at your location or at one of our clinics located in Roxboro or Youngsville.

Lynn West is our Employer Health Service Coordinator. She facilitates the clinical performance of EHS exams, as well as oversees the training of staff and provides quality management of our services.

MedAccess is an innovative leader offering a wide range of services such as Drug Screens, Breath Alcohol Screens, Pre-Employment Physicals, Haz-Mat and CDL Physicals and Functional Capacity Exams (see enclosed Menu of Employer Health Services). Our services are designed to improve the health and wellness of your employees and ensure safety of your job site. All of which translates into a healthy, safe and productive workforce.

I would be delighted to meet with you, tour your facility to better understand your needs, and tailor our services to accommodate your unique requirements.

We look forward to the opportunity to tell you more about our services, including creating programs to bring to your site. We will work to satisfy your individual needs. Please call Lynn or myself for more information. I would be glad to make an onsite visit at your convenience!

Thank you for your time,

Amanda B. Smith, Director
Employer Health Services
